# Third info session on Trafalgar Rd. improvements set for next week

*Will look at Maple Ave. and Trafalgar Rd. intersection*

Three alternatives to upgrading the Trafalgar Road corridor will be available, along with more information on the project, next Wednesday.

On Dec. 2, a third public information centre (PIC) will be taking place to update Halton Hills residents on the upgrades Trafalgar Rd. (from Steeles Ave. to Hwy. 7) may see in the future.

Lisa De Angelis, Public Works Director of Infrastructure Planning and Policy for the Halton Region, said the road will keep in the same alignment it currently stands now but will feature some modifications, in the form of three alternatives, that will be discussed on Dec. 2.

"The major differences between the three alternatives were really around how we were treating the intersection at Maple and Trafalgar," she explained, noting in two of the alternatives, the intersection moves east, and in

the other, it moves west.

"At this meeting next week, we will be coming out and presenting what our preliminary preferred alternative is."

Through the Municipal Class Environmental Assessment (EA), the region also looks to address any safety concerns and make the road more safe for pedestrians in the forms of bike lanes, sidewalks and multi-use paths.

"We want to ensure whatever infrastructure we put in place provides for safe travel, so it's not just about travel demand, it's also about safety," De Angelis explained.

The meeting will take place in the Gordon Alcott Heritage Hall at the Mold-Masters SportsPlex, 221 Guelph St. in Georgetown. The information session will take place between 6:30 and 8:30 p.m. and everyone is invited to drop by at any time.

"We're excited to get out with the public and have them come," De Angelis said. "This is really our opportunity to get that feedback from the community."
