**... Lend Me Your Ears**

**By Cory Soal** R.H.A.D.

**FOOD ALLERGIES MAY CAUSE EAR INFECTIONS**

If your child suffers from frequent ear infections, and you can't pin point the cause, it may be something he/her ate. It's recently been found that food allergies may trigger ear infections, which left untreated can cause hearing loss.

The allergies create mucous congestion in the nose, which then flows into the tube connecting the nose to the ears. Eventually the tube gets blocked and infection causing bacteria grow.

To determine if food allergies are causing your child's ear infection have him/her tested. Once the troublesome food is discovered your physician can suggest alternatives. And take heart, kids often outgrow food allergies – and their tendency towards ear infections.

# Information session on Emerald Ash Borer at Terra Cotta

Credit Valley Conservation (CVC) is hosting a public information session about the impacts of the emerald ash borer at Terra Cotta Conservation Area.

CVC is currently managing Terra Cotta's ash trees because of the presence of the borer. The organization will be treating infected trees and removing ones that cannot be saved.

The event will take place Dec. 3 from 6 to 9 p.m. at the Terra Cotta Community Centre, 18 High St., Terra Cotta. For more information, please visit [www.creditvalley.ca/ca/eab](http://www.creditvalley.ca/ca/eab).

**Halton REGION**

**NOTICE OF PUBLIC INFORMATION CENTRE #3**

**Class Environmental Assessment Study**  
**Trafalgar Road (Regional Road 3) Transportation Corridor Improvements**  
**Steeles Avenue (Regional Road 8) to Highway 7, Town of Halton Hills**  
**PR-2960A/PR-2961A**

**The Study**  
Halton Region is undertaking a Municipal Class Environmental Assessment (Class EA) study to further improve public safety and undertake road improvements along the Trafalgar Road (Regional Road 3) corridor from Steeles Avenue (Regional Road 8) to Highway 7, within the Town of Halton Hills.

To best address road safety and travel demand along Trafalgar Road, a number of road improvement alternatives have been examined as part of this study, including intersection improvements, active transportation and overall traffic operations to 2031. The impact of road improvements on social, cultural, economic and natural environments have been evaluated and assessed during the study.

**The Process**  
The study is being conducted in compliance with Schedule C of the Municipal Class Environmental Assessment (October 2000, amended 2007 and 2011), which is approved under the *Ontario Environmental Assessment Act*. Previous Public Information Centres (PIC's) were held on November 20, 2014 and June 17, 2015 to obtain public input.

A final Public Information Centre will be held to present the design concepts, evaluation of alternatives and the recommended preliminary preferred design. The final Public Information Centre has been arranged for:

Date: Wednesday, December 2, 2015

Time: Drop-in: 6:30 – 8:30 p.m.

Location: Gordon Alcott Heritage Hall, Mold-Masters SportsPlex, 221 Guelph Street, Georgetown

**Comments**  
If you are unable to attend the Public Information Centre and would like to provide comments, please forward them by Friday, December 18, 2015 to either Project Team member. For more information on this project, please visit the project website at [halton.ca/EAprojects](http://halton.ca/EAprojects).
