COMMUNITY

Go on an Owl Prowl

Mountsberg Conservation Area is once again gearing up for its popular winter Owl Prowl programs. Intrepid prowlers will be provided with lots of information on native Ontario owls during a winter night hike to search for wild local owls.

There are four Owl Prowl nights scheduled: Friday, Jan. 15 and 22 (7-9 p.m.) are advanced Prowls for Adults, while Saturday, Jan. 16 and 23 (6:30-8:30 p.m.) are all-ages Family Nights. Both evenings feature visits with the Mountsberg Raptor Centre's resident birds of prey to give guests a memorable 'nose-to-beak' experience.

The Family Nights also include a puppet show and a special campfire story time, while the advanced Prowl gives nature-minded adults a chance to learn the fine details of owl behaviour, anatomy, and natural history.

Admission for the Owl Prowl programs is by advance registration only online at www.conservationhalton.ca/events. Call Mountsberg at 905-854-2276 for more information on

the program.

The advanced Adult Owl Prowl fees are adults \$16 and seniors (ages 65 and older) are \$11. The all-ages Family Night Owl Prowl

fees are adults \$16 and children, ages 5 to 14, years are \$11, while those four years and under are free. The fees do not include HST.

The Mountsberg Raptor Centre is currently home to 15 different species of native birds of prey. Many of the resident birds of prey have permanent injuries that have left them incapable of surviving on their own in the wild. In many cases, these injuries were caused by human activity.

With the help of these feathered ambassadors, the Mountsberg Raptor Centre teaches the community about the native birds of prey that share our environment and how to reduce the negative impact we can have on them.

Mountsberg Conservation Area is located on Milburough Line, five km west of Campbellville. This 472-hectare park includes extensive wetlands, forests, fields, and a reservoir.

Go on a search for wild owls at Mountsberg Conservation Area.
