VACATION TIME STILL ON!

The months of August and even the first part of September can still provide excellent weather for vacationers preferring the latter part of what may be considered prime time vacations. Camping, boating and cottagers still prove to be very active activities at this time of year. One of the big benefits to this particular time of year could be the colors of fall coming in a little bit early. Enjoying some "Indian" summer along with a rainbow of colors as the leaves start to change into their winter colors is very enjoyable to some.

THE FIRE PIT
with Captain David Ford

behaviors to avoid unintentional injury.

No matter the time of your holidays or the activities you took part in, it's very important that they were enjoyed injury and tragedy free. All too often, tragedies occur, which make these vacations memorable for all the wrong reasons. Getting caught up in all the excitement can sometimes prove to be very tragic. Broken bones, sprains and strains can be very painful and take a lot of time for healing causing serious setbacks in your activities.

Fact Is
More Canadian children die each year of injuries than of childhood disease, including cancer – making unintentional injuries the #1 health risk facing school aged children today. Our children are dying in what is termed all too often referred to as accidental incidents. We have an obligation to provide a safer future for the children in our lives and community. By educating children to recognize risk and by teaching them to make educated choices about the risk in their lives, we can reduce both the occurrence and consequences of unintentional injury. Caregivers, teachers, community members and parents can have a positive impact on our society by teaching our children to make the right choice.

Risk Watch Says
Bumps and bruises are an unavoidable part of a healthy childhood but, most injuries are not inevitable. Fires, drownings and traffic injuries are not random "accidents" – they are predictable and preventable. With education, motivation and the support of caring adults, children and the elderly can learn to practice

To make your vacation safer and more enjoyable, follow these few simple ideas: Wear an approved helmet when bicycling, when in or on the water wear an approved PFD or floatation device and wear your seat belt when in the car. Be safe and enjoy your vacation.
