NEWS

WHAT'S GOING ON HERE?

INTERSECTION NEAR PARK TO GET ALL-WAY STOP

Milton council has approved staff's recommendation to install an all-stop sign at the intersection of Santa Maria Boulevard and McLaughlin Avenue.

The town's engineering services department has conducted traffic studies over the past three years following "safety concerns" voiced by residents over the amount of traffic and pedestrians in the area.

JUST THE FACTS

- The intersection is located near the entrance of the Milton Sports Centre and Milton Community Park Skatepark.

- According to staff report, there were two reportable collision in the intersection in the last three years. The first was a

Bambang Sadewo/Torstar

right-angle collision and the second a turning movement collision.

- Implementing an all-way stop sign will help provide safe movements for motorists and pedestrians when entering the park complex.

- The cost for signage installation and pavements markings is approximately \$800.

- The work will be completed in the next couple of weeks.
