

NOTICE OF STUDY COMMENCEMENT AND PUBLIC INFORMATION CENTRE

CLASS ENVIRONMENTAL ASSESSMENT STUDY New Wastewater Forcemain from Fulton Street Pumping Station and Closure of Milton Wastewater Treatment Plant Town of Milton

Background

Halton Region has completed a comprehensive review of the wastewater servicing strategy for central Milton, including an assessment of the benefits of decommissioning the Milton Wastewater Treatment Plant (WWTP). This review evaluated several alternative servicing strategies that considered environmental, economic, social, legislative and technical impacts.

In October 2016, Halton Regional Council approved the preferred option to close the Milton WWTP and divert all of its flow to the much larger lake-based Mid-Halton WWTP located in Oakville. To facilitate this preferred option, a second wastewater forcemain (WWFM) from the Fulton Street Wastewater Pumping Station (WWPS) is required. Closure of the Milton WWTP is anticipated in 2021.

Halton Region is undertaking a Municipal Class Environmental Assessment Study (Class EA) to determine the preferred alignment of the proposed second WWFM from the Fulton WWPS to Derry Road/Santa Maria Boulevard, in the Town of Milton.

Class EA Process

Under the Municipal Class Environmental Assessment (2000, as amended 2015), decommissioning the Milton WWTP is a Schedule A+ project (pre-approved) subject to this notice, to advise the public that Halton Region is implementing this decision.

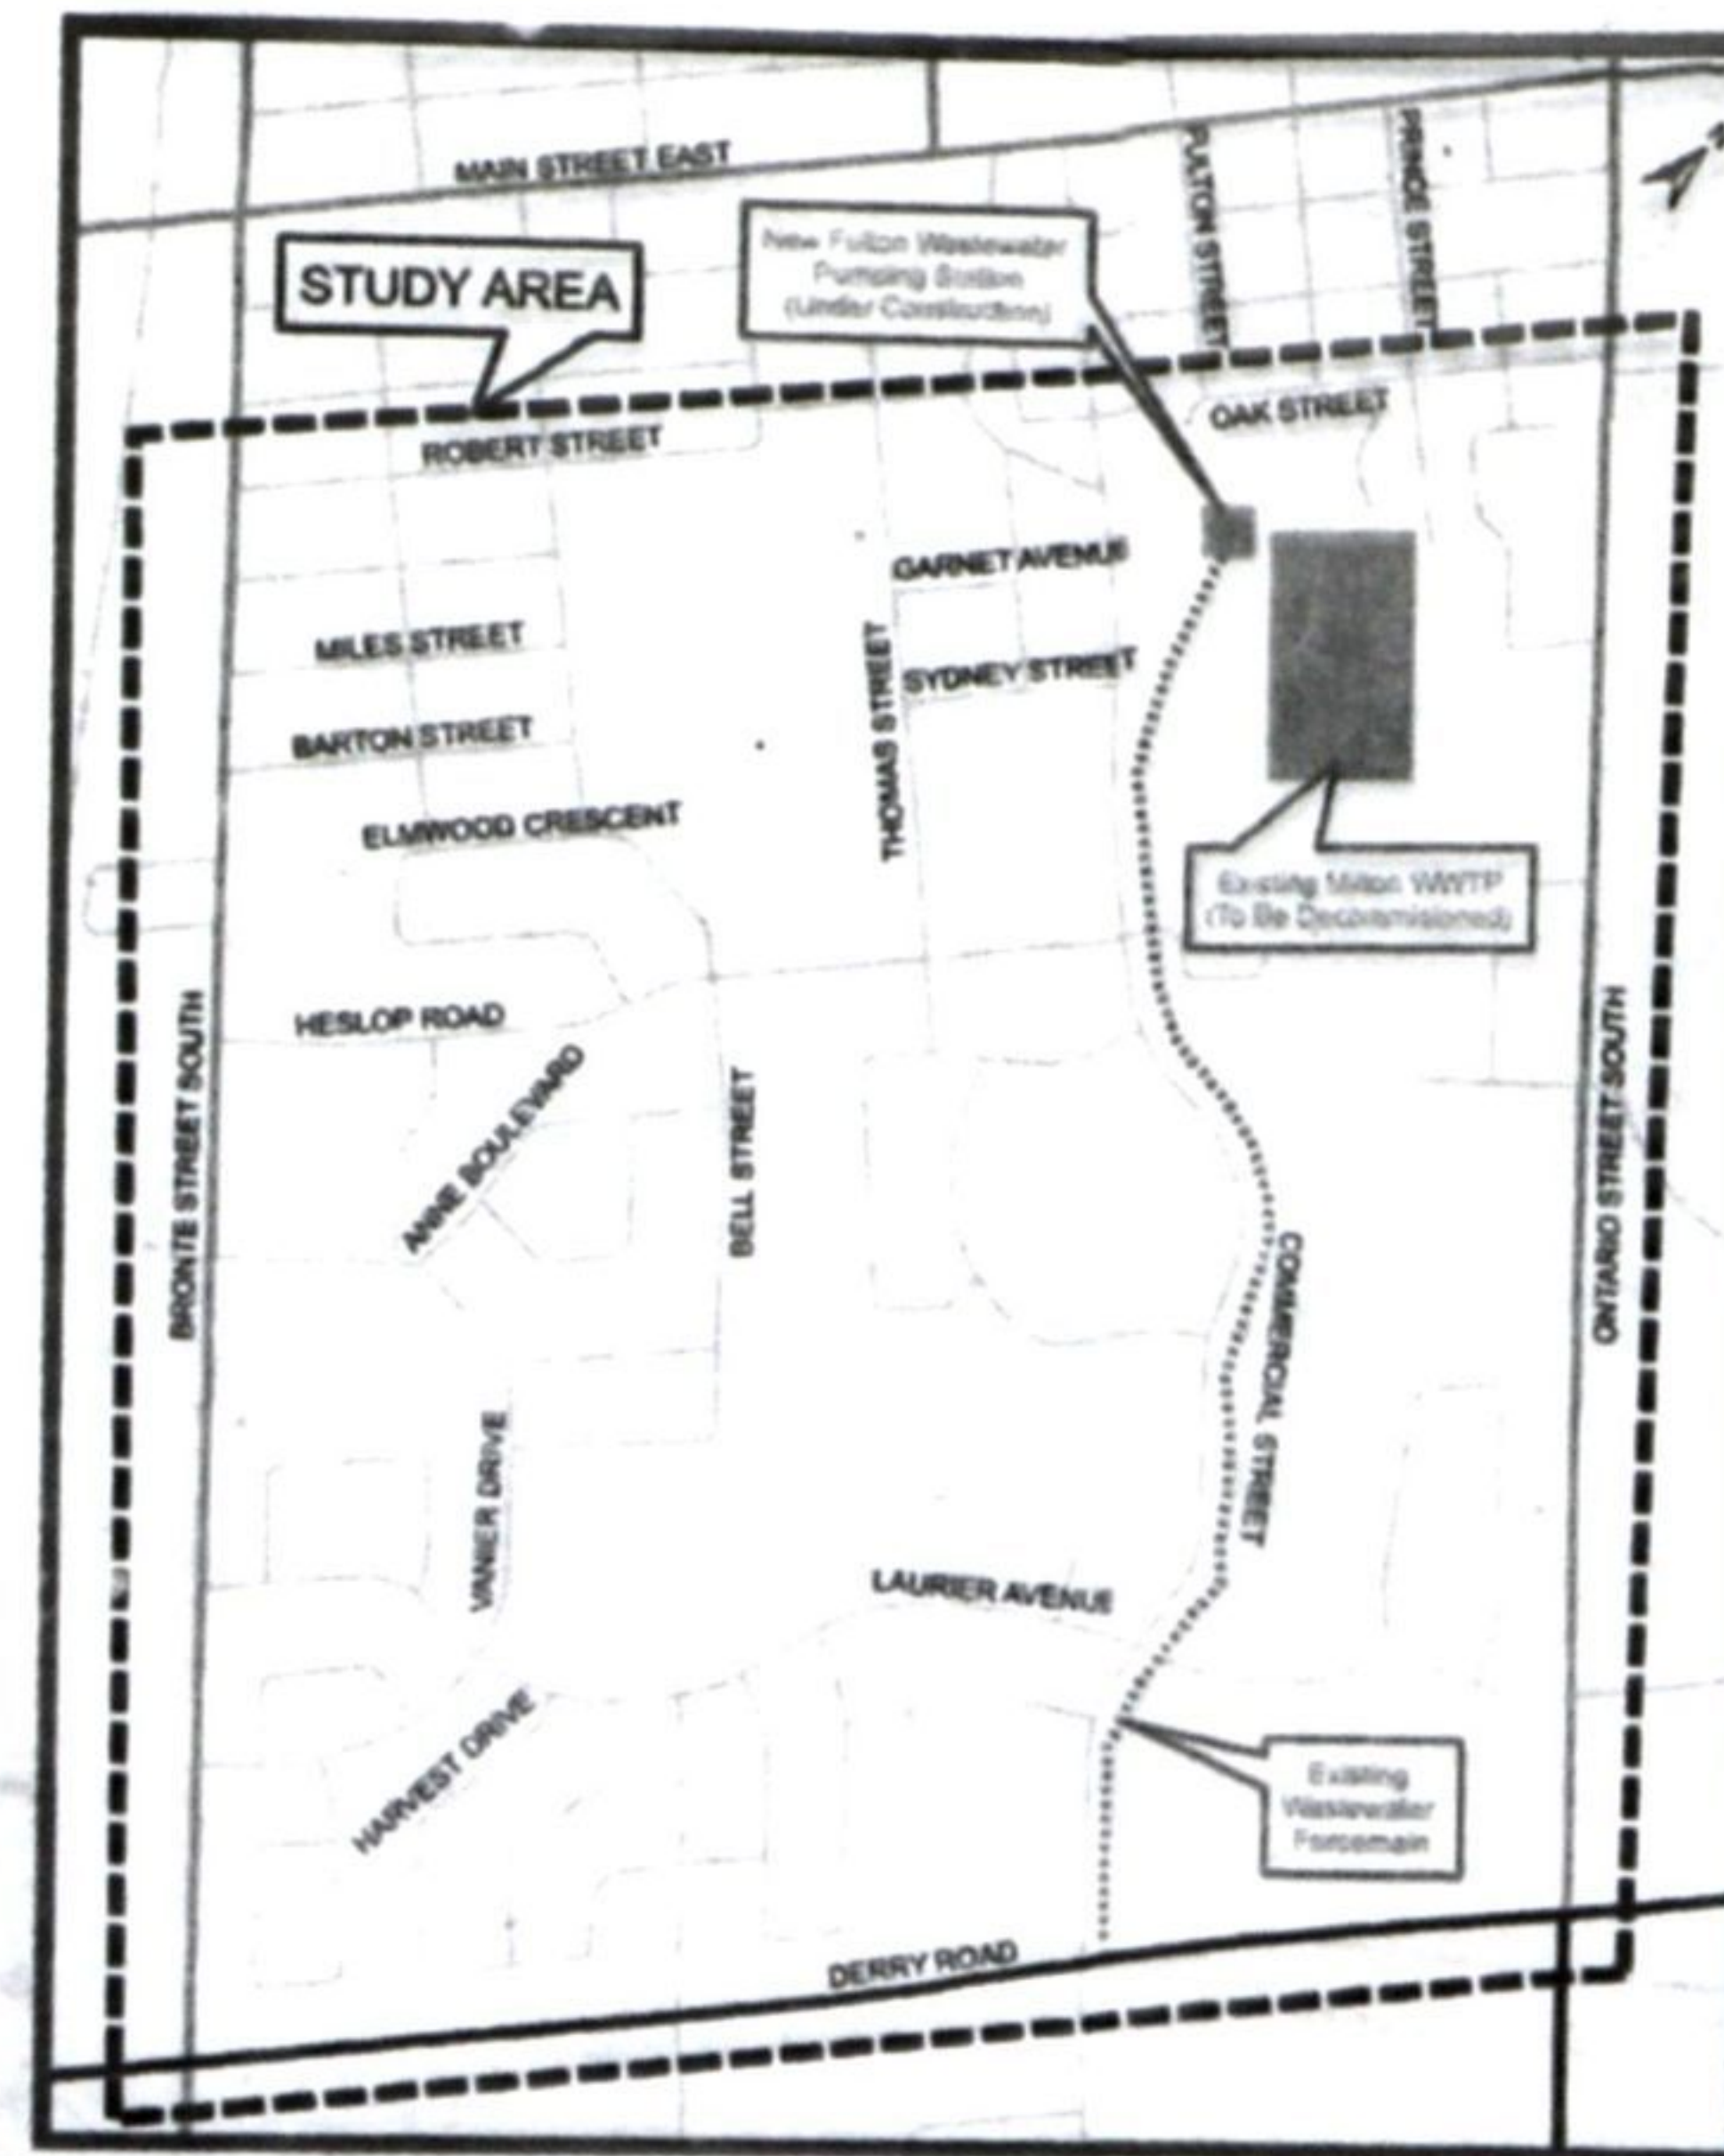

The construction of the proposed second WWFM from the Fulton Street WWPS is a Schedule B project and subject to project screening via this Class EA Study. A key component of the Class EA Study is consultation with interested stakeholders, such as the public and review agencies. Accordingly, you are invited to attend a Public Information Centre to learn about this project and provide your input on the preliminary evaluation results of WWFM route alternatives.

Halton Region staff and our consulting team will be available to provide information and answer questions:

Date: Wednesday, November 23, 2016
Time: 6:30 – 8:30 p.m. (drop-in meeting format)
Location: Milton Seniors' Activity Centre
 500 Childs Drive, Milton, ON

Comments

Comments received through the course of the study will be considered and documented in the Class EA Study Report. Additional information related to the study and consultation process may be obtained through the website: halton.ca/EAprojects

Please contact either of the project team members listed below if you have questions or would like to provide comments on this Class EA Study.
