

The Mental Health Center was established under a grant from the State of Illinois and has been officially in operation since January, 1960. In the last two years the Center has helped hundreds of patients from all over the county, the majority of them between 6 and 16 years of age. Fees are very modest, and the Center is urgently in need of increased contributions from individuals and groups of interested people who will underwrite a local mental health program. It is estimated that one out of every twelve American children born today will spend part of his life in a mental institution. Much of this needless tragedy and waste could be avoided with early diagnosis and treatment such as the Mental Health Center provides.

The staff of the Center includes Dr. David W. Buck, child psychiatrist; Dr. Ben Joshel, Clinical Psychologist; Dr. Leonard Rack, adult psychiatrist; Dr. Salvador Martinez, psychiatric director, Stanley Blumberg, administrative director, and Mrs. Blumberg, a psychiatric social worker.

Donations for these dinner tickets, \$25.00 per couple, are tax deductible and can be obtained from the following directors of the Center: in McHenry, Dr. Lee Gladstone, Mrs. Harry Stinespring, Dr. Urban Comes, Mrs. Vaughn Jones, Mrs. Charles Liebman, Mrs. Herbert Mass, and Charles Weingart:
