## "DEMOCRACY: WHAT IT MEANS TO ME" by Kathy Pierce

Being a senior student in a high school of the United States of America, I have the precious privilege of having a personal role in preserving our democratic way of life. Being a youth, I also have the opportunity to keep our democracy alive and working and to keep our nation free and strong.

When courageous pilgrims were forming our nation, they turned to God for strength to do what they thought was right. They formed a government where people ruled. They craved freedom and fulfilled their wishes. They nationalized documents such as the Bill of Rights, which confirmed freedom of speech, press, and religion. These concerned patriots wanted liberty for every individual, equality of all men, and brotherhood of all human beings. Furthermore, our forefounders drew this constitution, which set up a superb form of government and set the limits of governmental power. They had so much faith that after they formed our country with a democratic rule, they inscribed a remembrance, "In God We Trust", on all the currency. My number one personal role is believing in God
