THE attention of farmers is especially called to the advertisement of the Great Mexican Seed Corn, to be found elsewhere in this paper.

It is claimed that the Indian name for editor is "Worga-to-che-nah-be-kaw-haw." That's what we always thought it was. It means tired and hungry, probably.

HORSEMEN should not fail to read the notice of Hanly Bros., to be found elsewhere in this paper. They have a number of fine stock horses, and farmers and others should not fail to see them.

REMEMBER the Old Settlers' Meeting at the Riverside House, tomorrow, Thursday, at 1 o'clock. Let all who are interested in having a good old-fashioned time this year, come out to this meeting.

J. P. SMITH is at work lathing, plastering, painting, and otherwise putting his store in first-class shape, and when completed he will have the handsomest jewelry store in this section.

THE freight going North on Monday morning got one car off the track at this station, which delayed Jencks' train over half an hour. After some delay it was righted up and both trains went on their way without further damage than loss of time.

ROBT. WRIGHT, of this village, was rejoicing the first of the week, over the fact that he was a Grandpa. The young stranger arrived at the home of his son, E. W. Wright, at Rockford, on Friday last, was a girl, and weighed ten pounds, more or less. "Poddy" shake.

We are in great need of some money just now, and if parties who are owing us will call and settle their accounts they will confer a great favor on us. It takes money to run a printing office, as well as any other business, but there are some who don't seem to understand this fact.

THE foolish merchant is the one who purchases a large stock of goods and then sits down and waits until trade comes to him. The successful merchant uses the columns of the local papers and disposes of his goods, even if it is at a low price. Enterprising advertisers turn over their capital three times while the merchant that does not, turns his over once.—Ex.

MASKED hugging parties are coming into vogue in some localities and might be a drawing card at some of our church fairs when they get ripe. By paying 15 cents a man is allowed to hug a girl but he is first blindfolded. It makes a man mad, says one who has probably been through the mill, to find he has been hugging his own wife; 15 cents goes for nothing.

Mrs. H. H. NICHOLS is in the city this week, buying her spring stock of millinery, and will be ready next week to show the ladies of McHenry and vicinity one of the largest and most complete stocks of fashionable millinery goods ever brought to this village. The ladies are invited to call and examine goods and learn prices, next week.

THE Great Court of Babylon, at the M. E. Church on Thursday and Friday evenings of last week, was a success, both financially and otherwise. On account of other engagements we were unable to attend, but all who did so pronounce it one of the best entertainments of the kind given here in a long time. The receipts for the two evenings were \$57.

DOG owners will do well to know just where their dogs are both night and day, that is if they consider them of any value. Some of these many cures have been seen of late prowling around sheep yards, and the owners have resolved to hereafter kill every dog seen in their vicinity. Therefore, if you value your dog keep him at home, and if he comes up missing some day, don't say the PLAINDEALER did not give you fair warning.

THE ladies who have opened a furnishing store at the residence of Mrs. H. S. Gregory, are each week showing a fine line of goods, and the remarkably low price at which they are sold is drawing the attention of the ladies from far and near. One of their specialties is ordering by sample. Read the notice elsewhere and call on their next sale day, which is to-morrow Thursday.

A. H. HANLY & SONS are building a new barn on the south part of their farm where they have rented one hundred acres to a tenant, who will live in what is known as the old Colby house. Mr. Hanly has enough left in the old home farm to make two or three more good farms, if divided up. The carpenter work is being done by Ernest Wendell, of this village, and the precision with which every part of the frame went together, shows him to be a first-class workman, and one who can be relied on to do his work promptly and well.

THE Woodstock Democrat says: "While at Dundee last Monday, Fred Renick met with an accident that will probably lay him up for several months. He was crossing the railroad track, when his foot got caught in some way, so that he had to fall back or be run over by a train, in doing which both bones of one of his legs were broken. He was brought home on the Oshkosh passenger, and Dr. Northrup was summoned, and is doing all in his power to make the sufferer easy."

worse meat is that transported from the far west, thousands of miles to Atlantic cities or to Europe alive. Old Settlers' Meeting.

The Annual Meeting of the Old Settlers' Association of McHenry and Lake Counties, will be held at the Riverside House, in the village of McHenry, on Thursday, March 17th, 1887, at the hour of one o'clock, P. M. for the purpose of electing officers for the ensuing year, and the transaction of such other business as may come before the meeting. All interested in this Association are earnestly requested to be present.

Annual Circular No. 9.
McHENRY, Ill., March 16, 1887.
Dear Sir:—In announcing the near approach of my ninth season on Fox River and Lake, I beg to inform you that I have made arrangements with the Chicago & Northwestern Railway Co., through which I shall continue to run a steamer in connection with the 3:15 P. M. train from Chicago as heretofore, the steamer leaving McHenry upon the arrival of said train at 5 o'clock P. M. As we shall begin our steamboat service as soon as the weather permits us to cross Piquette Lake, all steamboat transportation must necessarily, for the first ten or fourteen days be via McHenry, as the ice in Fox Lake does not permit us to cross that lake until about two weeks after the first opening.
Our time table will be published with our announcement of the date of first trip.
I may also inform you that a new steamer, the "Grayling," Captain G. S. French, is in the course of construction, and when finished will run to and from Piquette Lake, also to and from Fox Lake in connection with the Northwestern railway trains on the Galena division, so that our friends at Elgin, Sycamore, etc., etc., will be better accommodated than they have been for the past few years.
Thanking you for your past favors, and soliciting a continuance of your patronage, I am, sir,
Respectfully yours,
WALTER HILL.

RINGWOOD.

EDITH PLAINDEALER.—Farmers are getting ready for spring with hopes of getting in their spring wheat this month.
Our school is closed. Mr. Ed Robinson gave general satisfaction in the primary department as teacher.
The euche party, like the Depend-ent Pension bill, was vetoed by the President of the house, and the veto was not carried over her head. Next time ask me.
There was a dance in the old Stew-ard house on Friday night, a few couples being present.
Mr. C. Harrison has moved on the Dwellly farm with his sons.
Mr. A. Landwehr and wife have gone to Dakota. They will be missed in our village. Mr. L. was respected by all who knew him as a man of strict integrity and a good citizen.
Mr. L. Waterman is going into the poultry business this summer, and is building a fine henery. He will be assisted by his daughter, Miss Hannah.

We learn that Mr. W. Smith will not move onto the Mrs. Walker place this summer.
There is one street in the village that wants the road commissioner's attention. What with wood and old wagons it is dangerous for a team to pass after dark. It is a nuisance to the village.

Auditor's Meeting.

The annual meeting of the Board of Town Auditors for the town of McHenry, will be held at the council room in the village of McHenry, on Tuesday, March 29th, 1887, for the purpose of auditing all claims against said town for the past year. All interested are requested to bear this in mind and hand in their claims on or before that day.
F. G. MAYES, Town Clerk.

BISHOP'S MILL.

AGAIN IN RUNNING ORDER.
The damage to Bishop's Mill has been so far repaired that they commenced running again on Tuesday, and are now ready to accommodate their customers with their old time promptness. Considering the extent of the damage it is remarkable how they have repaired it in so short a time. But everything is now in fine running order, and customers can now be accommodated without unnecessary delay.

Thirty couples enjoyed the dance Friday night. Rotnour & Streets Orchestra will furnish the music free for a Party at the Hall on Friday evening, March 25th. Everybody invited.
Arch Sivers is moving to Lake County, where he will work for his brother at the carpenter's trade. The severe illness of one of his children has caused his family several days of anxious delay.

The written programme for the dance Friday evening was a beauty.—It was executed with a pen, with white ink on red card board, by W. S. Clark, professor of Penmanship. Mr. Clark is giving good satisfaction as a writing teacher.
We learn of the marriage of Miss Cora Wolfrem, of Lawrence, to Mr. Will Ferris, of Alden, at Janesville, Wis., on Tuesday, March 8th, by Rev. Dr. Spaulding. Cora has many friends in Hebron who will offer heartfelt congratulations.

The body of James Robotham was found at the corner of Mr. Gorkin, under a wagon, dead. It is supposed he came from Geneva, lost his way, and it being dark ran too close to the edge of a huge embankment and the wagon tipped over and fell across him, where he was found on the morning of March 13th. The Coroner was summoned from Woodstock. I have not heard as yet the verdict.

CONTRIBUTED BY "FLOSSIE."
Sunday was a blusterer, wasn't it?
Mark Foote Sundayed in Richmond.
Misses Allie Greeley and Grace Gray are visiting in Chicago.
The first of "garden sars" is on deck—horse radish.
We will have a photograph gallery very soon from all appearances.
Miss Lou Babbit has been up from Elgin visiting friends.
Miss Bella Fenner has been on the sick list, as also has Mrs. Cotting.
A large eagle was seen in the woods at the lower lake one day last week.
Miss Nellie Wright has a music class at Wilmot.
The scholars intend to have a school exhibition the last of the month.
Dick and Howard Cole, Howard Vinton and Niles Burton visited Chicago Friday.
P. K. Allen will not move to Crystal Lake at present. They now occupy the D. A. Potter place.
Frederick Stephens and family have moved up on Ed Robinson's farm and will work it.

Louis Peterson waved adieu to Richmond friends Monday, and left for that prosperous country—Dakota.
Mrs. James Bacon and a Mr. Dickson, from California, were married up at Geneva Lake one day last week. Congratulations.
The ducks and geese have been seen in large numbers for a week past, but as the ice has not broken up at the lakes, there has been little opportunity of molesting them.

The surprise party, at A. B. Clapsatt's last week Wednesday evening, was very largely attended—nearly eighty being present. The occasion was an enjoyable one to say the least.
Miss Minnie Potter went to Chicago Friday P. M., and Mrs. Thomas Bowers experienced a little of life's sorrows and tribulations by taking the helm in the primary department for a short time.
Mr. Bowman's little child that was so very sick has begun to mend. Dr. Hinman, of Dundee, attended. All the other sick folks in and around town are gaining and with more settled weather our doctors will have a much needed rest.

A German farmer living somewhere between Genoa and Hebron, was found dead on the roadside Sunday morning. It was evident that the wagon had upset on him, and he for some reason or other was unable to extricate himself. We have no particulars.
Frank Spitzer, that young Woodstock lawyer, is going to make his mark in "this vale of tears," I think, allowing his speech on Gladstone and Ireland, which he delivered here last Wednesday evening to be a fair sample of his ability. He entertained a large audience for more than an hour by his thorough familiarity with his subject, by his good delivery, and excellent voice. Our people are indebted to the Modern Woodmen for the treat, for 'twas at their request Mr. Spitzer came.

It is so tiresome now and then—this remembering a dozen and one incidents and happenings, to have them all at my pencil's end when I begin to write. It becomes so monotonous to travel over the same ground each and every week, not only to me but to my readers as well. Is it any wonder then, that occasionally there is a time when the mind refuses to guide the pencil; the record falls from memory, and there comes instead, a vision of sunny, summer days which will soon be here to make a new world of this old globe? Certainly 'tis no wonder, and this is one of those times.
