PEOPLE who travel hear a good deal about sleepers. Do you know what a sleeper is? A sleeper is one who sleeps. A sleeper is that in which the sleeper sleeps. A sleeper is that over which the sleeper while he sleeps runs. Therefore, while the sleeper sleeps in the sleeper, the sleeper carries the sleeper over the sleeper under the sleeper, until the sleeper which carries the sleeper jumps off the sleeper, and wakes the sleeper in the sleeper by striking the sleeper under the sleeper, and there is no longer any sleeper sleeping in the sleeper on the sleeper.

THE Marengo Republican says: "In the case of A. E. Bourne, of Woodstock, to determine his sanity, the jury on Saturday agreed on a verdict declaring him insane, except on business matters. They deemed him fully capable of managing his own business affairs, and recommended that no conservator be appointed by the court. Mr. Bourne defended his own case with signal ability, and we learn has taken an appeal to a higher court. However his status may be determined finally, his case excites much comment and sympathy, yet the verdict is fully warranted by the evidence.

FOLLOWING Kate Castleton in her new piece of "A Paper Doll" at the Chicago Opera House will come the latest musical farce-comedy success, "Zig Zag." This piece has for the past three weeks been playing an engagement at the Star Theatre, New York, and while the ordinary theatrical business has been very dull, "Zig Zag" has been packing the Star to the door nightly throughout the entire engagement. The piece is by Frank A. Touchill Jr., and it is said is the finest piece of its class, now on the road. The company is an excellent one, comprising the best people now in farce-comedy. The engagement will last but for one week.

DEATH of John Winkels.

Our citizens were shocked on Sunday morning last to learn that John Winkels, a carpenter by trade, had been found during the night lying by the side walk, in a dying condition, and that he had died after being carried to his home.

The facts, as brought out by the inquest held by Coroner Cook on Sunday afternoon, was as follows:

Winkels who had been to work on the Club House at Fox Lake, drew his wages on Saturday afternoon, and, with another party, started for home. On the way down they drank a quantity of whiskey, stopped at Johnsbury, and drank some beer, and on their arrival here drank more. About nine o'clock Winkels was supposed started for home. The next known of him he was discovered, asleep as they supposed, by the side of the walk. His brother was informed and after some delay he was taken to his home, where he almost immediately expired. The Jury after hearing the evidence brought in a verdict that he came to his death from exposure and excessive use of alcoholic liquors.

OBITUARY.

MAMIE LAMPHREY GRANGER was born near Waukegan, April 28, 1866 and died at McHenry, October 23, 1888, her whole life having been spent among the scenes of her birth-place and its vicinity. Seldom are we called upon to chronicle an event of such peculiar sadness as this, her early death. The idol of her parents, brothers, and grandparents, she gave her heart and hand in marriage to Almon C. Granger December 31, 1888.

On October 16, 1888 a little daughter came to gladden their home, but just as life began to look its fairest and hope pictured the future in brightest colors, Mamie was called to her eternal rest, leaving many heavy hearts to mourn her untimely loss.

Always of a frail constitution, she had but little strength to aid her in her struggle for life, and the best medical skill, assisted by loving and untiring hands, was powerless to stay the ravages of the death angel. She was a lovely woman, one of marked character, fearless, truthful and outspoken in expression of her convictions, conscientious in discharge of her duties, and intensely loyal in her friendship.

Quiet and retiring in disposition, it was only by those fortunate enough to be admitted to the inner circle of her home life that the great purity and beauty of her influence could be fully realized. Her highest aims were for the comfort and happiness of her home and its loved ones, and she was ever ready to yield her own wishes and inclinations to those whose welfare lay in her keeping. Patient and uncomplaining amidst all her sufferings, her last days were a beautiful lesson of meek submission. May time deal kindly with the remnants of that little family, and when life's battle is ended, may the sorrowing husband and his motherless baby girl find the wife and mother, their good angel, waiting for them just inside the beautiful gates.

COR.

THE speech of Hon. A. J. Hopkins, at Parker House Hall, on Thursday evening last, was one of the most brilliant, forcible and logical efforts of the campaign in the country. Although in bad voice, from constant speaking, his large audience was held spell-bound from the beginning to the close, and all went away with the honest conviction that the Fifth District could be no better represented than by the present able Representative. He was followed by G. H. Robertson, Esq., of Sandwich, who made some telling hits, particularly scoring the Democratic Aid Society, or Prohibitionists, for their inconsistencies. The meeting was one of the largest and most enthusiastic of the campaign.

The Antioch Cornet band, 22 pieces, was present and rendered several choice selections. We learn there is some talk of repeating the concert at an early date, and do not doubt but that it would prove a successful venture.

The largest and most enthusiastic rally of the campaign was held at Burton's Opera House, last Monday evening. At 8 o'clock the meeting was called to order by J. W. Hawthorn, president of the Harrison and Morton Club and after a selection by the band and some rousing campaign songs well rendered, he introduced the Hon. Chas. E. Fuller, of Belvidere, as the speaker of the evening.

Harold as the speaker of the evening. He was an able exponent of all Republican principles, which was expected of him, and in every particular he fulfilled the expectations of his friends and admirers. Mr. Fuller dwelt upon the past records of both parties; and upon all the questions involved in this campaign, but devoted the most attention to the leading issue, protection vs. free trade.

The Mill's bill was denounced as a free trade and sectional measure; the free trade legislation of 1846 mentioned, and the disastrous results following, clearly shown; the condition of the working classes of England and the United States were compared, but not to the detriment of our home work.

On the Senate bill, reviewed as a substitute for the Mill's bill, the speaker said: "In short, every point of the tariff question was touched upon and ably handled. Mr. Fuller was frequently interrupted by applause and long and loud was the cheering when he retired. The marching club turned out with full ranks.

Workingmen who attended the rally last Monday evening had the difference between European and American labor very clearly presented to them, and it would be strange if they concluded to accept of any other standard than the American, which is the best in the world, as it is the most remunerative and affords the most comfort in life.

In the political issue to be settled next Tuesday, the workingmen of our country are to be called on to decide upon that policy, either of protection or free trade, which he may find to be for his best interest.

The Republican party has declared for the first-named principle, believing that in preventing by tariff restriction, undue competition of foreign productions with our own, the benefits to labor are best secured. On the other hand the Democracy aim to remove the tariff and place our laborers in the competition of the world, when we labor; the result being that whenever an article can be produced cheaper than in this country it will be imported, the foreign laborer getting the benefit of our markets, and the same rule holding that when we can produce the cheapest we can control the foreign markets; this is the essential principle of free trade.

Nothing man need not trouble himself over the intricacies of the tariff question, but will be wise to look only at the single point of what is to become of him when he comes into competition with the pauper labor of the globe.

The American laborer is now at the top, but when the leveling process proposed by our Democratic friends is completed, will find himself only at the average point, and that average unavoidably much lower than the present standard. That this is their intention, the declaration of Mr. Mills, the sponsor of the so-called Mill's Bill is probably as good proof as we can introduce.

At St. Louis on the 25th of September, Mr. Mills said:

"If Grover Cleveland is re-elected president of the United States as he will be—a fate, will that? If another Democratic house of representatives is chosen, and if we can get our Republican friends out of the office of the Capitol (Senate) and get Democrats in place of them, then we will pass a tariff bill that puts raw materials on free list and then we will put our own intelligent and skillful and productive labor in this country upon a plane of equality with the laborers of all other countries."

This closing expression should be carefully considered by every wage earner, and when he realizes its full extent and meaning to him as an individual, we think he will be sure to use the ballot—the only weapon he has—in the most effective manner to protect himself.
