Kansas wins the Republica onship. The full returns swell plurality for Harrison and Morton eighty-two thousand. That beats everything-even Penusylvania.

Butter took another big jump a the Elgin Board of Trade on Monday. Two weeks ago it sold at 291c; day at 41 cents. There is no butter in stock to meet the lively denand. The milk supply is light and drouth decreased herds. On the rd of Trade 17,000 pounds sold at 41041 centa. The market was de clared active at 41 cents.

"Thank God" Brooks ran for overnor of Missouri on the Prehibi-ion ticket in 1884 and received over 10,000 votes. He received at the last election in Missouri, for vice-president, less than 5,000 votes. Two years ago, in Pennsylvania. the Prohibition yote was nearly 32,000. This year it was less than 11.000. In the face of such figures, what is there to encourage good honest temperance men in holding out for a third party,

The presidential electors of state will meet at the state capitols on January 14th, 1889, and cast their votes for president and vice-president. Under the old law they and to meet for this purpose December 6th. The returns of the electoral vote are opened and counted the second Wednesday in February, by the president of the senate, in the presence of both houses of congress, Senator J. J. Ingalls, of Kansas. is the president of the senate.

A giant locemotive is being ucted in Boston. It is for use on the Atchison road, and has two cabs, one over the boiler for the engier, and the other in the usual place for the fireman. The driving wheels e of paper, with steel tires. - Econmy of fuel is accomplished by a pump that utilizes the exhaust steam to heat water, and by a large combustion chamber which burns all the gas. It is expected that the engine will make eighty miles an hour, with ten southes, on an ordinary road.

Some one says the chief claim of the women suffragists is that politics would be purified thereby. Those who have not progressed that far, fear The debate indulged in at the W. C. T. U. convention at New York, growing out of the determination to make at organization a factor in politics, uld seem to present an argument in favor of the conservatives who apprehend that active participation in politics with the attendant lust for office, and scramble to get and keep it, would work disaster both to the disposition of woman and to that high place in the steem and reverence of man, which is her protection and glery. Woman's Christian influence exerted in rightful places, is a mightier power than any ballot could give her.

"Looking back upon the cam. paign, Republicans can feel justly ud," says an exchange, "of their clean, able, popular, and in every way thy candidate." Nothing he has id or done has weakened or injured his party; and every day and week that he has been subjected to the fairest criticisms and investigation, he has risen bigher and higher in the miads of his fellow-citizens. There could have been no better nomination made by the Republicans, Events have proved that fact beyond the shadow of a doubt. He has shown himself to be a type af American manhood at its best. His speeches have been able, timely and happy, and his bearing has been that of the broad-minded and clear-brained conscientious Christian gentleman that he is. Republicans cannot be too proud of the man under whose management they have made a gibrious campaign,

The Tribune's Washington cordent to-day presents evidence of the way in which the Democratic of to gain a majority in the house Representatives is being perfected It appears that efforts are in progress to reverse the verdict of the people in districts in Arkansas, Kentucky, North Carolina, Virginia, West Virginia and Maryland. Not only have large numbers of ballots been thrown out on the superstance of the liver will disease of the liver and the superstance of the liver will disease of the liver will disease of the liver and the superstance of the liver will disease of the liver and the superstance of rs of ballots been thrown out on asy pretexts, but the facts set th show that in North Carolina intimidation has been resorted to in the interest of the party which is nd to retain its power in the se of Congress by hook or k. And this is not all, Stupid ncerning what the Republicans ng are being desceminated by Democratio managers in Wash-on. These are desperate devices no more than might have been id. They will be sure to resconer or later on their authors the party that profits by them.

The new comet discovered at the Lick Observatory is going to be a "specially interesting. object, on account of the long period during which it will remain visible." There is a difference between the comet and Grover Cleveland. After March 4th he will be invisible for a long period, if not permanently. In any event, he will not be a specially interesting

As a result of the election of the Republican national candidates and the assurance that their industry will continue to be protected, iron manufacturers are increasing the number of men in their employ, and furnaces which have remained idle for the last three years are to be reon the contrary, that the result would opened. The market for pig iron and the level of womanhood, the better grades of ore is already more active, and a constantly increasing demand is reported.
