We use Alcohol

pure alcohol to make Wolff's ACME BLACKING. Alcohol is good for leather; it is good for the skin. Alcohol is the chief ingredient of Cologne, Florida Water, and Bay Rum the well known face washes. We think there is nothing too costly to use in a good leather preservative.

Acme Blacking retails at 20c.
and at that price sells readily. Many people are so accustomed to buying a dressing or blacking at 5c. and 10c. a bottle that they cannot understand that a blacking can be cheap at 20c. We want to meet them with cheapness if we can, and to accomplish this we offer a reward of

\$10,000

for a recipe which will enable us to make Wolff's ACME BLACKING at such a price that a retailer can profitably sell it at 10c. a bottle. We hold this offer open until Jan. 1st, 1894.
WOLFF & RANDOLPH, Philadelphia.

ANYBODY

Who has been unfortunate enough never to have visited our store should take the first opportunity to do so. Here he will find

ANYTHING

He wants in the way of a watch, a clock or jewelry of all kinds. The great variety to select from stands in strong contrast with our unvarying principle of selling everything at the bottom-most margin. In doing this there is scarcely

ANY PROFIT

On one article; but a little profit on each of many sales suits us better than a big percent on a few. In this way we have the pleasure both of success in business and of benefiting the many instead of the few. Can we not benefit You?

HISTORY OF A WEEK.

Wednesday, Nov. 30.

The police of Barcelona, Spain, now have 118 anarchists in custody charged with being concerned in various dynamite outrages committed in Spain.

Captain Horace Dixby, who taught Mark Twain what he knows about steamboating, is at present pilot on the steamer T. G. Sparks, running south from Memphis.

Miss Willa Dick, of Indianapolis, Ind., niece of Archbishop Purcell, of Cincinnati, has been quietly married to Lawrence Kip, a well-known attorney of San Francisco, and grandson of the late Bishop Kip.

Henry Deforge, a young man of New Orleans who had spent the evening with convivial friends, fell in the gutter and was drowned.

One Leon M. Carrier was serving out a sentence of six months at Denver, Colo., when identified as a man wanted at Quebec for stealing thirty carloads of flour from the Canadian Pacific railway. He was delivered up for extradition.

The latest reports from Rio Janeiro say that Petrópolis is losing public favor in Brazil and Mello quitting.

Thursday, Nov. 30.

Judge McAdam, of the New York superior court, has granted a decree of divorce to Helen Dauray Ward, the actress, from John M. Ward, the baseball player.

An express train between Milan and Venice, Italy, collided with a freight and forty-three people were killed.

Murphy, chief secretary for Ireland, and Gardner, president of the board of agriculture in Gladstone's cabinet, are ill with la grippe, and so are Balfour and other right honorables.

Mrs. Agnes Chapman, who lost her life in her burning house near Milan, O., lived a miser. From the ruins \$3,000 in silver and gold have been recovered, and she had a deposit of \$1,000 in an eastern bank. It is believed a considerable amount in paper money was burned up.

Tramps met Mr. Schedell, of Ligonier, Ind., on the road and took all his clothes. It was a bitter cold night and he was half a mile from the nearest house of refuge.

Friday, Dec. 1.

Max Meyer, a noted Berlin student who, though blind from birth, has kept the head of the class in every school he attended, received the degree of doctor of philosophy in that city a short time ago.

"Chinese" Gordon's letters, journal, and other relics have now been placed on public view in the manuscript department of the British museum in London.

A statue of Sir William Wallace, at Baltimore, was unveiled Thanksgiving day by a great grandchild of W. W. Spence, who gave the statue to the city.

Miss Gertrude Mitchell, of Liverpool, 18 years of age, has achieved the first place in all England and Wales in the examinations for the queen's scholarship. Her position was gained over 4,750 competitors.

William R. Smith, who for many years has been the superintendent of the Botanical gardens in Washington, has, it is said, personally directed the planting of more 6,000,000 trees in different parts of the United States.

Rufus Williams, who died a few days ago in Rhode Island at the age of 95, was a direct descendant of Roger Williams, in the sixth generation. Five generations of his family were present at his funeral.

Saturday, Dec. 2.

Two noted anarchists, man and woman, have been arrested at Valladolid, Spain, because they had their lodgings full of the "resources of civilization" and "red" literature.

A party of men and women going home from a sociable at East Liverpool, O., were overtaken on a trestle by an electric car and Mrs. Miller Harshe killed. A dozen others were badly hurt.

William A. Phillips, ex-Congressman of Kansas, died suddenly at Fort Gibson, I. T.

The town of Kachan, Persia, which was recently visited by an earthquake, is a total wreck—nothing but a heap of ruins.

Fire broke out in the upper part of the Haymarket Theatre building on West Madison street, Chicago, destroying the top stories of the structure and burning out the foyer of the theatre, causing a total loss of \$75,000.

Monday, Dec. 4.

There was an increase in the circulation of 8 cents per capita on Dec. 1 over that of Nov. 1, the circulation in December being \$48.57 per capita.

An attempt was made to wreck a passenger train on the L. and N. near Nepton, Ky.; no clue to the miscreants.

Snow has fallen heavily all over Michigan, Illinois, southern Wisconsin, Iowa, Missouri and eastern Kansas. At Chicago the streets were almost impassable.

William Dunbar, of Portland, Ore., has been convicted of smuggling opium.

L. G. Stevenson, the recently married son of the vice-president, has sailed from New York with his bride for Havre, France, on a tour of Europe.

Tramps have created a reign of terror in the vicinity of Alliance, O., along the line of the Fort Wayne road.

Stephen Lovejoy, a millionaire real estate dealer of New York city, was found dying in the basement of his residence, where he had gone to attend the furnace.

The board of education of New York city will begin war on the cigarette by starting an anti-cigarette league in the public schools.

Near Pine City, Minn., Mrs. Russell and her daughter of 18 years were frozen to death in the woods, and a search party which found the bodies nearly suffered the same fate.

Tuesday, Dec. 5.

Zanardelli has succeeded in organizing a cabinet for Italy.

John Dunlap, of 823 West Lake street, Chicago, shot and killed his wife. Dunlap then blew his own brains out.

F. Crinkaleir & Co.'s stock of paints, oils and varnishes at Green Bay, Wis., was destroyed by fire. Loss, \$3,000; insurance, \$4,500.

A Cincinnati man has been fined \$50 and costs for abusing another over the telephone.

James Day, a Fountain Green (Illa.) farmer, has been notified that he has fallen heir to over \$1,000,000 worth of property in the heart of Boston.

Engineer Seongall has signed contracts at the City of Mexico and Nueva Laredo, Mexico, for building the largest irrigation works in the country.

Professor John Tyndall died at Haslemere, Surrey, England, last evening.

NEWS NOTES WHICH WILL BE READ WITH INTEREST.

Events Which Have Happened in the Prairie State During the Week Received by Telegraph—Home News Gathered for the Perusal of Our People.

ALTON, Ill., Dec. 4.—The affray between United States Consul John W. Coppinger and Colonel A. L. Rodgers is greatly deplored by the friends of each. Coppinger's statement has been obtained and is to the effect that he did not come here by appointment with Congressman Forman on business concerning the postoffice candidates, but to attend to some private affairs. He did not even know Forman was coming until he heard he was in the city, and when he went into Duran's saloon the idea of a conference being in progress there had not entered his head.

Though his argument with Colonel Rodgers was heated he had no idea of trouble until Colonel Rodgers struck him with his cane and attempted to strike the second blow. With the blood streaming down and blinding him and dazed from the force of the blow received he with the natural instinct of self-preservation drew his revolver and fired in self-defense. Coppinger slept none that night and suffered much from the wound on his head. Rodgers rested easily and is about his home. News has been received from Rodgers to the effect that he will not prosecute Coppinger.

CAUSED BY A POOR TRACK.

A Railway Wreck in Illinois in Which Four Persons Are Hurt.

NEWTON, Ill., Dec. 1.—The eastbound passenger train on the Indiana and Illinois Southern, leaving here at 7:30 in the morning, was derailed a mile east of this city, two cars composing the train rolling down an embankment. The following were injured: Mrs. Helen Herron, Odell, Ill., and two children; J. R. Gouley, Terre Haute, Ind.; and E. T. Jegan, Mount Vernon, Ill. The accident was the result of a poor track. The road was notified some time ago by the state railway commission that if it did not make certain repairs the road would be closed.

Murdered and Placed on the Rails.

COLLINSVILLE, Ill., Dec. 1.—The horribly mangled remains of a man found by the side of the Vandalia tracks near the station here have been identified as those of Mike Wasches, a Russian miner, and he is generally believed to have been the victim of foul play. Twenty yards from where the body was first found was picked up a big butcher knife with a long, well-worn blade. A close examination of the body showed deep knife-wounds in the body and head, neck and arm. The knife stood them all.

Trial of Sheller and Daughters.

LINCOLN, Ill., Dec. 1.—The trial of William Sheller and his daughter Ida on a charge of concealing and receiving stolen goods developed new testimony against Van Meter, Woodward and Howe, now in jail awaiting the action of the grand jury for attacking the railway train on the Peoria, Decatur and Evansville railway. Sheller was held to bail in the sum of \$400 and his daughter's price of liberty was fixed at \$200, which neither could give.

Was a Bad Time to Strike.

BLOOMINGTON, Ill., Dec. 1.—The McLean County Coal company shaft, operated by a company of which Vice President Stevenson is president, and which was idle on account of the strike of fifty unble drivers and outside help, has resumed with full force. There were hundreds of applications for the places vacated by the strikers.

Situation in the Lehigh Strike.

Another Building Association Opinion.
SPRINGFIELD, Ill., Dec. 5.—Attorney General Meloney has given an opinion that the by-law providing for non-participation in the profits of loan and building associations by members who withdraw before being members a year is legal, but very unreasonable.

Vandalism by College Boys.

MOONSHIRE, Ill., Dec. 1.—Freshmen of the college broke into the college chapel and smeared red paint over every chair in the room. Chapel services were not held in consequence for the first time in years. The faculty is trying to find the perpetrators, who will be summarily dealt with if caught.

Tried to Assassinate a Farmer.

JACKSONVILLE, Ill., Dec. 1.—As John Corrington, a wealthy farmer living near here, was going to bed four shots were fired at him through the window by some unknown miscreant. Corrington was not hit.

Viking Ship at Cairo.

CAIRO, Ill., Dec. 4.—The Viking ship has arrived here and was saluted by the blowing of whistles and firing of cannon from the craft in the harbor. The Viking was visited by many people.

Ex-Legislator of Illinois Is Dead.

MINONK, Ill., Dec. 1.—Hon. J. D. Webster died yesterday, aged 68. He was a member of the Illinois legislature from 1872 to 1874, from the Twentieth district.

We are having a big run of heavy flannel shirts, men's school dress and men's shirts. Non-washable. Come in and see the goods.

PERRY & OWEN.

Appointment by Governor Altgeld.
SPRINGFIELD, Dec. 1.—Governor Altgeld has appointed Mary Moran deputy state factory inspector, vice Mrs. Annie Burke, resigned.

What is a "Line" of Railway?

WASHINGTON, Dec. 5.—The most important subject discussed in the report of the interstate commerce commission is that referring to the question: "What is a 'line' of railway?" The courts have decided that a "line" is one railway, while the commissioner has decided uniformly that a "line" is the whole route over which goods are billed from point of shipment to ultimate destination. The commissioner asks congress to decide this point and makes a number of other recommendations.

Disinfect Due to Mrs. Lease.

OLATHE, Kas., Dec. 5.—Warfare that has been going on among the head officers of the deaf and dumb institution of this city for two months, has resulted in the discharge by the board of charities of Steward T. L. Dixon and his wife, the matron. Judge Dixon denounces Mrs. Lease in connection with his dismissal and in an interview said he would soon "expose her." "When I get through exposing her," he vehemently declared, "no political party will claim her." Dixon is high in the councils of the Populist party.

A Representative Chicago Woman.

Mrs. M. F. Toley is one of the representative women of Chicago. For the last five years she has been the inspiration of the School Children's Aid society, a private organization, supported by contributions for the relief of ragged children. Last year Mrs. Toley collected \$3,000, which enabled 1,468 poor little boys and girls to dress up and go to school. The society has no expenses. No salaries are paid, and office rent is never due. The clothing bureaus are in the rooms of the board of education.

There are women on the board, and when a teacher hears of a pupil who is kept from school because his parents cannot afford to dress him properly she sends the little chap to Superintendent Lane's office with a note of introduction, and he returns to school not only decently, but comfortably and often fashionably dressed. No discrimination is made in the distribution of favors. Any poor child, from any school or no school, of either sex, and any nativity or creed, can be shod and dressed for the asking.—New York World.

Women in Russia.

It is a trifle surprising to read that there are 700 women practicing medicine in the Russian empire, that others occupy important positions in hospitals and workhouses, in educational establishments, while others hold appointments in the service of municipal bodies. The remuneration is from \$1,000 a year downward. In private practice there is one woman who makes about \$3,000 a year, but the average income is \$1,500.

Bridal Gown Offerings.

There is a curious custom among the daughters of the house of Hapsburg, whose bridal trains, instead of finishing an honorable career in the ballroom, are bestowed after the ceremony on the church whose sacred floor they have swept. Only the other day during the centenary celebration at Renneweg, the altar floor was covered with a shawl of satin and silver, mellowed by the breath of age, that had once formed part of Marie Antoinette's wedding garment.

A Woman's Invention.

The patent "car stop and barrier," is a woman's invention, and so far as known or seen the universal expression is that it must be a success. It is for the comfort and life saving of both sexes. The New York state railroad commissioners examined the model and patent a few years ago and said that no improvement was more needed, and that they would be glad of its adoption for its convenience and safety.—Woman's Journal Correspondent.

Brooklyn Pushing Philadelphia.

Brooklyn has now the same number of women lawyers as Philadelphia has. In that city Miss Catherine Hogan recently passed the second highest examination in a class of 50 law students and will open a law office in New York, where she hopes to work up a practice among women who need assistance in managing their property. She is the second woman to be admitted to the bar in Brooklyn and is a graduate of the New York public schools.

Give the Girls a Chance.

The Town Improvement society of Riverside, N. Y., has purchased a quantity of broken stone for macadamizing the roads of the village, and has appointed women as road inspectors to see that the work shall be done properly. The question whether inspectors inspect would soon be determined affirmatively if the Riverside example should be followed by other communities.—Philadelphia Record.

Texas Woman's Congress.

A woman's congress was held during the Texas state fair at Dallas recently. Women from all the leading cities of the Lone Star State gave addresses and read papers upon the great social questions of the day. Among the speakers were two from Toledo—Mrs. Fannie Segur Foster upon "Women in Business Life" and Mrs. S. Isadore Miner upon "The Vocations Open to Women."
