CHILE OFFERS A PLAN FOR PEACE

Deadlock in Pan-American
Conference at City of
Mexico Continues.

THE HAGUE TREATY INDORSERD.

United States to Introduce Republics to
the World Tribunal—Studying a More
Comprehensive Plan for New Compact
in Future.

City of Mexico dispatch: The plan for the adherence of the nations represented at the Pan-American congress to The Hague convention was introduced by the Chilean delegation after a long statement tending to show the advantages of The Hague convention and the impracticability of compulsory arbitration. The official plan for the adherence of the nations of America to The Hague convention is as follows: The states represented at the second international American conference resolve: First—To adhere to the conventions signed at The Hague by the powers represented at the international peace conference—(a) for the peaceful adjustment of international differences; (b) for the adaptation of the Geneva convention of August 22, 1864; (c) with respect to the laws and usages of land war.

Second—To confer, in order to attain that end, upon the United States of America and the United States of Mexico, signatory governments to said conventions, authority to take the necessary steps to establish (or secure) the adherence of non-signatory powers.

The delegates from Chile and Ecuador do not agree to the foregoing, and the Chilean plan, as now presented, is offered, it is claimed as a part of the obstructive tactics. The full text of the official plan is presented, the articles simply elaborating in diplomatic phraseology the summary referred to in the foregoing paragraph.

In an additional article the signatory nations empower the Mexican government, in the interval between the present and the next Pan-American conference, to communicate with other governments of America with a view to ascertaining the practicability of concluding a still more comprehensive plan of arbitration. If those steps are successful, a further treaty will be concluded between two or more of the nations in question, and, in any event, Mexico will report at the next conference as to the success of her efforts in this direction.

It should be noticed that the above is the only official plan for joining The Hague convention, that of Chile having been pressed, it is claimed, merely for obstructive purposes.

Shocks Felt in Many Cities.
Earthquake shocks were felt in many other cities and towns. In Mexico City the earthquake took place at 5:17 o'clock Thursday afternoon, and was of such violence as to shake the most substantial buildings. The Pan-American congress was in session at the time, and many of the delegates were greatly alarmed. The first movement was one of trepidation, and was very sharp. It was followed by an easy, oscillatory movement northeast to south-southwest. The duration was fifty-five seconds. The damage in this city was only slight. The state of Guerrero has always been the focus of seismic disturbance. Reports received state that the shock was very severe at Chilpancingo. No casualties are so far reported from there. The duration of the Chilpancingo shock was less than that in Mexico City, having lasted fifty seconds, against fifty-five seconds at the capital. Late advice says that the earthquake was also intense at Iguala, in the state of Guerrero, destroying the parish church and many buildings in the city and neighborhood. Among the latter was the sugar mill of General Frisbie, an American. The mill had just been completed and fitted up with American machinery at a cost of \$200,000. The property loss is immense throughout the state of Guerrero.

Fire Causes Panic in Hotel.
Fire and panic threatened the lives and property of the guests of the Plaza hotel at New York for an hour or more Friday, but the blaze was extinguished by the fire department after it had done \$5,000 damage. The guests of the hotel, mostly women, were nearly all at luncheon when the cry of fire rang through the corridors. Women crowded the elevators while smoke in dense clouds terrified and stifled them. The two elevator boys stuck to their posts and carried as many to the street as they could.
