**New Homes in the West.**  
Almost half a million acres of Government land in the Rosebud Indian Reservation, in the southeastern part of South Dakota, and one and a half million acres on the Shoshone Reservation in Wyoming, are to be opened for homestead settlement at an early day. Registration for the Rosebud lands will probably begin August 8 and the final allotment take place a month later. The Rosebud reservation lands are well watered by the Missouri, Niobrara and White rivers and are situated in the great corn belt, where adjacent lands are selling at from \$35.00 to \$40.00 per acre. The region that is to be opened is reached by the direct line of the Chicago & North-Western R'y from Chicago, St. Paul, Minneapolis, Sioux City, Des Moines, Omaha, Fremont, the Black Hills and other points in the west, through to Bonesteel on the eastern reservation border.

The Shoshone or Wind River Reservation is in the high plateau lands of Central Wyoming, bounded on the south by the Wind River, and on the north by the Owl Creek mountains, while the Big Horn drains the eastern portion of the lands that are to be opened.

These lands are to be reached via the Chicago & North-Western R'y to Casper, thence by stage to Lander, or via the Chicago, Union Pacific and North-Western Line to Rawlins.

The treaty has been made by which the Shoshone lands north of the Wind river are to be opened to settlement and awaits early Congressional action. Government lands of good quality are much scarcer than they were at one time, and the interest evidenced by this announcement of new lands to be opened to the settler is very great. A heavy movement westward of those who desire to avail themselves of the United States Homestead act will doubtless begin as a result of the announcement that these lands are to be opened.

### Traveling is Dangerous.

Constant motion jars the kidneys, which are kept in place in the body by delicate attachments. This is the reason that travelers, trappers, street car men, teamsters and all who drive very much suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. H. Hansen, locomotive engineer, Lima, O., writes: "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." Sold by G. W. Besley, W. McHenry.

### Loving Pals in Misery.

Two cots stood side by side in the Emergency hospital. On one was the form of a man, a great big, strong looking fellow. On the other was the figure of a boy, a little fellow not more than ten years of age. The head of each was swathed in bandages, and while the man bore his suffering in silence the boy cried and moaned and sobbed.

"What's the matter, sonny?" asked the man as the boy cried aloud. "I fell off a roof," was the answer the lad returned between his sobs. "Hurrah for you!" returned the man. "I fell down a ship's hatch. Let's shake."

An hour later the nurse came into the ward and walked over to the cots. Both the patients were sound asleep and in the hairy fist of the sailor reaped the tiny hand of his little companion in misery.—San Francisco Call.

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay a cent for it," says C. P. Rayder, of Patten Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar, saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by all druggists.

The dandelion pest is making itself evident this spring to a greater degree than ever. Otherwise beautiful lawns are almost ruined from a beauty standpoint on account of the yellow blossoms. It may not be possible to get rid of those that now exist, but the spreading could be stopped by cutting the blossoms before they go to seed. There should be a commissioner appointed to look after vacant lots.

Stoves stored for the summer and set up again in the fall. Osmin Bros. 45.

**Impediments.**  
In 1797 Senator William Blount of Tennessee was impeached for treason in negotiating personally with Great Britain and was acquitted. On March 5, 1803, Judge John Pickens of the federal court in New Hampshire was found guilty on the trial of an impeachment of drunkenness and profanity on the bench and was removed. On March 13, 1804, William Chase, associate justice of the supreme court, was impeached. He was acquitted on March 1, 1805. Meantime, on Dec. 13, 1804, Judge James H. Peck of the federal court of Missouri was acquitted by the senate after impeachment by the house. On May 6, 1862, Judge West H. Humphrey of the federal court of Tennessee was removed for treason. In 1808 Andrew Johnson, president of the United States, was impeached for high crimes and misdemeanors and acquitted. In March, 1876, the former secretary of war, General W. W. Belknap, was impeached for bribery in making appointments. He was acquitted on Aug. 1, 1876. His was the last impeachment.

Mr. C. Anton Gubre, assistant editor of the Volksblatt-Rundschau, Lincoln, Ill., whose writings are greatly admired by all readers of German newspapers, says: "I have used Re-Go Tonic Laxative Syrup and can recommend it as a splendid remedy to all sufferers from chronic constipation. It is pleasant and agreeable to take and wonderfully satisfactory in its results." Re-Go is a pleasant liquid medicine for the cure of Constipation, Biliousness, Indigestion and Dyspepsia. 25c, 50c and \$1.00. Sold by G. W. Besley, druggist, West McHenry.

### A Bit of Curran's Wit.

An Irishman loves a joke so well that he keeps the memory of a good one always green. In a book of recollections by an old member of the Irish parliament is an amusing illustration of Curran's ready wit.

A certain Judge, Lord Norbury, was famous for the alacrity with which he condemned prisoners to death when he might have pronounced a more merciful sentence. On one occasion when he was dining in public with the foremost members of the Dublin bar he helped himself to some meat, at the same time asking:

"Is this hung beef?"  
"Not yet," said Curran quickly. "Your lordship has not tried it."

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

### A Lesson in Health.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. Refuse substitutes. Sold by G. W. Besley, W. McHenry.

### Low Rate Excursion Tickets to Atlantic City, N. J.,

Via the North Western Line, will be sold with favorable return limits, account of Annual Meetings, American Medical Association, etc., to be held June 4 to 10. For dates of sale, tickets, etc., apply to agents Chicago & North-Western R'y. May 28

**Genesis of Life Insurance.**  
Life insurance originated in 1706 in London. In that year there was formed the first life insurance company. It was called the Amicable Society. For a Perpetual Assurance Office. It was a mutual benefit concern.

Each member, without reference to age, paid a fixed admission fee and a fixed annual charge per share on from one to three shares, and at the end of the year a portion of the fund accumulated was divided among the heirs of those who had died, in accordance with the number of shares each dead person had held. Out of this company, with its crude and imperfect methods, life insurance as it exists today has grown.

### Swinging Round the Circle.

In the journey of life we often travel in circles. Therefore do today the good that is in you. Plant your blossoms. You will come back to them by and by. It is the beauty of the things that you do today that has most to do with making beautiful your tomorrow. One of the blessings of the sunset is in reaping the memories of what was planted in the morning.

### The First Corset.

The first corset—not counting ancient modifications of the Grecian zone and girdle—was introduced into France by Catherine de' Medici. It was a strange affair and fashioned after the style of a knight's cuirass. The framework was entirely of iron, and the velvet, which decorated the exterior only, served to hide a frightful and cumbersome article of torture.

### Good Scheme.

Hicks—You keep duplicates of all your old love letters? What an idea! Wicks—Yes; when I have done something particularly foolish I just read over one of those letters. It is quite encouraging to know that I'm not nearly so much of a fool as I used to be.—Boston Transcript.

## BONE FOOD

Soft and crooked bones mean bad feeding. Call the disease rickets if you want to. The growing child must eat the right food for growth. Bones must have bone food, blood must have blood food and so on through the list.

Scott's Emulsion is the right treatment for soft bones in children. Little doses every day give the stiffness and shape that healthy bones should have.

Bow legs become straighter, loose joints grow stronger and firmness comes to the soft heads.

Wrong food caused the trouble. Right food will cure it.

In thousands of cases Scott's Emulsion has proven to be the right food for soft bones in childhood.
