MINERS' STRIKE

Labor Leader Views Situation in Anything but Optimistic Light.

ALL DEPENDS ON OPERATORS

Workers Are Sure to Oppose Reduction in Scale and Will Quit Work if Employers Persist in Attempt to Cut Wages.

Cleveland, Ohio, dispatch: Max S. Hayes, prominent in union labor circles and a delegate to the Pittsburg convention of the American Federation of Labor, has sent to the Cleveland Leader a resume of the coal strike situation. Hayes is a close friend of President Mitchell of the United Mine Workers of America and has obtained from him the first definite statement the miners' leader has made regarding the plans of the coming battle with the coal operators.

"Will there," Hayes asks, "be great national strike and lockout in the coal-mining districts next spring, involving upward of 500,000 and resulting in the paralysis of the entire industry and the hastening of a business crisis?

"This question, which has been uppermost in the minds of those who have watched industrial developments during the last few months, was answered partly by those who are regard ed as the spokesmen of the miners, and it remains for the operators to supply the balance of the information necessary to clear the situation.

Looks for Great Strike. "My personal opinion is, after carefully considering the details incident to our trade, that there will be a national suspension in the mining industry next spring. I don't see how it can be averted if the operators of the anthracite and bituminous coal fields attempt to enforce their threats of reducing wages and ignoring our

union." These words were spoken by Vice President Tom Lewis of the United Mine Workers of America in discussing the mining situation. Mr. Lewis added that the miners were making every preparation to meet the issue and battle for the life of their organization and to maintain the wage scale they now have and better the same if possible.

"President Mitchell was inclined to agree in the main with the prediction of his chief lieutenant.

Depends on Operators. "'If the mining operators insist upon a further reduction of wages for mining coal it simply means fight,' he declared with emphasis. 'Not only will our members not accept a cut in wages, but they will in all probability demand a restoration of the 51/2 per cent reduction agreed to in the bituminous field last year as well as a raise for the poorest paid men in and about the mines in the anthracite district.'

"'We are now in a position where we can take the public into our confidence,' said he. 'After the great strike of 1903 thousands of anthracite miners, knowing that they had secured a three years' agreement, unfortunately left the union, feeling themselves secure for the time being. This made the outlook discouraging, but my efforts during the last few months, assisted by a corps of organizers which has been utilized to bring the men east.

Rear End Crash on Boston and Maine Road During Heavy Fog.

FLAMES BURN UP THE BODIES

Victims, Pinned to Their Seats by the Collision, Become Food for Fire, the Remains Being Reduced to Ashes in a Short Time.

Lincoln, Mass., Nov. 27.—Eighteen

persons were killed outright, burned

were seriously injured, and a score of others cut and bruised when the Montreal express crashed into the rear end of a local train at Baker's Bridge station, on the Fitchburg division of the Boston and Maine Sunday evening. The local train left Boston at 7:15 o'clock with four cars filled with passengers bound for Concord. West Ac-

ton, Maynard, Hudson, Marlboro, and smaller towns in the Assabet valley The Montreal express, comprising two locomotives, two milk cars, two baggage cars, a mail car, three coaches, and a Pullman sleeper, started at 7:45 o'clock. The latter is a through train, and,

after passing Waltham, ordinarily does not stop until it reaches Concord, two miles west of Baker's Bridge stathe coal industry in working condition. Local is Behind Time.

tion. Our miners are compelled to work just as hard to mine coal at 85 Owing to heavy traffic the local was cents a ton as when they received 90 behind time when it reached Baker's cents and they not only refuse to ac-Bridge.

The night was unusually dark, and dense mist which came up the Sudbury river obscured the signals of the train in front.

convention of the United Mine Work-The red fire torch had not been set ers of America this question will be more than a minute before the roar of settled definitely on the lines indicated, heavy train around a curve a short namely: That our members will acdistance east of the depot was heard. cept no further reduction and will Within a few seconds the headlight stand for no advance and fight for it of an onrushing locomotive showed through the mist, and before a hand could be lifted to warn the passengers "According to Secretary W. B. Wilson if a strike is ordered in the bituin the waiting train the two ponderous engines, traveling at a speed of minous fields, either against a reduction or for an advance in wages, upthirty-five miles an hour crashed into it. The impact was terrific, and inwards of 300,000 men will respond to stantly there was an indescribable the call. The various districts have more than \$3,000,000 in their treasur-

scene of death and ruin. The leading locomotive telescoped the rear car of the Marlboro train, and the second engine forced this mass against the third car of the local and completely wrecked it. In these two cars all but two of the fatalities occurred and practically all of the injuries.

List of the Dead. The names of those who have been identified follow: William J. Harris, and 3-year-old

child. Maynard. Mass. May Campbell, Maynard, Mass. Anna Hillbridge, aged 5 years, Acton. Mass. Lyons, ---, fireman on Montreal CALLS JAPANESE A DESERTER.

train. Daniel Weatherbee, Acton, Mass. May Collins, Concord Junction. Nellie Sweeney, Concord. Maganao, ---, Concord.

Seven unidentified persons. The collision destroyed the forward locomotive of the Montreal train, and the engine following, although considerably damaged, did not leave the rails. None of the cars of the exwas thrown from the trac and the impact apparently had little effect upon those in them.

Passengers Are Incinerated. Fire added to the horrors, flames almost immediately communicating to the wreckage of the passenger coaches, and a number of passengers who had been pinned down by broker seats were incinerated. Some of them, however, had evidently been killed instantly. The second car of the local train remained standing on the rails and was not greatly damaged.

There were thirteen corpses taken from the wreck, and three died soon after being removed. Three of the bodies were headless. Two skulls were found at 2 a. m., and twenty minutes later a man's head with a full beard was picked up. It is difficult to fix the exact number of those who perished, but it is thought it will not exceed eighteen.

Passengers from both trains, rail road employes, and a number of villagers rushed to the wrecked cars and assisted many persons to escape The flames made it difficult to reach some who were alive, but who had been unable to free themselves from the mass. For the time it was necessary to lay injured persons side by side with the bodies of the dead, un til every effort possible had been made to rescue other victims.

The working force was small, as Baker's Bridge is in a sparsely settled district. Many of the uninjured women passengers became impromptu nurses and all of the men joined in searching the debris for bodies.

MODERN DIANA SAVES LIFE Young Woman Drives Twenty-five

Miles With Unconscious Companion. Aberdeen, S. D., special: Using her garments for bandages to bind a gaping wound in the face of Prof. H. B. Calin, with whom she had been hunt ing, Miss Ruby Cole, a school teacher drove twenty-five miles with the un-

conscious man to Eureka, where doctors were secured. If it had not been for Miss Cole's presence of mind the man would have bled to death.

Wipe Out Mark of Ownership. Washington dispatch: In the new

map for 1905, issued by the general land office, the little dot of land, lying off the coast of Cuba and known as the isle of Pines, will no longer have the letters "U. S." following its name.

Boy Breaks His Leg.

Sterling, Ill., dispatch: Arthur Storekle, son of Ald. F. A. Storekle of this city, broke his leg while playing football. This was the fifth accident of the kind in this city this season

yet.'"

The Hay Fever Gratter.

Prof. Garner, who is about to return to Africa to resume, in his steel cage, the study of the language of monkeys, complained bitterly on his last visit to New York about grafters.

"Some so-called journalists," he said, "when they can't get an interview with me—and why should I give away my facts when I can write and sell them—take statements from my books, alter their form and sell them as actual interviews at from \$5 to \$8

a column. That is graft, or worse cian, and said: "But I need not complain, for graft is everywhere.

"I know a man who suffers greatly from hay fever in September. He went to his brother, a famous physician, and saidd: "'Where do you advise me to go

this month to keep the hay fever down? "The doctor, laughing, frankly re-

to death, or suffocated; twenty-five plied: "'I don't know. The fact is, I haven't completed my arrangements with any

Idaho Joins.

of the free-from-hay-fever resorts

Fraser, Idaho, Nov. 27th (Special)-Mrs. Martha J. Lee has given for publication the following statement, concerning Dodd's Kidney Pills:

"I was down with Rheumatism three times," she says, "and each time Dodd's Kidney Pills helped me. The last time they cured me, and now I am able to get around and do all my work, though I am fifty-eight and I can walk to Sunday School every Sunday. Before I took Dodd's Kidney Pills I was so bad I could use neither band nor foot. I shall keep Dodd's Pills on hand all the time.'

Rheumatism is caused by Uric Acid crystallizing in the muscles. Healthy kidneys remove all Uric Acid from the blood. Diseased Kidneys cannot remove this Acid which collects in the blood and poisons every vein and artery. Dodd's Kidney Pills cure Rheumatism by curing the Kidneys: by healing and strengthening them, so that they can rid the blood of all impurities.

No "Arctic Moon." The arctic moon is just the same as the moon everywhere. The cause of the prolonged polar days and nights

does not affect the moon in the slight

est degree. The North Pole. It is often said that, when the North Pole is discovered there will be found a Scotchman doing business. The Highlander always ranked foremost amongst the pioneers of the Ameri-

can West. His Herculean strength fitted him for frontier life, and to his constant use of "porridge" for breakfast is attributed his splendid physique. This generation can be as brawny by eating Pillsbury's Vitos.

How About #1 Love You?" What lie is told most frequently? Gone away on business" probably.-Atchison Globe.

Ask Your Druggist for Allen's Foot-Ease. "I tried ALLEN'S FOOT-EASE recently and have just bought another supply. It has cured my corns, and the hot, burning and itching sensation in my feet which was almost unbearable, and I would not be without it now."—Mrs. W. J. Walker, Camden, N. J." Sold by all Druggists, 25c.

Brigands Fire on Train.

Armed brigands opened a fusillade of rifle shots on a train that refused to halt at their summons, near Alora, in the province of Malaga, Spain, one passenger being wounded.

I am sure Piso's Cure for Consumption saved my life three years ago.—Mrs. Thos. Robbins, Maple Street, Norwich, N. Y., Feb. 17, 1900.

Good Time Promised.

The following notice was tacked on the wall in the vestry of the Bethesda Methodist colored church in a Southern city:

"There will be a picnic of this society in Green Grove next Friday, beginning at 9 a. m. in the morning. Good behavior is requested from young and old, and nothing will be left undone which would tend to mar the pleasure of the company."-Lip pincott's Magazine.

Eminent Dectors Praise its Ingredients. We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of The Echectic Medical Review says of Unicorn root (Helonias Dioton) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator " " makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucornica; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronif diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weak-ened condition of the reproductive system; amenorrhoea (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and ansemic (thin blood) habit; dragging sensations in the extreme lower part of the above symptoms.

Af more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions "and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is no medicine in use about which there is universally regarded as the tonic useful is all debilitated states."

Prof. Bartholow, M. D., of Jefferson

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagis (fooding) and congestive dysmenorrhoes (painful menstruction)."

Dr. Pierce's Favorite Prescription fathfully represents all the above named ingredients and cures the diseases for which they are recommended.
