## THE BIG PROBLEM FOR HOME BUILDERS

is the selection of material best suited to their individual requirements. Lumber is generally conceded the best, all around material that can be used. Its use insures a sanitary, healthful abode and with it a home can be planned to come within the reach of all sizes of purses—subject to future day expansion as your family increases. There are many advantages we have discovered in our years of experience with lumber which we believe would be extremely interesting to you, all of which can be had for the asking. At present our stock is well assorted and we can supply all sized bills without delay. Come in, look us over and let us tell you how you can utilize lumber to the best advantage. We want also to show you the difference in lumber and why grades determine price. This is worth knowing.

## The Joker in Fancy Doors

is well hidden by many manufacturers who profit by the public's desire for show and beauty. Their doors "look the part," but because of faulty construction often "come apart" after being hung. We have our own factory and build our own doors of thoroughly seasoned, sound lumber, and while our prices may not class as "regular" bargain counter prices, our doors are good all the way thru. Come in and see our styles and the doors themselves.

**WILLIAM REED**  
Fourscore was the allotment of years to William Reed, and as he walked with God. God took him. Such might be the brief biography of his life, and in saying this we have said much more than if he had acquired great riches, fame and other distinction. He did what his Lord required of him: he did justly, he loved mercy and he walked humbly with his God. His departure was marked by that same peace and confidence in God that marked his earthly career.

William Reed was born August 22, 1833, in Whitestone, near the city of Exeter, England, and at the dawn of day, June 12, 1913, (shall we say he died?) he awoke in the brightness of that eternal day in which the sun never rises nor ever sets. It was in England that he spent his young manhood and acquired many of the stanch and sterling principles and qualities which characterize the English people. In the year 1858 he was united in marriage to Miss Harriet Netherway, who for fifty-five years has been his loving and devoted companion and helpmate, sharing with him the burdens and sorrows of life, which have not been a few. God blessed them with eight children, five of whom preceded their father to their eternal home. Those living and dead are as follows, according to the order of their birth: Rose,

who died at the age of six weeks; Alice Jane, whom many remember died at Ridgefield at the age of thirty-five; Frederick William, living at Ridgefield; Matilda Reed Frame, died at the age of twenty-nine; Richard of Ridgefield and William Henry of Pasadena, Calif. Edwin, who, at the age of twenty-one, departed this life in the vigor of young manhood, and Mabel, in the prime of young womanhood at twenty-five, left the parents again bereaved. In ten months they were bereft of three, after all had reached their maturity. Besides the three sons living, Frederick, Richard and Henry, there are ten grandchildren, who were the pride of his heart, and who will miss the blessing and benediction of "Grandpa" Reed. Two sisters in England, Mrs. Amelia Netherway and Mrs. Ellen Brewet, and one brother, Henry Reed, of Ridgefield are left to mourn the loss of a brother.

It was in the year 1872 that he came to America, locating in Ridgefield and was followed two years later by his wife and five children. Their first home was on what is now known as the Morey farm, south of Ridgefield. They have resided in our midst ever since, with the exception of four years when they lived on the Blakeslee farm near Woodstock. Eleven years have they lived in their present home, and here father and mother have been the recipients of many tokens of love and esteem from their children, grandchildren and their host of friends.

It was Mr. Reed's first and only sickness and he suffered much and patiently. Everything was done that was humanly possible to stay the hand of death and ease his pain (and in this his faithful nurse did much to comfort him), but God in greater love took him into the realm where is no sickness, pain nor death.

As a Christian man he was of the kind that the religion of our Lord Jesus makes glorious. Early in life he became His follower and he was consistent. He always had a testimony to God's saving and keeping power. It was an inspiration to hear him pray, and as a member of this church he was faithful. As a husband and father he was loving, kind and indulgent, and while called upon to bear much in the loss of his children, he was also a man of sorrows and acquainted with grief, but these things worked out for him a finer character and a far more and exceeding eternal weight of glory.

As a friend and neighbor he was loved and respected by all. He had no enemies. God bless the memory of this sainted brother to our good, and may we remember that such a life is worthy of emulation in its faith, work and deeds, and that at the last we, too, shall be crowned if we have been as faithful.

**JOHNSBURGH.**  
Rev. E. Berthold was a Spring Grove visitor Tuesday.

Many of our college students are again at home for their summer vacation.

A number of Lady Foresters of this vicinity attended the outing that took place at Elgin last Wednesday.

Sheds that were on the M. H. Freund lot have been moved over on S. M. Schmitt's place. This brings the stalls to a place where they are easier of access and also more convenient.

Today (Thursday) the school children are having their school picnic at Nell's Columbia park. This is the day that the little ones enjoy themselves. They have no more cares, lessons are over. Hurrah! It is vacation time.

A suggestion: Could anything be done to avoid those clouds of dust that are caused by automobile traffic? How about it, if some energetic people got together and tried to solve this problem? Suppose they try oiling the main street? Could it be accomplished? Think it over.—By a Booster.

The wedding dance held at "Stubby" Smith's hall here on Tuesday evening of this week was very well attended, there being about 85 couples present. Everyone had a swell time and enjoyed the event to the fullest extent. "Billy" Burke of Chicago, "some drummer," assisted the local orchestra on this occasion and made a hit with the dancers. All told, the event proved a marked success.

On account of unforeseen circumstances the entertainment which was advertised to take place at the Parish hall here last Sunday evening has been postponed until next Sunday night when same will positively be given. The postponement, although greatly regretted by those in charge, probably was a good thing, after all, as it gave those who take part a week longer to rehearse their parts and thereby become more efficient. Don't miss it next Sunday evening.

The basket social given at the Parish hall last night for the benefit of the church here brought out a big attendance and as a result the church funds were enriched to the extent of about \$100. Geo. Vogel, the oratorical one-tongued of Solon, was present to dispose of the many pretty baskets. Mr. Vogel, as usual, made a hit with the crowd and experienced no trouble in finding purchasers for each and every basket. After the good things had been partaken of dancing was enjoyed. The event proved a big success in every way.
