NEIGHBORING NEWS AS CHRONICLED BY OUR ABLE CORPS OF CORRESPONDENTS

RIDGEFIELD

E. E. Knills was a Sharon visitor over Sunday.

E. Hesselgrave started for Montana Tuesday afternoon.

L. J. Gibson spent a couple of days last week with his parents.

Mr. and Mrs. S. E. Olmstead of Woodstock were Ridgefield callers Wednesday.

Mrs. A. Purvey and aunt, Miss Jewett, of Woodstock were Crystal Lake callers recently.

The Wednesday evening callers at Crystal Lake were R. McBride, W. Reed and R. Knills.

The M. W. A. camp here attended the funeral of Samuel Simmons at Woodstock Tuesday, Aug. 12.

Mrs. L. M. Goddard of Woodstock spent several days with her parents, Mr. and Mrs. J. B. Lynch, returning home Tuesday.

You'll be sorry if you miss the McHenry county fair. Interesting and instructive exhibits and marvels in machinery and mechanism, besides the biggest and best attractions the management has been able to secure, including the Clifton Kelly Carnival company, the Du Brock polo games, baseball games, horse racing, dancing and hundreds of other forms of amusements. August 26-29, 1913. The "Welcome" sign hangs everywhere. Day and night.

Mr. and Mrs. J. B. Lynch have just returned from a trip into northern Wisconsin. They spent some time at Hawkins, where they have a daughter.

On their return trip they stopped off at St. Paul, Minn., and also enjoyed a trip to Lake Shamrock. They report a very enjoyable trip. Mr. and Mrs. Lynch were also in Chicago, where they made a satisfactory settlement with the Northwestern Railroad company for the injuries Mr. Lynch received when he was struck by an engine at Ridgefield last May. The Modern Woodmen, of which society Mr. Lynch is venerable counsel, also sent him a check for \$137. Mr. Lynch resumed his duties as depot agent here on Wednesday morning, the acting agent relieving Mr. Nolan at Woodstock. The many friends of Mr. Lynch are glad to see him at the old post and are also happy to learn that he made a satisfactory settlement with the company.

JOHNSBURGH

Threshers have been kept idle for a few days lately on account of small showers. John M. Schmitt has his outfit working in the best of condition and the machine is doing up jobs at a good rate of speed.

The Johnsbury baseball nine last Sunday afternoon played the Fox Lake team at Fox Lake and lost by a score of 6 to 3. The game was well played, but lack of practice on the part of our boys makes proper team work an impossibility.

A petition was filed in the county court at Woodstock last week by which it is intended to form a drainage district to reclaim and drain about 1,000 acres of land in the towns of Nunda and Wauconda, the latter town being in Lake county. The petition filed bears the names of Theo. Hamer, H. N. Given, E. H. Hughes, G. A. Vasey, F. E. Wilson, John Brown, John Dowe, N. Donnell, Thos. Dowell and Michael P. Worts, who represent one-third of the land owners in the district sought to be reclaimed.

"Stubby" Smith, the ever popular manager of Smith's hall, is to be complimented on his stand taken against the latest freak dances. The writer is informed that a sign reading: "No tango, turkey trot or bear cat dances allowed in this hall, by S. H. Smith, proprietor," has been placed in his hall. A person with common sense will appreciate this move and it is hoped that neighboring proprietors of dance halls will follow Mr. Smith's admirable example. To supplement the above we will say it really is a disgrace that in our modern day, when people want to be so far advanced in knowledge, that such low and immoral dances are still indulged in. Naturally, it shows poor character, when such heathenish recreation becomes a pastime. A cleaning out of some of our rag-time composers would do a world of good. Why can't we have some good waltz, two step, redowa or other clean dances? Let's make a move. Who will assist?

SMOOTH LUMBER SMOOTHS BUILDING

problems from many of the high-cost kinks in that it reduces the hand labor of the carpenter to the minimum. That's one of the little secrets that enables us to help our customers beat the building game. Years ago when labor was cheap it didn't matter how lumber came to you, whether it was rough, of uneven size or odd lengths—your carpenter could use it, but that wouldn't do today. Lumber manufacturers foresaw this and got busy establishing standard uniform grades, installing special machinery to do automatically the work that the carpenter formerly did by hand. All this cost them money, but the actual saving to the builder, who uses this finely finished lumber, more than offsets the small additional charge asked by the manufacturers. Come in and look at this stock—you'll then understand what we're talking about.
