He also stated that America had the most deadly gas in use and that their gas masks were perfect.

GOOD ROADS WITHOUT TAX

Illinois People Will Have Opportunity to Vote For State Bond Issue

To the Voters of the Eighth Senatorial District:

A circular is being used, using my name with others, as opposed to the \$60,000,000 bond issue to construct good roads. My name is used in this connection without any authority from me whatever, and only pretends to quote statements which I made in the house of representatives several years ago in opposition to the original Tice law.

I am for the \$60,000,000 bond issue. It will construct 4800 miles of hard road at no expense to the tax payers in Illinois, and will be paid in full by the automobile owners in the state, and will be more than saved to the automobile owners in economy in the use of their machines. It is the first real practical method of getting hard roads in Illinois. I voted for the \$60,000,000 bond issue in the house and am for it at the polls.

An automobile owner can well afford to vote for this as it will more than save his automobile license in the wear and tear of his machine. All others can vote for it, because there will be no tax levied on their property to pay the bonds, and it will release all of the road and bridge money to go to the other side roads.

The increasing number of machines used on the highways makes it imperative that some kind of a hard road be provided to protect the roads.

Some of my old time friends are using language of mine in the house against the Tice law to convey the impression that I am against the bond issue. In some respects I have changed my notions in the last eight years, and in other respects this method of procuring hard roads differs from any that have been heretofore submitted, and in my judgment is all right. Vote for the bond issue.

Very respectfully,
Edward D. Shurtleff.

Nurses Boys Back to Health

The following article from last week's Hebron Tribune will be read with interest as Miss Randall at one time resided near this village and has many friends here: "The pneumonia epidemic has reached the Todd seminary for boys at Woodstock and the past two weeks has been a strenuous time for everyone connected with the institution. The house nurse, after having been on duty for several patients who had influenza, contracted the disease and developed pneumonia and was very critically ill. Owing to the epidemic raging in all the larger cities, nurses were very scarce and Miss Hettie Randall of Hebron, an instructor in the seminary, volunteered as nurse and under her care the house nurse has about recovered. With the other patients, and many of the instructors coming down with the influenza, Miss Randall secured the services of Mrs. Bernice Smith of Hebron to assist her in caring for the sick. Mrs. Smith, who completed a course in nursing, was a valuable aid in the work and for the past two weeks the two Hebron young ladies have been mighty busy taking care of the patients, and to date they have been most successful, having brought everyone along toward recovery in good shape. Miss Randall had no previous nursing experience, but has been getting a lot of first-hand practical experience the past few weeks."

Home From Hospital

Wirth Woodburn, who suffered a broken leg when he was thrown from his favorite riding horse at the Woodstock fair grounds last summer, and who during the past few weeks has been confined in the county seat hospital, returned home this week and is now able to be about with the aid of crutches. The fracture was a severe one and for a time it was thought advisable by physicians in attendance to amputate the member. His friends in McHenry are pleased to know that he has recovered sufficiently to be able to return home.

Succumbs After Long Illness

George Bishop, son of Mrs. Jacob Bishop, died at the parental home in this village Tuesday, Oct. 29. Deceased was thirty-eight years of age and had been in ill health for many years. LETTER BRINGS NOTORIETY

JOS. W. FREUND IN THE LIMELIGHT

His Plea For Votes Brings Forth Much Newspaper Comment—Lake County Papers Censured Him

Jos. W. Freund of this village, who is a Democratic candidate for representative in the general assembly of this, the eighth district, is this week the victim of more newspaper notoriety than has ever been given to a local candidate for any office and it all came about thru the following letter, which the McHenry man has circulated among the voters of this district in the interest of his candidacy:

The Letter

Dear Friend—I ask you for your support at the November 5th election and I appeal to you on the condition that we have a chance to send a man of our own nationality to the legislature for the first time in the history of McHenry, Lake and Boone counties.

We have always supported men of other nationalities before, why not support a man once of our own nationality. Are we not as much entitled, as other nationalities, to a public office? Why not?

I invite you to investigate my past record and assure you that it is equal to any of my opponents for this office and therefore our nationality must assert itself in order to be represented in the offices of our government, as do other nationalities.

Therefore I ask you to help me with your influence among your neighbors and friends as men of other nationalities have done for men of their nationality.

Thanking you in advance for whatever you do for me and therefore for our nationality, I remain,

Yours truly,
J. W. Freund,
McHenry, Ill.

From all indications reporters of various newspapers in this district as well as Chicago did not get hold of the letter until the first of this week, as the first notoriety given same appeared in Tuesday morning's Chicago Tribune, while a number of smaller papers in the district contained lengthy articles regarding same in their issues of this week.

The Waukegan Daily Sun of Tuesday's issue published articles regarding same that took up a space of about three columns, besides devoting two editorials to the matter. Other Lake county papers also gave the letter wide publicity.

A reporter to The Plaindealer called on Mr. Freund on Wednesday morning and in answer to a question as to whether or not he had a statement to make we were told that he had "nothing to say." Mr. Freund expressed very little surprise at the notoriety that he has gained thru the letter, intimating that he had looked for a come-back from his political opponents. However, he did venture to say that he had made a mistake in composing the letter which made it possible for the public to misconstrue. During the interview Mr. Freund seemed particularly anxious to have it understood that he is not a pro-German, but that he is an American first, last and all the time; that he has advised his friends to invest in liberty bonds and that he himself has purchased to the very best of his ability.

He also pointed out to the inquirer that he had just recently been appointed the chairman for McHenry township in the campaign for the sale of war savings stamps among the German speaking Americans and that he has already put considerable of his time in the furtherance of this worthy cause. He also points to his record in all of the various drives which have been inaugurated for the purpose of assisting in the winning of the war. All in all, we believe his record in this respect to be beyond any possible criticism.

After our talk with Mr. Freund we really believe that he now realizes that he has made a mistake in wording his letter as he did, as there isn't a possible doubt but what the literature thus circulated will now do him more harm than good in the general election next Tuesday.

The Plaindealer has interviewed a number of our citizens, both Democrats and Republicans, and the general consensus of opinion seems to be that our local townsmen has made a grave mistake.

Received Fatal Injuries

John Porter of Solon Mills died at the Cottage hospital in Woodstock on Tuesday of last week. He was taken to the hospital on Monday, suffering from terrible injuries received when he fell from a wagon loaded with gravel, the wheels passing over his chest. The accident was caused by the team running away. Mr. Porter was employed by Geo. Vogel and was about fifty years of age. It was he who demonstrated noble bravery by saving the life of Mrs. Brennen when the team bear attacked her at the Vogel home about a month ago.

Teachers' Examination Postponed

Teachers should note this change in date. The examination will be held in the office of the county superintendent as usual.

ELECTION NEXT TUESDAY

MCHENRY HAS TWO CANDIDATES ON BALLOTS

Three Very Important Questions to Be Decided—Every Voter Should Make a Special Effort to Get to Polls

Next Tuesday, Nov. 5, is election, and, in view of the fact that aside from voting for the men of your choice there are also three very important questions to be decided on that day, all of which are more fully explained in another place in this week's issue of The Plaindealer, it is up to the voters to turn out in goodly numbers.

Up to this week there has been very little political talk in and around McHenry, but now that the date is so near at hand more interest is being shown by the voters here.

Naturally, considerable interest is being manifested in the heads of the two old parties, Republican and Democratic. Medill McCormick of Chicago, candidate for United States senator, heads the Republican ticket, while James Hamilton Lewis, also of Chicago, is seeking the same honor on the Democratic ticket in the McHenry precinct is a matter of conjecture, altho those who appear to be posted on matters of a political nature seem to think that McCormick will lead here.

The balance of the national offices have not created so much interest. However, the race for members of the general assembly has taken on a keen interest thruout the entire district since the entry into the race of our townsman, Jos. W. Freund. As stated in a previous issue of The Plaindealer, Mr. Freund has been making a quiet canvass during the past two weeks or more in an effort to unseat Thos. J. Graham of Ingleside, the present incumbent in office.

For the county offices McHenry offers another candidate in the person of Prof. A. E. Nye, superintendent of the McHenry public school, who aspires to become county superintendent of schools on the Democratic ticket. As has always been the custom in the county, the candidates for this office do very little campaigning, but leave it entirely for the voters to decide at the polls. Mr. Nye looks forward to a splendid endorsement from the McHenry voters, even if he does lose out next Tuesday.

The Plaindealer looks forward to a big vote next Tuesday, as everyone should be interested in the candidates and the important questions that are to be decided.

Liberty Loan Averages

Since the closing of the fourth liberty loan drive many interesting figures have been compiled and to our readers the figures of McHenry township will be worthy of perusal. Here in the McHenry district, which comprises the village of McHenry and runs to the township lines in every direction, excepting north, where same stops just outside of the village limits, there were 600 purchasers of liberty bonds who subscribed a total of \$102,750, making the average subscription \$205.50. In the Johnsburg district, where there were 140 subscribers, \$30,460 was raised, or an average subscription of \$217.50, while in the Ringwood district 170 subscribers bought \$36,400 worth of bonds for an average of a trifle over \$214 to the person. We doubt if there is another township in the entire state which can boast of such a remarkable record.

Old Timer Returns

William Siers of Benton Harbor, Mich., was renewing old friends in town the latter part of last week. Mr. Siers will be favorably remembered by many of the older inhabitants as the one-time captain of the old "Mary Griswold," which for a number of years carried freight and passengers between this village and Fox Lake. While a resident of McHenry he also took part in a number of home talent entertainments and in this degree always proved a big favorite. After leaving McHenry he moved to Elgin, where he was employed in the watch factory until a few years ago, when he took up his abode near the Michigan city, where he owns a small fruit farm. Mr. Siers was happy to get back to the old town once more and his visits with a number of the old-timers were occasions of real enjoyment.

County Sunday School Convention

The McHenry county Sunday school convention, to have been held in Hebron next week, has been postponed, because of the influenza epidemic. While this will be a disappointment to many, we are certain that a convention held at some later date could be of greater benefit to the entire county. Plans will be developed as early as conditions are favorable.

"VICTORY BOYS"

Great Campaign For Boys Nov. 11-18, Stand Fast

Uncle Sam needs you, fellows! Needs you in the great United War Work campaign Nov. 11-18. He needs you on the "Victory Boys" end.

You have heard about the Y. M. C. A. huts and you've received letters from brother or friends with the K. C. sign and again with the Red Cross triangle sign. You know about the "Y" huts in the front trench, with sand bags for a front door, with eats, good cheer and the spirit that carries the men to victory. You know about the great Library association that carries books and magazines and newspapers to men who would crawl thru mud and fire to get the printed story that brings back the home scenes and faces to them. And the Salvation Army with its coffee and doughnuts and royal welcome to thousands of soldiers, and the Jewish board for the Jews that have proven themselves Americans by going out in thousands to skin the kaiser. And the Y. M. C. A. that has given the boys a chance to be entertained by honest to goodness American girls, and to get the kind of cheer that only our fine splendid American type of girls can give when a fellow's tired of mud and shells and trench life.

Uncle Sam has asked for "1,000,000 boys behind 1,000,000 fighters" to earn and give \$5 each to give the men in khaki the kind of cheer that the "Y" and the "K. C." and all the others alone can furnish.

Worth while? You'd think so if you could ask the "Boys" or General Pershing about it. Uncle Sam has been talking with them and has decided that VICTORY depends on the spirit these organizations can furnish. McHenry county is out for \$2,000 from the boys alone. Fine! Let's give 'em \$4,000 and show 'em what we're made of. Up to us to say. There are a major and three captains in each township. They are looking for boy lieutenants and privates to make up this great army of 1,000,000 boys. \$2,000 means 400 boys behind 400 fighters from McHenry county. Let's go!

Five dollars gives one soldier five weeks of the combined benefit of ALL SEVEN ORGANIZATIONS. Show us the boys between 12 and 20 who doesn't think that's worth his \$5 or more. Farm, beat rugs, dig potatoes, anything else for Uncle Sam. We're on! We're going to "Y. M. C. A. the kaiser."

BUY'S CRYSTAL LAKE MARKET

L. H. Eisenmenger Quits McHenry and Buys at Crystal Lake

L. H. Eisenmenger, Jr., who has successfully conducted the Water street meat market during the past four years, completed negotiations for the purchase of the Charles Tegtmeyer & Son market at Crystal Lake last week and took possession of the place on Monday morning of this week. During his stay in McHenry Mr. Eisenmenger has enjoyed a very successful business and the opportunity of getting into a larger place where the business was more steady prompted him to make the change, for which no one can blame him.

The Water street meat market has had a number of owners during the past dozen years or more, and it was thru Mr. Eisenmenger's strict attention to business, his careful and painstaking methods that made the place a paying venture.

Since this deal another one has been consummated whereby Geo. J. Schreiner, until recently employed by Wm. Pries at the Centerville meat market and grocery, has rented the Water street place, where he will open for business next Saturday morning, Nov. 2.

Mr. Schreiner is already too well known to the people to necessitate an introduction, as he has passed practically his entire life in this village, altho he has had both country and city experience in this line of work. His aim will be to carry a complete line of fresh and salt meats at all times and his endeavor will be to satisfy his customers.

This Is Hallowe'en

Tonight is Hallowe'en and we trust that those bent on having a "good time" will do so without the destruction of property. The young folks have behaved pretty well on recent Hallowe'en's and the residents of the village feel that the night will be passed in a manner that will again reflect credit upon our younger generation. No one will begrudge the young people innocent pleasure, but the destruction of property will be looked upon as acts anything but in keeping with the spirit of the times.

Notice

I hereby request all those knowing themselves indebted to me to call and settle up their accounts in full at once. These accounts must be settled this week without fail.
