

Our Own Cough Cure

White Pine With Tar

This is a remedy that cures by removing the cause. It is a soothing, healing, expectorant remedy. It stimulates the secretions; it loosens the cough. It does not drug a cough into silence as narcotic remedies do; it stops the cough only when the cause of the cough is removed. It is a remedy easy to take and is equally good for children and adults. It is economical to use, because you get a liberal quantity for the price, and because it cures. It is positively guaranteed.
