## Hate your kitchen?

### 5 ways to afford the kitchen you want:

#### 1. Replace with a custom kitchen designed to your budget.

We can provide virtually any look you want at a wide range of price points. Our custom cabinets start around \$10k installed and average \$13k to \$20k based on client choices. Our designers will work with you to create a design that perfectly meets your personal style, function and budget goals.

#### 2. Restyle and save 20-40% on your dream kitchen.

If we only need to replace or add some cabinets to provide the improvements you want, we can modify the appearance of the remaining cabinets to match. The result is a new custom kitchen with the style and function you want, at a substantial cost saving.

#### 3. Reuse by Refacing or ReDooring. Save 40-60%

If your kitchen layout and function work but you want a great new look, we can replace the doors and modifying the appearance of any exposed cabinetry to match. You can get virtually any look you want at about half the cost of comparable replacement cabinets.

#### 4. New "ReDoor-It-Yourself" and save up to 75%

Changing the doors and painting the cabinets to match is the most affordable way to get a complete new look. If you are handy or know someone that is, we can provide new custom made doors in a huge selection of styles and finishes. **Ask about our Free D-I-Y Kit.**

#### 5. Renew your cabinets with a "Tune-Up" & save up to 90%

Our exclusive process restores and repairs the original finish on wood cabinet doors to 90-95%. Tuning-Up your cabinets and replacing the counter top and handles is the quickest, easiest and most affordable way to update your kitchen. Average cost is about 10% of comparable new cabinets.
