Notice of Halton Region's 2014 Comprehensive Employment Survey

The Regional Municipality of Halton will be conducting its Annual Comprehensive Employment Survey in 2014. The data collected is vital for monitoring the Region's economic health, as well as aiding in policy and decision making. It is essential background information for forecasting and planning the Region's infrastructure and services for the residents and businesses of Halton.

Between May and September 2014, a team of surveyors from the Region's Planning Services Division **will visit each and every business establishment in Halton** to gather information about the number of employees working at each location and the type of employment that is taking place there.

The surveyors will wear a Region of Halton shirt and cap, each bearing the Halton Region Logo, as well as a visible photo ID card that identifies them as part of the "Halton Employment Survey Team 2014". All data collected from the survey will be grouped together and released to the public as statistical highlights of economic and employment patterns and trends. Individual business information will not be identifiable or published in the results of the Region's survey. It will be shared with the Local Municipalities and used for planning and municipal related purposes. The 2014 Employment Survey Results Report will be published in early 2015.

The success of this important survey depends upon the assistance and co-operation of the Region's business community. If you have any questions or comments regarding the survey, please contact Planning Services at 905-825-6000 ext. 7686

Provincial election questionnaire replies now online

In advance of the May 16 provincial election, Halton Region invited local candidates to respond to a questionnaire on issues that are important to Halton residents. The responses we received are now online at Halton.ca/OntarioElection2014. I hope you find this to be a useful tool prior to heading out to vote.
