

# Bazar says track record in community important consideration

**By David Bazar**

Candidate for Regional Council, Ward 2

Why elect David Bazar for Ward 2 Regional and Local Councillor?

With his proven track record as a consultative leader, I will get results and treat constituents with respect.

As a Chartered Accountant and profes-

sionally trained mediator with a successful Oakville practice, I have a long history of serving and protecting the interests of people typical of the constituents of Ward 2.

A 14-year Ward 2 resident, I am a caring father of two and a loving husband with a direct interest in getting results and protecting the interests of Ward 2.

As a frequent and long-time volunteer

(from Big Brothers to coaching minor sports), I have proven to be a concerned citizen with a willingness to serve the community.

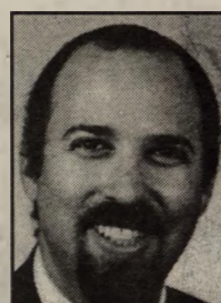

I will work for affordable taxes, modern and comprehensive recreational facilities, safe water, fairly and responsibly managed truck and car traffic, effective fire and police protection, better public

transit, additional homes for the aged, and responsible development practices.

I have the track record, the tools, and the willingness to serve as your representative for Ward 2.

On Nov. 13th, vote David Bazar.

For more information, visit [www.davidbazar.com](http://www.davidbazar.com) or call me directly at 338-0330.

# Would fight gridlock says Oliver in Ward 2

**By Fred Oliver**

Candidate for Regional Council Ward 2

I, Fred Oliver, am seeking the office of Regional Councillor for Ward 2, as I have the time to serve full-time and have 14 years experience as a Regional Councillor.

We need to do something about the traffic gridlock, the environment, and the growth of our Town.

We need to ensure that the growth is affordable, well-planned and environmentally sound.

Council must also ensure that our present citizens and facilities are adequately serviced.

If elected, I will strive to correct the traffic gridlock, ensure we have safe homes, streets and schools, improve the communica-

tion between the public, staff and councils, and closely monitor the overall administration at both the Town and the Region with a view to maintaining taxes as reasonable as possible.

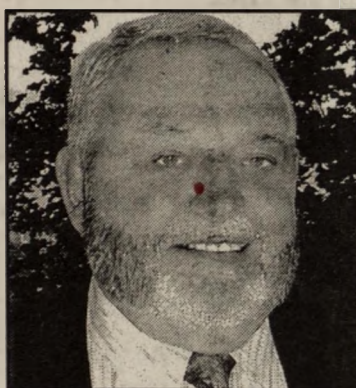

There are areas which need attention and action such as some of our facilities, Transit Service, bicycle paths, and truck routes.

I believe in efficiency at all levels and will strive to see that the citizens receive the best and most for their tax dollar.

I have lived in Oakville for 46 years and during those years have served on the Boards of:

- The Hospital
- Sheridan College
- Police Services
- Town of Oakville Water Air Rescue Force

I have served as a member of

Fred Oliver

the Lions Club for 43 years, and on numerous committees at both the Town and Region. I also served as Police Chief for 26 years.

I have the experience, time and dedication to serve you and seek your support to do so.

# Dann says renewed focus needed

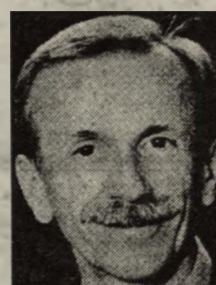

**By Simon Dann**

Candidate for Regional Council, Ward 2

After 10 years of following our municipal council, including my involvement at provincial and federal levels, I believe we need to renew our focus at the municipal and regional councils if we want to determine the quality of our lives and what we're surrounded by.

Municipal politics is no longer a sleepy activity to be driven by either a narrow personal agenda or old century attitudes. I will bring Ward 2 new ideas backed by a wide range of experience to work at the issues in our community. For skills we need now are more strategic in nature. I will use my experience to build a case for new businesses to come to Kerr Street and to work out the return of some form of bank operation to Kerr. At the same time, people are asking for a farmer's market at Westside and Kerr and for Council to rezone Speers to make it more retail tenant friendly. With the right council leadership, these can be achieved.

In the Coronation Park area, the waste treatment plant is outdated and the smell has been especially rank. We need political leadership to bring about facility updating as well as service improvements.

Simon Dann

Whether in planning, development, or infrastructure capacities, we are facing significant environmental issues that will need to be managed with the future in mind.

The changing role of the fire department and increasing involvement in information, education, hazardous materials, calls for a review of manpower allocation and crew numbers, especially for emergency response.

The Dorval Drive extension study is another issue that doesn't reflect resident interests and this needs to be addressed before it goes any further.

Ward 2 is ready for new regional council representation with vision, ideas, and the commitment to push for change and service improvements. While it's impossible to cover all the issues of interest here, I've heard about many of them in the past month and believe that many of them can have a positive outcome if we have energetic and committed council support. With your vote, I will make that happen.
