## Back to School, Forward to Futurekids.

Don't forget to put Futurekids on your list of back-to-school essentials for your boy or girl! We help kids become better learners. Period!

### Computer Literacy Plus

Futurekids puts the power and magic of computers to work helping children build a solid foundation of fundamental learning and study skills, attitudes and knowledge; tools to empower their lives. And because we stress the fun in fundamentals, kids love to learn at Futurekids!

### Great Teachers, Only 4 Kids/ Group

Futurekids teaches children from 5 to 12 in over 1,200 locations around the globe. Specially trained teachers and small classes—only 4 students per group—ensure that your child will receive lots of high quality individual attention and hands-on computer instruction.

### Keyboarding to Animation & More

What do we teach at Futurekids? Our computerized curriculum ranges from keyboarding and word processing to computer assisted math and reading; from graphics and desktop publishing to animation, robotics and more. How we teach is equally important. Futurekids kids learn by doing exciting things like exploring for corners of the Earth, building cities of the future, growing forests...even saving the world (using simulation).

### Back-to-School Special Offer!

Futurekids Learning Centers are magical places brimming with technology and excitement. Right now we're offering a great back-to-school special. Call us for details and to schedule your free introduction. There's no obligation, but classes fill up fast so please don't wait!

# School Success!!!

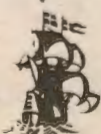

## Improves grades and confidence!

In our progressive and competitive world, children need an edge. Chisholm Centre helps provide that edge with a professional and caring staff who are experts in building fundamental skills in English and Mathematics.

Our after school program for elementary and secondary students has assisted students for over twenty years.

Our summer school program allows students to combine their personal summer enjoyment with a highly structured curriculum that is designed to meet their individual needs.

If you require assessment services to understand the difficulties that your child is facing, we provide them through Dr. Howard A. Bernstein & Associates, C. Psych.
