THE STAFF OF DIVERSIFIED INVESTMENTS GROUP
From left to right, William Cringan, J. Michael Finkbeiner, Lou Odorico, Peter Ewen and Linda Kraav

In a recent article I spoke of getting the right professional to handle your different tax and financial needs. All year round I focus on making my service to my clients better. This year I believe I have assembled my best team ever to handle your needs. I am very proud of the group I have put together. Here are their professional backgrounds.

J. Michael Finkbeiner - President. I have a B.A. in Economics from the University of Western Ontario and my CGA accounting designation. I have been a controller of different private companies and the accounting manager for a division of Nabisco Brands Ltd. I have been in my own tax and accounting business since 1987.

Lou Odorico - Vice President. Lou has a B.A. in Economics from McMaster University and is currently enrolled in the senior level of the CGA program. Lou was previously employed as a controller with a company in Hamilton for 11 years. He has been with Diversified for almost three years and is extremely well liked by our clients of all backgrounds.

Linda Kraav - Financial Consultant. Linda is a graduate of the University of Guelph's Commerce program and is currently enrolled in the CMA accounting program at the senior level. Linda helped start our Burlington satellite location last year and has been with us full time ever since.

Peter Ewen - Financial Consultant. Peter has a B.A. in Economics from the University of Western Ontario and an Honors Bachelor of Commerce from the University of Windsor. Peter is the president of his own company, Crescent Oil, in Hamilton. Peter has been with me on a part time basis for five years and is a great help to us in tax season.

William Cringan - Financial Consultant. Bill has completed the Business Administration program from Sheridan College and is currently enrolled in the CMA program at the senior level. Bill has three years experience in the personal income tax preparation business and has experience in the private sector as a controller and administrator.
