INDEMNITY TO MEMBERS.

(From the Globe.)

On Monday evening the House of Assembly exhibited one of those scenes, which in past sessions have so scandalized the proceedings of that body in the eyes of the public. The chairman of the Comingency Committee moved the adoption of the report of that Committee in favour of adding two dollars *per diem* to the sessional payment of members of Parliament, over and above the statutory rate of four dollars per day. The motion was met with cries of "carried, carried."—Mr. Brown called on the Government to resist the motion, unless they desired it to pass. The members of the Government look perplexed, and talk earnestly to each other, but do not rise. The Speaker puts the question, "shall this motion pass"—Government still more perplexed—but no member rises.—Yeas and nays called for—Ministerial perplexity obviously increases. "The yeas will please to rise!"—says the Speaker—but no Minister rises. The Clerk begins to call the yeas, "Archambault," "Baby," "Beaubien," "Caron," "Cimon," &c.—Ministers intensely busy talking down and counting the names. The yeas are duly recorded, and it appears certain that the motion will be carried;—*then*, and not till then, up rises Mr. Atty. Gen. Cartier, with Mr. Atty Gen. Macdonald, Postmaster Smith, Board of Works, Rose, Secretary Alleyn, and Receiver Sherwood sailing in his wake, and desirous that the names of Ministers may be recorded among the *yeas!* The Inspector General, whose duty it is to protect the public money from such attacks, was not in his seat! The motion was of course carried—43 to 26.

The effect of this vote is to add $30,000 to the expenditures of the year—and in the face of the accumulating embarrassments of the Province it is utterly indefensible. All the great industrial interests of the Province are in a state of prostration; the annual expenditures vastly exceed the annual revenue; it will be absolutely necessary to cut off every sixpence that can possibly be saved;—and yet the very men who must enforce this sweeping retrenchment begin the work by voting themselves two dollars per day extra, contrary to statute, and that in the shabbiest manner conceivable—*as a contingency!*—If this insane work is not speedily stopped, the prospect before this country is lamentable indeed.

MURDER BY A MEMBER OF CONGRESS AT WASHINGTON.

WASHINGTON, Feb. 27.

The community was thrown into an intense excitement to-day by the killing of Phillip Barton Key, U.S. District Attorney for the District of Columbia, at the hands of Daniel E. Sickles. According to the report, Mr. Sickle being convinced of the truth of certain scandalous rumours involving his wife, resolved to redress his wrongs. At about 2 o'clock this afternoon, he proceeded from his residence near the President's house to the south east corner of Lafayette Square, in the same neighborhood, where Mr. Key was engaged in conversation with Mr. Butterworth, of New York, he charged Mr. Key with having dishonoured him and destroyed his domestic peace, and shot him with a revolver. One of the balls entered the left side of the body, and passed through to the corresponding point in the opposite, lodging under the skin Another shot took effect in the right thigh, near the main artery, when Mr Key fell, imploring Mr. Sickles not to kill him. The third shot was in the right side, glancing from the body, inflicting only a bruise. Death ensued in a few minutes. The body was taken into the National Club House, where a jury held an inquest. After an examination into the circumstances, of some hours length, they returned a verdict merely stating that the death of Mr. Key was from the effect of pistol shots, as above stated, fired by Sickles. The premises of the Club House were crowded with people anxiously enquiring into all the circumstances of the event. After Mr. Sickles had killed Mr. Key, he repaired to the residence of Atty. Gen. Black, where he was advised to deliver himself into the hands of the officers, who subsequently conveyed him to jail.

NARROW ESCAPE.—Mr. Veitch, the Reeve of Woolwich, had a narrow escape from death last week. He was attending on a horse in his stable, when the animal kicked at him, and struck him on the nose and forehead. Luckily, the distance prevented the full effects of the blow, and Mr. Veitch, although almost insensible for the time, has now nearly recovered from the accident.—*Berlin Chronicle.*

A Parson reading the funeral service at the grave, forgot the sex of the deceased, and asked one of the mourners an Emeralder, 'Is this a brother or a sister?' 'Neither,' replied Pat, 'only a cousin.'

MEDICAL.—We have made a great tep towards the discovery of what is fgood', for a disorder when we have ound what is bad for it. Folks troubled with indigestion will please copy the prescription.

THE NEWSPAPER.

Rev. Henry Ward Beecher, thus speaks of the newspaper, the common people's Encyclopedia:

'In no other way can so much, so varied, so useful information be imparted, and under circumstances so favorable for educating the child's mind, as through a judicious, well conducted newspaper.

'To live in a village, was once to be shut up and contracted. But now a man may be a hermit and yet a cosmopolite. He may live in the forest, walking miles to a post office, having a mail but once a week, and yet he shall be found as familiar with the living world as the busiest actor in it. For the newspaper is a spy-glass by which he brings near the most distant things—a microscope, by which he leisurely examines the most minute objects—an ear-trumpet by which he collects and brings within his hearing all that is said and done all over the earth—a museum full of living pictures of real life, drawn not on canvass, but with printer's ink on paper.

'The effect of liberalizing and enlarging the mind of the young, of this weekly commerce with the world, will be apparent to any one who will ponder it. Once, a liberal education could only be completed by foreign travels. The sons only of the wealthy could indulge in this costly benefit. But now the poor man's son can learn as much at home, as a hundred years ago a gentleman could learn by journeying the world over. For while there are some advantages in going into the world, it is the poor man's privilege to have the world to come to see him. The newspaper is a great collector, a great traveller, a great lecturer. It is the common people's Encyclopedia—the lyceum, the college.'

ANOTHER ATLANTIC TELEGRAPH.—Undiscouraged by the failure of the late attempts to connect Europe and the New World, a fresh company, the Great Ocean Telegraph Company, (Limited) is announced as being formed for the purpose. The cable employed by the Great Ocean Company is to be constructed according to the patented systems of Mr. Thomas Allan, the eminent electrical engineer, whose inventions in this deeply-interesting science have, we believe, received the commendation of some of the highest names in the engineering world. Mr Allan's rope is the direct converse of the late one; the whole strength being placed in the cue, or centre, instead of on the outside, so that the tension which is inevitable with heavy cable like the Atlantic Company's is avoided, and the gutta percha, the insulating medium, is preserved from injury. It is an ascertained fact in the science of cables that the sheaier the water the heavier the cable should be, and *vice versa* Lightness, therefore, is the great desideratum for an ocean cable—the minimum of weight, so as to preserve a relatively greater specific gravity to the water, and, at the same time, the maximum of conducting power and strength Such a rope it would appear, from the specimen we have seen, Mr. Allan now offers to public notice. He shows that, whilst the absolute weights of the two cables are as 21½ to 10, their relative strengths are as 11 to 25, a strength of nearly 2½ times in favor of the light cable. The Great Ocean Company propose to carry their line from the Land's End to Halifax, United States, which is one of our naval arsenals, and the key to the wires through our North American possession as well as to the United States.

Bachelors are not entirely lost to the refinement of sentiment, for the following toast was given by one of them at a celebration—'The Ladies—Sweetbriers in the garden of life.'

FOR EUROPE.—The *Express* learns that Dennis Donahue, Esq., Her Britanic Majesty's Consul in Buffalo, intends leaving in the course of two or three weeks on a flying visit to England and will return shortly after the opening of navigation

Special Notices.

TO FAHERS AND MOTHERS.

You knew how important it is for your children that you should keep good health. How frequently do we see feeble parents dressed in mourning on account of the death of their beloved children. What a pity it is, when, by proper care and remedies, all these trials and troubles can be avoided. When health can be restored to the parent and life and happiness to the child, Restore the health of the mother and you obviate the necessity of Paregoric. Godfrey's Cordial and other injurious narcotics for crying children. We entreat you, as we desire to improve the condition of our race, to procure Dr. Morse's Almanac and read how diseases are cured in accordance with NATURE'S laws with innocent Roots and Plants.

PREGNANCY.

During this critical period Morse's Indian Root Pills will be required, because they cleanse the body from those morbid humors, and thoroughly drive away all pains, and give ease and comfort to the mother. From one to three of these Pills, taken two or three times a week during pregnancy, will cause the mother a safe and easy delivery, and will be sure to give a stout and healthy constitution to the child.

Dr. Morse's Indian Root Pills are sold by all dealers in Medicines.

THE Injudicious use of Mercury often occasions affections of the throat, of the bones of the nose, and malignant sores. Dr. Moffat's Life Pills and Phœnix Bitters are signally successful in eradicating all the effects of mercury from the system They aid nature in casting from the body all poisonous matters, and by thus purifying the vital fluids, they restore the constitution to sound health. For sale by W. B. MOFFAT, proprietor, 335 Broadway, New York, and his Agents.

New Advertisments.

To Ministers of the Gospel AND Sabbath-school Teachers OF THE COUNTIES OF YORK & SIMCOE.

WANTED, a Smart, Active BOY, about 15 or 16 years of age, to learn the Printing Business. Apply at this office.

DR. C. S. LLOYD IN AURORA.

Doctor Lloyd begs one and all,
Not to neglect immediate call;
For having made the firmest stand—
With every choice at his command;
The Dr. feels the greatest pride,
That every want can be suplied,
As far as "Medicine" can do,
With art and skill, attending too—
And fears not when his friends shall call
But that he can supply them all.
When they can speak how they enjoyed
The benefits, from Dr. Lloyd;
His "Tinctures" are the most refined—
In fact his Store has every kind,
Amonia, Aloes, Myrrh, Blood Root,
With Soaps, and Indian Hemp to suit,
Chloroform, Galls, Ginger too,
Ergot, Cloves, and Hops quite new;
Cassia Camphor, and Cayenne—
I soon shall have to stay my pen;
For it would give too long attention,
The whole of this large stock to mention.
A few words more on the supplies—
Saffron, Foxglove, Spanish Flies,
Hemlock, Rhubarb, Lemon Peel,
And choicest Salves, the wounds to heal,
Infusions of the richest store,
Then need I mention any more.
The Dr. once again must say,
To those that wish to give fairplay,
To try his "Ointments," and make sure
That they have found a certain cure!
Antimonial and Compound,
Sulphur, Pitch, can here be found;
Tar, Tobacco, best of spice,
Essence and Sweets to suit the nice;
Acids of a full supply
For those who wish the same to try.
'Tis needless here to mention all,
When eyes can view them if they call!
Give trial! and prove you have enjoyed
True benefit from Dr. Lloyd.

TO ADVERTISERS!

Great Reduction of Advertising Rates!

Taking into consideration the hard times, and being determined to advance the prosperity of the community in which we live; and believing as we certainly do, that a Village is judged by parties at a distance by the Advertisements that appear in the columns of its Newspaper, and being very desirous of offering every inducement in our power to Merchants and others to Advertise, we have determined to Reduce our Advertising rates to as low a Figure as we can possibly afford.—Our great object is, to encourage liberal advertising, as this branch of Business is the main stay to all Printing Establishments. Our readers will at once perceive that it is utterly impossible to advertise at lower rates than we give below. If we did, we should not be able to carry on the paper: for no one (not even printers) can be expected to work for nothing. However, we hope that all those who desire to encourage a Village Newspaper will advertise liberally, and then while we shall be benefited, they themselves will be even more so by an increase of business,—the invariable result of advertising. The following are our reduced rates:—

¼ column,	¼ a year,	5	per cent discount.
½ "	½ "	30	"
¼ "	1 "	35	"
½ "	½ "	30	"
½ "	1 "	35	"
½ "	½ "	40	"
1 "	1 "	35	"
1 "	½ "	40	"
1 "	1 "	45	"
½ "	1 "	40	"
1 "	½ "	35	"
1 "	½ "	40	"
1 "	1 "	45	"

All advertisements to be measured by a scale of 200 solid Brevier lines to a column.—Four pence a line will be charged for the first insertion, and one penny a line for each subsequent insertion.

Advertisers to have the privilege of changing their advertisement four times a year.

Advertisements under a quarter of a column, continued for three months, will be subject to 20 per cent; for six months, 25 per cent; and for 12 months, 30 per cent discount.

DR. AMOS & SON, Corner of Main and Quay Streets, Buffalo, New York, are the only Physicians in the State who are members of the Royal College of Surgeons, London. May be consulted from 8 o'clock in the morning until 9 o'clock at night, on every state and symptom of disease.

The treatment they adopt is the result of upward of 30 years' extensive and successful practice in London. The most inveterate symptoms of Disease eradicated in eight or nine days, and cases of a slight nature in two or three days at a very moderate expense.—The cure effected without confinement or hindrance from business.

Young Men—Take Particular Notice.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood, and which, if not reformed by them in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

A Most Scientific Invention.

An instrument for the cure of Genital Debility, or more properly known as Seminal Weakness, Nervous Debility, &c., which are permanently cured in from 15 to 20 days by the use of this instrument, when used conjointly with medicines.

New Remedies and Quick Cures.

DR AMOS & SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London, Paris, Philadelphia and New York It has been declared the only useful instrument ever yet invented for the cure of Seminal Weakness, or any disease of the genital organs, caused by the secret habits of youth

Dr. Amos & Son, in order to satisfy the most skeptical as to the merits of these instruments, pledge themselves, that in any instance whe e they may prove unsatisfactory after a fair trial, the money will be refunded by returning the instrument in good order.

Persons wishing the above useful instrument will observe, that the price, with the accompanying directions, securely packed and sent by mail or express, is ten dollars.

Beware of Imposition.

Beware of empiries and itinerant self-styled professors, who ATTEMPT cures, but never succeed

Dr Amos & Son have for a long series of years been engaged in an extensive practice in the treatment of these delicate complaints, and are the only legally qualified Physicians who now advertise to cure certain complaints, or from whom genuine European remedies can be obtained.

PERSONS IN ANY PART OF THE WORLD may be successfully treated by forwarding a correct detail of their cases, with a remittance for Medicines, &c., which will be returned with the utmost dispatch, and secure from observation.

Terms of the Montreal Witness,

FOR 1859.

Semi-Weekly Edition,

TWO DOLLARS PER ANNUM.

Weekly Edition,

2 dollars per single copy, per annum.
6 " for clubs of 4 addressed separately.
20 " for 20 copies to one address.

When a club has been formed, additions may be made at the same rate.

Any one remitting ten subscribers for either or both editions, will receive a copy of the semi-weekly, gratis, except in the case of 20 copies to one address.

The terms for both editions are strictly cash in advance, and the paper invariably stops when the time subscribed for expires

The *Witness* has from the beginning been much indebted for whatever success it has attained, to the kind efforts of friends all over the country in its behalf, and it is now as much as ever dependent on this voluntary agency.

Advertisements, not at variance with the character of the paper, will be inserted in the semi-weekly at 7 cents per line for first insertion, and 3 cents for each subsequent insertion; in the weekly, the charge will be 20 cents per line for each insertion.

Every family should take a city paper in addition to the local newspaper. The latter is necessary, on account of the local intelligence it gives, whilst the former is valuable for its general information.

All letters, orders, and remittances to be addressed, post paid, to

JOHN DOUGALL,
Proprietor "MONTREAL WITNESS," Montreal.

NOTICE.

I HEREBY FORBID any person or persons from negociating for, or purchasing TWO NOTES OF HAND granted by me in favor of JACOB HISEY, Sen., one for £6 5s. and the other for £3 10s. as I have received no value for the same.
