1859. THE GLOBE. 1859.

IN soliciting the increased support of the Canadian public for the seventeenth volume of THE GLOBE, the publisher has to state that nothing shall be left undone to render the journal worthy of the high reputation it has earned in past years. A new and beautiful font of copper-faced type, especially for the Globe, at the celebrated foundry of Messrs. James Connor and Sons, New York, will sustain the typographical credit of the establishment—and the aid of an enlarged corps of Editors, Reporters, and Correspondents will assure to the readers of THE GLOBE all that is interesting in News, Politics, Literature, and Commerce.

During the coming year, THE GLOBE will continue to pay attention to the public affairs of the Province which has secured for it a present condition. The Province is acknowledged by all parties to be on the eve of great changes; and these THE GLOBE will seek to influence for the benefit of the people at large. It will advocate such a change in the constitution as will give to Upper and Lower Canada the control of their own local affairs, and will give general matters to a joint authority of simple and unobtrusive form. The necessity of imposing such checks upon Parliament and the Executive will prevent the borrowing of money without the consent of the people, will be earnestly insisted upon. THE GLOBE will also advocate the VOTERS' FRY, and the EDUCATION, elementary and collegiate, and the SECRETARIANSHIP, incorporation of the Hudson's Bay Territory with Canada, a PASSPORT LAW for the relief of the honest emigrant, the IMPROVEMENT OF THE PUBLIC LANDS—RADIOCAL, FINE TRADE with the United States—the improvement of Canadian agriculture—economy in every branch of the public expenditure, and generally every measure which tends to the improvement of industry, morality, and national prosperity.

During the next six months, in the constancy and liberality of the people, as well as in Parliament at Quebec, many of these subjects will be discussed, the more vital and important them being earnestness and vigor rarely being witnessed in this Province. THE GLOBE will be as well as the promoter of all the movements of the day, THE GLOBE will possess extraordinary interest for all classes of readers, and the friends of progress are requested to aid in extending its circulation among the masses of the people.

The editorial conduct of THE GLOBE can be best estimated by the uninterrupted success that has attended its publication. But a constitutional press demands further exertion in that direction, and it will be supplied. In regard to news, THE GLOBE will be ready to supply the readers of all parts of the continent with the most concise intelligence from all parts of the world. Correspondence is received from Great Britain, British Columbia, the North West Territory, and all that transpires at home and in the United States is diligently recorded. Special attention is directed to commercial intelligence; the markets are reported more fully than in any other journal.

A United paper is devoted to agricultural subjects, and everything which tends to the development of the most important branch of Canadian industry receives special attention.

THE DAILY GLOBE
is published at 66 per annum, payable strictly in advance, it is published at four o'clock every morning and Sunday, and is dispatched by the daily train to all parts of the country. It is a large sheet, containing a vast amount of news, mercantile intelligence, and general information, of the latest and most interesting character.

Any person sending the Cash for Five Daily Subscribers, will be entitled to a FREE COPY.

THE TRI-WEEKLY GLOBE
is issued every Monday, Wednesday, and Friday, at 84 per annum in advance. It is printed on a large sheet, and its columns are given all that appears in the Daily Edition, with the Geographic and other news to the last moment.

Any person sending the Cash for Five Tri-Weekly Subscribers, will be entitled to a FREE COPY.

THE WEEKLY GLOBE
is issued every Friday morning, at 52 per annum, payable strictly in advance. It is printed on an immense double sheet of paper, of first-rate quality; it is made up in a handsome quarto form, comprising eight pages of seven columns each; and contains more interesting matter than any other political newspaper on the continent. Great care is taken in the compilation of the paper; the news is carefully collected from the Daily Edition, and articles specially prepared for its columns. The Market Reports, at home and abroad, receive constant attention.

To induce exertion on the part of the friends of THE GLOBE throughout the country, it has been resolved, that any person making up a club may have—

Ten Copies for Fifteen Dollars!
Twenty Copies for Thirty-five Dollars!
Eighty Copies for One Hundred Dollars!
Any person sending \$10 for Five WEEKLY Subscribers, will be entitled to a FREE COPY.
The Weekly Globe will be sent to all Clergymen for One Dollar a year.

Money Letters addressed, to THE PUBLISHER of THE GLOBE, Toronto, can be registered by payment of one penny, and their safe arrival will then be at the risk of the Publisher.
If Subscriptions may commence at any period of the year, and be made for any term; and persons desirous of receiving the paper need not wait for an Agent to be registered, but have only to enclose their money, with their name and Post Office, to

GEO. BROWN,
Globe Office, Toronto.
Toronto, Nov. 15, 1859.

Richmond Hill, Oct. 27, 1859. 48-1

PHONOGRAPHY,
OR,
WRITING BY SOUND.
PHONOGRAPHY was invented by ISAAC PITMAN, of Bath, England, in the year 1837. It is the simplest, most natural, most rapid, and most easily learned system of Writing which has ever been, or ever can be invented.

During the past fifteen years, hundreds of thousands of persons, in England and America, in both public and private life, have learned to write by Phono-graphy, and thousands of social, business, and letters, annually pass through the post office.

Nor is its great popularity to be wondered at. The present system of writing is exceedingly cumbersome, and totally unworthy these days of progress and invention. Phono-graphy is equally as legible, can be learned in one week, and can be written six times as fast! In other words, the labor of six days can be performed in one—one man can do the work of six! So simple is the system, too, that a person may learn to write it slowly, in a couple of hours, in half an hour's daily practice for a few weeks will enable any person to write Phono-graphy with certainty, and with some degree of freedom. The same amount of practice continued for six months will enable a person to take reports of speeches, laws, sermons, or conversation, and to read them with accuracy.

Dr. J. W. Stone, of Boston, says: "I deem Phono-graphy an invaluable adjunct to education, and one which, when acquired in youth would not be parted with in manhood for thousands of dollars."

The late Hon. Thos. H. Buxton, upon being presented with a verbatim report of one of his masterly speeches, taken by a little boy only twelve years of age, said: "Had this not been known 40 years ago it would have saved me 30 years' hard labor." The learned Senator speaks of but a portion of the truth. What length hand requires six years to accomplish, Phono-graphy will perform in one.

To Clergymen, Editors, Physicians, Lawyers, Secretaries, Convocators, Law and Medical Students, Lecturers, Priests, School Teachers, Merchants, School Boys and Girls, a knowledge of Phono-graphy is of vast utility. In fact there is no profession or calling in which it is not useful, and no young man's education can be considered complete without it.

During the past nine months hundreds of persons in Canada, of every parent in life, have acquired the Art, from many of whom the subscriber has received neatly-written phono-graphic letters, expressive of their delight with the attainment, and the extraordinary ease with which they have acquired it.

For the purpose of aiding in the dissemination of this important reform in his own country, the subscriber is now prepared to supply all who apply, with the MANUAL OF PHONOGRAPHY, and the PHONOGRAPHIC COPY BOOK, sent by mail to any part of the Province, postage paid, for the small sum of ONE DOLLAR.

Anybody and everybody, who can learn anything, can learn Phono-graphy from the Manual, without other assistance.

Those who wish to be able to put their thoughts on paper at the rate of from 100 to 250 words in a minute, should send for the above-mentioned works at once.

The instruction given by the Manual is as plain as A. B. C., and ten times as easy to understand.

THE CANADIAN PHONETIC MONITOR is a Monthly Journal, devoted to the advocacy of the Reform. Price 25 cents per annum.

Address, (post-paid)
WILLIAM H. ORR,
Oran, C. W.
