PARTICULARS OF THE WRECK.

We have intelligence to day from a variety of sources about the *Indian* and her passengers. A 'Telegraph from Windsor to the New York associated press,

sor to the New York associated press, gives the names of the cabin passengers, all of whom have been saved:—
Hon. Mr. Bottsford, Mr. Meldrum, Mrs. Meldrum, Mr. Patterson, Mrs. Patterson, Mrs. Eliott. The following is the list of stereage passengers, ten of whom, we grieve to say, were lost:—

SAYED.—A. G. Howland, Francis, Kalster, wife, and four children; Mr. Eickman, Richard Brown, G. V. Roman, William Cross, J. Mann, A. Borgesson. W. Mason, and Mr. Pierson.

DROWED.-Wm, J. Moses, wife, and two children, Mrs. Eickman, and child, Alex. Dean, Jas. Dixon, Thos. Chanonhouse, and Wus. Johnson.

house, and Wu. Joinson.

The Hon. John Ross, and Mr. Mc-Kellar, were not passengers. There were only 38 passengers, and the crew numbered 85. We are not informed whether any of the latter baye been lost. The following gives some particulars of the accident, which ought to have hear furnished before. The telegraphic arrangementes in Nova Scotia are a dis grace to that province:—

HALIFAX, via Sackville, Nov. 26. The war steamer Gladiator has returned to Halifax with the remainder of the survivors of the Indian.

The ship has totally broken to pieces, and only a small portion of her stern is visible.

Very little of her cargo has drifted ashore, and it is so damaged as to be worthless.

Complaints are made of the robbert Gorman, John G

Complaints are made of the robbery and plunder of the passengers by the natives and legal inquires will be made.

The mails have been saved and for-The mais have been saved and lor-warded via Windsor, in care of the purser. She had eight cabin, and thirty steerage passengers. The latter are mostly Gentlemen and Hungarians.

The cargo consisted of two bundred ons of bale goods, one hundred tons of on, and the balance coal.

The ship rau on a ledge while on a speed of eight knots an hour. The weather at the time was hazy but not

The Captain was deceived by the soundings, and surposed he was off Cape Sable. When the vessel struck she tore off her bottom and filled almost instant. engineers opened the valves of the boilers

Boats number one, two, and three, were got out and lowered, when a sudden crash took place, and the vessel parted amidships.

The steerage passengers now made a rush for the boats, and sunk numbers one and two, drowning the engineers, some of the crew and passengers, and two women and children.

Boat No. 4, under the command of Mr.

Smith, the second officer, was blown off

Boats Nos. 5, 6, and 7 were sunk or

Mr. Tibbet's, the fourth officer's boat,

reached the shore.

Mr. Biggan's, the third officer's boat, broke adrift, leaky, and it was supposed was lost on the shore.

The Purser, with the mails and passengers saved, left Halilax on the 26th, to come to Portland by way of St. John's; they were expected there thes (Tuesday) moraing. The Hungarian will call at Halifax and take home the officers and

A young lady passed through Cincinnati last week on her way to St. Louis, whitner she had been for- Licensed Auctioneer, warded by Express. She was from Paris, and being ignorant of our language, her friends had placed her in charge of an Express mes senger. The "way bill" was made out in due form, and the charges paid as her tariff. The messenger deplayed that he never messenger declared that he never took such good care of "freight before, considering it extra, we presume. Who wouldn't be an Express messenger?

Dr. Hays, a companion of Dr Kape in his Artic explorations 1853, proposes to undertake another expedition in the same direction to the Polar Sea, discovered in

Richmond Hill, Oct. 27, 1859.

PHONOGRAPHY,

### WRITING BY SOUND.

PHONOGRAPHY was invented by ISAAC PITMAN. of Bath, England, in the vear 1837. It is the most simple, most natural most rapid, and most easily learned system of Writing which has ever been, or ever can be invented.

vanied
During the past fifteen years, hundreds of
thousands of persons, in England and America, in both public and private life, have learned
to write Phonography, and thousands of social,
and business letters annually pass through
the nest office.

rice, in both public and private life, have learned to write Phonography, and thousands of social, and business letters annually pass through the post office.

Nor is its great popularity to be wondered. The present system of writing is acceedingly cumbersome, and totally unworthy these days of progress and invention. Phonography is equally as legible, can be learned in one-twentieth the time, and can be written six times 4x fast! In other words, the labor of six days can be performed in one-one man can do the word, of six! So simple is the system, too, that a person may learn to write it slowly, in a couple of hours. An hour's daily practice for a few weeks will enable any person to write Phonography with certainty, and with some degree of freedom. The same amount of practice continued for six months will esable a person to take reports of speeches, lendres, serrons, or conversation, and to readhen with accuracy.

Dr. J. W. Stone, of Boston, says: 'I deem Phonography an invaluable adjunct to education a which whom accuracy in variable adjunct to education and which whom accuracy in variable and the contraction and can which whom accuracy in variable adjunct to education and which whom accuracing in variable adjunct to education and the can be a superior of the contraction and can which whom accuracing in variable adjunct to education and the can be contracted as the can be contracted as the contraction and can which whom accuracing in variable adjunct to education and the can be contracted as the can be can be contracted as the can be can be can be can be contracted as the can be can be can be contracted as the can be can be called as the can be can
