

A FEARFUL LEAP.—On Friday afternoon, while the express train from London to Exeter was going at the rate of 60 miles an hour, a sailor, who was in a second-class carriage, lost his cap just above the village of Stone. The fearless but thoughtless "tar" instantly opened the carriage door and sprung out after it. The guard who saw it made sure that Jack was killed, but he turned up shortly afterwards with only his arm broken. He went on to Plymouth the same night, and appeared to be quite unconscious of the hair-breadth escape he had had.

PHONOGRAPHY,

WRITING BY SOUND. PHONOGRAPHY was invented by ISAAC PITMAN, of Bath, England, in the year 1837. It is the most simple, most natural, most rapid, and most easily learned system of Writing which has ever been, or ever can be invented. During the past fifteen years, hundreds of thousands of persons, in England and America, in both public and private life, have learned to write Phonography, and thousands of social, and business letters annually pass through the post office. Nor is its great popularity to be wondered at. The present system of writing is exceedingly cumbersome, and totally unworthy these days of progress and invention. Phonography is equally as legible, can be learned in one-twentieth the time, and can be written six times as fast! In other words, the labor of six days can be performed in one—one man can do the work of six! So simple is the system, too, that a person may learn to write it slowly, in a couple of hours. An hour's daily practice for a few weeks will enable any person to write Phonography with certainty, and with some degree of freedom. The same amount of practice continued for six months will enable a person to take reports of speeches, long sermons, or conversations, and to read them with accuracy. Dr. J. W. Stone, of Boston, says: "I deem Phonography an invaluable adjunct to education, and one which, when acquired in youth would not be paried with in manhood for thousands of dollars." The late Hon. Isaac H. Huxford, upon being presented with a verbatim report of one of his native speeches, taken by a little boy only twelve years of age, said: "Had this boy been known 40 years ago it would have saved me 30 years' hard labor." The learned senator spoke but a portion of the truth. What long-lingering practice it takes to accomplish, Phonography will perform in one. To Clergymen, Editors, Physicians, Lawyers, Secretaries, Conventancers, Law and Medical Students, Lecturers, Printers, School Teachers, Merchants, School Boys and Girls, a knowledge of Phonography is of vast utility. In fact there is no profession or calling in which it is not useful and no young man's education can be considered complete without it. During the past nine months hundreds of persons in Canada, of every pursuit in life, have acquired the Art, from many of whom the subscriber has now prepared neatly-written phonographic letters, expressive of their delight with the attainment, and the extraordinary ease with which they have acquired it. For the purpose of aiding in the dissemination of this important system in this country, the subscriber is now prepared to supply all who apply, with the MANUAL OF PHONOGRAPHY, and the PHONOGRAPHIC COPY BOOK, sent by mail to any part of the Province, postage pre-paid, for the small sum of ONE DOLLAR. Anybody and everybody, who can learn anything, can learn PHONOGRAPHY from the Manual, without other assistance. Those who wish to be able to put their thoughts to paper at the rate of from 100 to 250 words per minute, should send for the above-mentioned works at once. The instruction given by the Manual is as plain as A. B. C., and ten times as easy to understand. The "CANADIAN PHONETIC PIONEER" is a Monthly Journal, devoted to the advocacy of the R-form. Price 25 cents per annum. Address, (post-paid), WILLIAM H. ORR, Ontario, C. W.
