

each sign the counterpart of the cheque of the licenses; also, each party gives ample security for their good conduct and bar-room decorum. Let a real inspector, with a good fixed salary be elected, so that the whole of his time could be given to the duties of his office—the duties of his office not to be merely a peeper at bed and bedstead, but to perambulate his beat at all times and seasons, to watch the indoor movements of taverns, and to lay information of misuse against unworthy innkeepers—the Inspector to be a police constable—to haul off disorderlies, to a lock-up, order home, and to forbid the landlord supplying more liquor to the half-drunken and quarrelsome. The thoroughly drunken to be ordered home instantly, and if incapable of walking, to be removed home under the eye of the Inspector at the expense of the innkeeper, if his home be within one mile, &c.

That no innkeeper place a decanter or bottle of spirituous liquor on the bar-board, under a penalty of five pounds; but that all customers be served by measure. There ever has been a vast deal of under-hand work in granting tavern licenses: hence the bad feeling and often vexed disputes. Surely a good house with bad inmates must be a greater scourge to the public welfare than a bad house inhabited by a moral sober landlord. This succinct account may be starting to high imaginations, but otherwise to the sober and strong mind. How preposterous to grant a tavern license to any one, some will exclaim. Suppose twenty omnibuses were licensed to run between Richmond Hill and Toronto, how soon they would show signs of decay, as they found that the market was over-stocked, and soon the number would lower to the just requirements of the travelling public.—The same would be the exact case were twenty taverns licensed on the hill. Men soon stop, either through choice or necessity, in business that won't pay. If the number of local drunkards in this village and the amount of money expended by them, could be fairly arrived at, it would singularly tally for a series of years.—Hence the fewer the number of taverns in a village the greater the number to congregate—greater the forces for a row, and greater to drinking.

(To be continued.)

THE FIRE IN BRANTFORD.

The following particulars in reference to the fire in Brantford, which proved so fearfully destructive to that town on Friday last, we find in the Hamilton Times:—

BRANTFORD, Feb. 17, 1860.

The most disastrous fire which has ever visited Brantford occurred this morning between three and four o'clock. It originated in the back premises of McLean & Co. or F. Brandon, on Colborne street, whose premises adjoin each other. The fire rapidly spread, until the whole block to the east, comprising the stores of P. C. Allen, grocer; F. McLean & Co., dry goods; F. Brandon, Druggist; S. Murphy, Jeweller; Cartan & Deane, series and dry goods; thence up Market street, taking the stores of Ritson & Russell, R. Shackell, J. Forde & Bro., which were completely destroyed. The parties occupying the upper apartments of these stores are G. W. Malloch, barrister, Division Court Officer; H. Macy; A. Wainess, bookbinder; Dr. G. H. Weston; P. B. Long, barrister; W. H. Morgan, Ind. Coun.; G. R. Van Norman, County Attorney; Gore Lodge, J. D. O. F., and the dwelling-houses of S. Morphy and Dr. Sifton. In the rear of these buildings was the *Explosive* office, which, although nearly surrounded by the burning buildings, was miraculously saved with but trifling loss. On the opposite side of Colborne street, the fire has been equally disastrous, commencing at the western extremity of Mr. D. Stewart's cabinet shop, which had been utterly destroyed; loss very large, probably about \$5,000. Adjoining him are the barber shop of Johnston, the grocery store and dwelling of Mrs. Smith, and the shop of Mr. Goodson. The next building was the large tavern of Mr. Newton, better known as Vanderlip's, which with the stables attached, are totally consumed, as well as the large wholesale and retail establishment of Jas. Nimmo, Jr. & Co., formerly M. W. Fryn & Co. The whole of the range of buildings here destroyed, and the still larger one, G. Newton, C. Stewart, Johnson, Vanderlip, Smith, Goodson, Mrs. Kellar, Nimmo, Jr., H. Lecman, Courier Office, D. McKay, saddlery store, Norwood, barber; W. Matthews, J. P., and Orpheus Robinson, Provincial Land Surveyor. The aggregate is freely estimated as approaching to \$100,000. The insurance is only partial, some of the sufferers being uninsured. We hear that the Royal is the company which will sustain the heaviest loss. The Equitable, the Phoenix, the Gore, the Mutual, the Provincial, the Western, and the State are the companies upon whom the great proportion of the loss will fall. Business in the town seems to be entirely suspended.

A line of railway across the Anles, which would bring England within fifty days' communication with Australia, is mooted. It is alleged that the Emperor of the French has written a second letter to the Pope, in which he tells his Holiness to remember Henry the Eighth, if he opposes the late propositions.

DARING BURGLARY.—(Tuesday)
At an early hour yesterday morning the premises of Messrs. R. & A. Adler, Stationers Yonge street were burglariously entered by thieves, and \$20 in cash, a note of hand, and several old coins carried away. From the manner in which the burglars went to work it was quite evident that they were not novices at their nefarious vocation. They seemed to have provided themselves with a ladder constructed with ropes which they brought along with them. They entered the lane on the north side of Mrs. Cook's confectionary store. The ladder was then suspended by hooks from the top of the high fence which is on the boundary line between the properties. An eucalyptus being thus effected into the back yard the services of a brace and bit were called into requisition. A number of holes were bored in the door in the rear of Messrs. Miller's store, and by breaking out the peace the lock was forced and the thieves were soon inside. The drawers in the store were then ransacked and the property above mentioned stolen. The brace and bit used on this occasion were similar to those used to effect an entrance into the Grand Trunk store, King-street, when upwards of \$200 worth of goods were carried away. There is a peculiarity about the means by which these robberies have been perpetrated which ought to be noted by the Detectives. This is the third time the same brace and bit have been used.

On Saturday, a gallant rescue was effected on the river at Rochester, N. Y. The *Democrat* says that a boy ten or twelve years old, named Charles Webster, skated into a large air hole, where he came near drowning. Twice he went beneath the surface, before the eyes of a hundred spectators, none of whom dared to go to his aid. Finally a young man named Gersham Wilson, arrived at the spot, boldly throwing off his coat, plunged into the water, and swam to the little fellow, who, by this time, was entirely benumbed and exhausted. A purse of eight or ten dollars was made up on the spot and presented to Mr. Wilson by George A. Watson, in behalf of the witness of the affair.

Edward Pagan was on Saturday week, frozen to death in Picton, while drunk in Hamilton, on Friday, a woman named Stewart was found dead in her bed, having retired the previous evening in a state of intoxication. In Montreal, on Thursday a woman named Catherine Welch was frozen to death while intoxicated.

On Wednesday the tavern of Mr. Robert Clarke, Simonsville, was destroyed by fire. A part of the furniture was saved. Loss covered by an insurance of \$1,600.

The shipments from Detroit to Liverpool, via the Grand Trunk Railway, in the month of January, amounted to 2,465 packages of meat, lard, pork, weighing 1,010,745 pounds,—not far from 500 tons, or nearly eighteen tons per day, direct from the West to Liverpool.

A few days ago a young man named Mayhew, who lives on the towline between Woodhouse and Townsend, while chopping, cut off the fore part of one of his feet. Medical attendance being procured, his life has been saved.

A boy named Laffur a short time since escaped from the Reformatory Prison Les-Aux-Noix, to New York State. He returned to Montreal on Thursday, and was recaptured. He says when he got away from the prison he climbed a wall fifteen feet high, and crossed Lake Champlain on the floating ice.

The Chinese are making great preparations for war with England. Large sums of money are being contributed by the nobles for the national defence; immense armaments are being formed, and very many cannons bought.

The house of Mr. J. H. Springle, Drummond street, Montreal, was destroyed by fire on Thursday. So rapidly did the flames spread that the family had to make their escape in their night dresses.

William E. Beltour, a tinsmith of Mitchell, hung himself on the 9th inst. He is supposed to have perpetrated the rash act while in a state of dependency, brought on by business failures.

A boy, a native of Honolulu, being carried away from his home in a whale ship, leaped from the vessel and swam twenty miles to shore.

On Thursday the lumber yard of Mr. Wm. Tomeray, Coburg with his workshop, was destroyed by fire. Loss \$1,000.

The fire at Tonawanda, which was mistaken for a fire on the lake last week was thought by the people of Coburg to proceed from the house of Hon. Sidney Smith.

Stevens and Hazlett, engaged in the Harper's Ferry affair, have been sentenced to be hung publicly on Friday, the 16th day of March next, between the hours of 10 o'clock a.m., and 2 o'clock p.m.

The following have been elected members of the Boards of Agriculture for Upper and Lower Canada, for the year 1860, under the 12th sec. 16 Vic. cap. 11: Upper Canada, R. L. Denison, Esq., E. W. Thomason, Esq., H. Rutten, Esq., Hon. George Alexander. Lower Canada, B. Poirer, Esq., J. C. Tache, Esq., J. O. A. Turgeon, Esq., E. O. Casgrain, Esq.

Garibaldi's marriage with the daughter of the Marchese Raimondi took place near Como on the 24th of January. The General and his bride had arrived at Milan.

Thackeray, according to a rumor afloat in London, counter-plates a continuation of Macaulay's History of England.

MAJOR'S CONDITION PHYSIC AND WORM DESTROYER.

THIS Splendid Medicine can be given in one Ball at any time of the year, without injury to the Horse, and has been used by the Farmers of Markham for the last two years with a success unprecedented. By the use of this remedy it will convince the owners of that noble animal the inconsistency of an unnecessary outlay in using Artificial Food or Condition Powders, which are too well known to contain minerals highly injurious to the membrane or coating of the Stomach. The Ball is a compound of Pure Vegetable, and warranted not to contain either Mercury, Arsenic, Antimony or any other Mineral. Its immediate action is surprising and the ultimate effect has been estimated at upwards of 500,000. If the Animal is out of sorts, there is a cause remove that and he is all right. One dose at the cost of 25 cents is sufficient to cure Hiccups, Loss of Appetite, Coughs, Colic, and Fever, Distemper, Stagnation of Water, Swelled Legs, &c. &c. &c. and is a complete Destroyer of Worms, a great purifier of the Blood, and a good Physic, always recommended to be given in the Spring and Fall, which will act as a preventive and improve the general condition. It saves him completely upon the rack for his work, thereby giving every satisfaction the owner can require. Testimonials of the highest character will be forwarded to testify to the above if required. Cash Terms—One Dollar per packet containing four Balls.

Letters prepaid enclosing a remittance, will be promptly attended to. Printed Directions wrapped round each Ball will give you a full, without which none other will do you good. Office—Victoria Square, Manufactory—4th concession Markham.

DR. AMOS & SON, Corner of Main and Quay Streets, Buffalo, New York, are the only Physicians in the State who are members of the Royal College of Surgeons, London. May be consulted from 9 o'clock in the morning until 9 o'clock at night, on every state and symptom of disease.

The treatment of the adult is the result of upwards of 30 years' extensive and successful practice in London. The most inveterate symptoms of Disease eradicated in eight or nine days, and cause of a slight nature in two or three days at a very moderate expense.—The cure effected without confinement or hindrance from business.

Young Men—Take Particular Notice.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood, and which, if not reformed by them in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and distressing ailments. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

A Most Scientific Invention.

An instrument for the cure of General Debility, or more properly known as Seminal Weakness, Nervous Debility, &c., which are permanently cured in from 15 to 20 days by the use of our instrument, when used conjoint
