TO THE ELECTORS

OF THE

KING DIVISION

OF THE

LEGISLATIVE COUNCIL

GENTLEMEN:

HAVING obtained the unanimous nomination of the Convention held at Markham, on the 30th of June—composed, as that Convention was, of many of the most influential gentlemen residing within King Division; and having received many kind assurances of support from electors of all political shades, in every part of the Division, I am induced to offer myself as a Candidate for your suffrages at the approaching election of a representative to represent your Division in the Legislative Council.

The great responsibility which attaches to the high position of a Legislative Councillor, and the power placed in his hands, to be used for "the good or evil" of the whole Province, are grave subjects for your consideration; and I frankly confess that it is not without many doubts as to my own ability to represent your interests, as efficiently as they ought to be, and as I could desire to do, that I now present myself before you.

A resident of the Division for nearly a quarter of a century, I believe myself to be personally known to a majority of the Electors, who will therefore be the better able to judge correctly whether in the event of my being placed at the head of the poll, I would protect your interests, advocate your views, and opinions on all questions of public policy, and zealously guard your rights,—as the inhabitants of one of the wealthiest, most populous, and intelligent Divisions in the Province.

A Canadian born, I early learned these great governmental principles of progress and reform, which have been so happily and beneficially conceded to us by the Mother Country.—Responsible government—according to us the most valuable rights enjoyed under the British Constitution, I consider the form of Government best adapted to this country, which honestly administered, according to the well understood wishes of the people.

Should I be honored with your support, and your chosen Representative, I will, to the utmost of my ability, advocate the following principles:—

1. Maintenance of the Union between the two Provinces.
2. Representation according to Population, irrespective of a dividing line between Upper and Lower Canada.
3. Encouragement to Emigrants.
4. Free Grants of Land to Emigrants and others, being assisted settlers.
5. A Homestead Law.
6. No Expenditure of Public Money without the consent of Parliament.
7. Provincial Works only, to be taken up by the Government; and no Expenditure of Public Money to be made on Works of a Local character.
8. Retrenchment in every Department of the Public Expenditure.—Putting in the Pruning knife at the Custom Duties.—The burden of taxation to be placed on the luxuries of the rich, and not on the necessities of the poor.
9. A Judicious Bankrupt Law.
10. A Revision of Law Code.
11. Simplification of the Proceedings of Courts of Law.
12. Revision of the Court of Chancery.
13. Extension of the Municipal Law.
14. Election of Reeves and Deputies, and Wardens of Counties, by the people; and the same a Mayor of Cities and Towns.
15. Assimilation of the Laws of Upper and Lower Canada.
16. The restriction of the rights of Mortgages, without allowing the right to come upon the other property, real or personal of the Mortgagee.
17. Holding all Parliamentary Elections in one day.
18. A better mode of settling Contested elections.
19. A Prohibitory Liquor Law.
20. Payment of Criminal Witnesses.
21. Abolition of Newspaper Postage.
22. Abolition of the Franchise Privilege.

I believe that the above principles involve many valuable and important measures of Reform, which would lead to the material advancement of our social and political progress; but in the present disturbed state of political opinion, and considering the violent agitation or complete disruption of our constitutional relations with Lower Canada, I feel bound to state fully and candidly, that the Union of the two Provinces I conceive to be the grand point at issue in this election. Any dissolution of the Union with a view to a federal confederation of the two Provinces, I believe to be not only a retrograde and injurious step, but, as evinced by the vote of Lower Canada at last session at Parliament, perfectly untenable. Dissolution of the Union, in my opinion, a policy strongly advocated in some quarters, appears to me to be so obviously absurd, and in its consequences, so fatal, that I cannot believe in the sincerity or patriotism of its supporters. Lower Canada in England, the United States to the South, would then leave Upper Canada under their control, and entirely at their mercy. Hostile tariffs, and injurious restrictions here or there or perhaps both, would hamper us on every side, so that commercial disadvantages, and our industrial position would drive Upper Canada into some, now unforeseen, but to be dreaded connection, and would most probably lead to a movement for annexation to the United States.

Gentlemen,—I hope no necessity for such a statement as this. You and I are British subjects, our loyalty is due to a Queen, distinguished for every grace and virtue that can adorn her position, our hearts at sympathies are with the land which offers a refuge to the exiles and victims of tyranny, come from what country they may. The history of that country, her associations, her struggles, are ours; her money, her credit, and her support has assisted our noble Province throughout all our dangers, difficulties and disadvantages. They are well known. Let us cling then to the present connection, and unanimously approve any and whatever policy that would be likely to endanger it.

The question of Federation of all the Provinces of British North America is, even now, generally and very favorably entertained.—I confidently anticipate the early accomplishment of such a scheme, and most earnestly hope for its consummation. I will zealously and cordially support every step calculated to secure its attainment. I believe that by the consolidation of our mutual interests and strength, we shall lay the foundation of a great North American Nation, linked together by the bonds of mutual commercial advantages, and to our Mother Country by the strongest ties of origin, kindred institutions, and identity of interests. I believe that this is the only plan, by which we may hope to root out from amongst us, that bitter spirit of sectionalism and local jealousy now existing, and elevate the now petty politics of our Province to more worthy aspirations after Grand National objects.

I shall hope to party man, in that sense of the word that requires all measures good or bad, emanating from one party to be supported while those of another are to be invariably rejected; I shall endeavor to judge honestly of the merits of each measure, as it is presented, irrespective of the source or origin from which it proceeds, and support or oppose it upon those grounds alone. Firmly believing that the true principle of Liberty is the only one, and THE GREATEST GOOD TO THE GREATEST NUMBER—all measures calculated to advance the country and secure the happiness of the community shall receive my earnest attention, and cordial support.

If elected I shall know no "East" or "West,"—either locally or provincially, but will endeavor to act impartially for the whole, without distinction of locality, creed or sect.

There are two questions of a local nature affecting the Division to which I desire to allude, 1st. The late proposed Whistly Railway. The question of granting County aid to that work has already been decided by the Ratepayers of Odessa. With that decision I am content, and will not use my influence, or position to bring that subject again before the people, for pecuniary assistance. The charter has expired, and should another ever be granted, it is evident that the road must either be constructed by private subscription or with foreign assistance.

2nd. With reference to the separation of the county of York from the city of Toronto for judicial purposes. I am in favor of the passage of a bill for that purpose to take effect so soon as approved of by the ratepayers of the County of York.

Gentlemen.—In soliciting your support as a candidate for the representation of King Division in the Legislative Council, I may say in conclusion that I have no personal ambition to serve, nor private object to gain, and should I have the honor to be elected I will go to the House free and untrammelled and unpledged, to support any policy or set of men, for the sake of the party. My political views on the public questions of the day are now fairly before you. These principles are such as I believe the true interests of the Province demand, and will under every circumstance and condition find in me a warm advocate. Men may come into power to-day and go out to-morrow,—Ministries may exist two hours or two years, but the welfare of the Province—and the future greatness and prosperity of my native country, will always be my first consideration.

I have the honor to be, Gentlemen, Your obedient, humble servant,

JOHN HAM PERRY.
