

## APPAIRS IN THE SOUTH.

New York, Jan. 11.—The "Star of the West" will return to Charleston under the protection of the U. S. frigate "Brooklyn."

Washington, Jan. 11.—The President has made a formal order directing the heads of the departments to withdraw all their advertising privileges from the "Constitution" newspaper. The immediate cause of this action is supposed to be the refusal of that journal regarding the sending of troops to Charleston.

Ex-Secretary Thompson has replied to the letter of acceptance of his resignation. While adhering to his opinions formally expressed, implying a breach of Cabinet faith, he speaks the kindest terms of the President and his policies.

A private letter from Florida, dated Jan. 7th, says a number of delegates from West Florida express in their belief that if the State should secede without a proper general understanding, they would secede from the other part of the State, and all west of the Apalachicola river will annex themselves to Alabama.

The arsenal at Chattanooga has been seized by order of the Governor under the pretext that the Federal States officer was about to remove the arms.

At a private dinner party yesterday, high words passed between Senator Toombs and General Scott. According to relations in confidential circles, the conversation turned on the sending of troops to Charleston, when Mr. Toombs expressed the hope that the people there should sink the Star of the West. General Scott, however, asked whether it was possible for him to do as an American desired to do, and Mr. Toombs replied in the affirmative, and that those who sent the vessel there should be sunk with her. Gen. Scott then said he was responsible for what he said. Mr. Toombs remarked: you have known for twenty-five years, and are aware that you, as a responsible man, the matter here ended, but the subject, it is said, is now in the hands of friends.

It is probable that the Mississippi delegation will formally receive from the State of Georgia, in Georgia, the arrival from Major Anderson's dispatches to the Government. Gen. Dix was today nominated and unanimously confirmed as Secretary of the Treasury. The Cabinet is now a unit.

Convention in secret convention, yesterday. The formal reception of the Commissioners from the South, and the resignation of Mr. Glover, Judge of the U. S. Court. The adoption of a resolution recognizing South Carolina as sovereign and independent. The adoption of a resolution that the past masters, officers, and agents continue to be recognized as such.

The ordinance was signed at half-past ten in the morning. The Convention will probably adjourn to Vicksburg, on account of the Legislature waiting the capitol.

The Governor has ordered the military to be in readiness at a moment's warning. A call has been issued for Saturday night to complete the organization of the military of the State. The churches are decorated with evergreens, and the lone star is prominent.

New York, Jan. 11.—A special despatch to the Herald says—New Orleans, Jan. 11th. All the fortifications are now in possession of the Louisiana troops.

The United States arsenal at Baton Rouge, in command of Major Haskins, and two companies, refused to surrender this morning. The arsenal was surrounded by 600 State troops, and a parole was held between Governor Moore and Major Haskins, which finally resulted in the surrender of the garrison at twelve o'clock to day. There was no opposition in taking the other forts.

The *Crusader* has not entered Mississippi. The excitement continues great. Forth and John and St. Phillip, on the Mississippi, and Mike at the entrance of Poughkeepsie lake have been seized by troops. New Orleans troops met with no resistance.

St. Louis, Jan. 11.—The real object of the appearance of the Federal troops at the Sub-Treasury office, this morning, is still involved in mystery. Crowds of citizens have surrounded the Custom house all day, but more curiosity than excitement was manifested. Many rumors prevailed but nothing of a reliable character can be stated. Everything is quiet at present.

Waverly, Mo., Jan. 11.—An ultra secession meeting held here last night, passed resolutions strongly denouncing the *St. Louis Democrat*, and for the circulation of a circular. Lincoln's efforts were burnt amid the firing of cannon, torch lights, music, &c.

Tallahassee, N. C., January 11.—The Florida State Convention passed the ordinance of secession yesterday, by a vote of 62 to 7.

New Orleans, January 11.—Returns indicate that the secessionists have a majority in Louisiana.

At the Galveston election on the 8th, the candidates favoring a Southern confederacy obtained a majority.

CHARLOTTE, Jan. 11.—The excitement here has somewhat abated in consequence of pacific news from Washington. The enlistment of soldiers goes on, but all is quiet.

The Legislature did nothing to-day. Montgomery, Ala., January 11.—The city is brilliantly illuminated to-night from the capital to the river, while the streets are filled with enthusiastic people. An immense crowd assembled in Montgomery Hall, and were addressed by Congressman Curry and others.

Nonaka, Va., Jan. 11.—Before daylight this morning, a steamer went to the federal magazine wharf, loaded with powder, and left. Her destination is unknown.

Augusta, Ga., Jan. 11.—A salute of 100 guns was fired to-day for Florida, and 100 more for Alabama.

Accident on the Northern Railway. (From the Globe.)

The six o'clock p.m. mail train from Collingwood on Friday night, met with an accident of a severe nature when near Seal's station, about three miles north of Collingwood, and forty-six miles north of Toronto. As the engine was moving at a rate of about sixteen to twenty miles per hour, the axle of the rear truck of the tender suddenly broke. The accident was immediately discovered by the engineer, who gave the requisite signal for the application of the brakes, and himself reversed the engine. The speed was thus reduced to about a rate of five or six miles, but the train was stopped, it passed into the travel bridge which spans Seal's creek. The whole of the truck being off the wrought iron jaws of the frame, dropped between the oak floor timbers of the bridge, and such was the force of the concussion that the track was separated from the body of the tender and the draw-head of the latter broken, leaving the engine free to escape and safely to cross the bridge. The baggage and mail car, however, was not equally fortunate; they were forced on to the track, and, after moving for an instant, rolled over and fell from the bridge to the dry bed of the creek, ten feet below the rails. In the baggage car were, William McCormick, of Toronto, the mail agent, William Huley, of Weston, and a lady, a nephew of the latter, from Collingwood. Mr. McCormick, upon examination, was found to have received a fracture of two or more of his ribs; Mr. Huley a fracture of the arm near the wrist; and the lady an injury to the forearm sufficient to require its removal. Mr. McCormick, an old couple of the Company, was severely bruised about the head and face. Dan Cain, the baggage master, was a severely bruised about the body and hips. Others of the Company's servants were sent down with the car, but received no slight injuries. The "draw-head" of the "axle," that is, the main of the bridge, the rear car, or class (it being but one) remained upon the track. No persons were injured excepting those in the baggage car. The Superintendent, Mr. G. B. Macdonald, and the rest of the staff, the intelligence of the disaster, took the necessary prompt action and took and repaired to the scene of the accident with two locomotives from Toronto. On with a train was despatched to the scene of the accident, and the train remained with the car in tow, in removing the obstructions, which occupied the whole force during the remainder of the bitter cold night of Friday, until 10 o'clock, a.m., on Saturday. When the track was repaired, and the train brought North and South. During the nine years the Northern railway has been in operation no previous accident which has resulted in injury to any passengers has occurred. The breaking of the axle is attributed to the intense cold of Friday night.

Accident on the Great Western Railway. (From the Globe.)

On Saturday, when the express train which left Toronto at 11 52, a.m., was approaching Fort Credit station, one of the axles of the engine snapped, owing to the frost. The engineer (Mr. Miller) promptly stopped the train, and the wheels and axle dropped into the cattle guard a little to the east of the station. The passengers in the train were not aware that an accident had occurred until the train was brought to a stand still. Mr. E. G. S. Calpeys, assistant Superintendent, who was on board, instantly dispatched a hand-car to Oakville station, where one of the employees telegraphed to Toronto for another engine. The passengers spent the time very agreeably, the train being in good humor. About three o'clock the engine from Toronto arrived and the train proceeded on its journey.

Still Later—"A Lecture in Smith's Falls." We would direct the attention of our readers in Smith's Falls, to the fact that a Lecture will be delivered in the Town Hall Smith's Falls on Friday Evening the 14th January, 1861, by the Rev. Samuel Johnson M. A., Admission 124 cents. The proceeds are to be applied to obtain prizes for the pupils in the Smith's Falls Grammar School. We hope there will, therefore, be a good attendance.—*Perth British Standard*.

GARRIBOLDI AT HOME.—Mr. Fielder, proprietor of the yacht *Jeta*, came in from Cape Breton on the 12th, and brought in welcome intelligence of Garibaldi. He and his party landed and climbed up to his house, but not finding him at home, they went to seek him, and met him returning with a spade over his shoulder, and bearing evident signs of exertion on his face. They returned with him to his house, which, though marked by great order and cleanliness, was simply furnished, even to dentals. On the next day he went on board the *Jeta*, and partook of the hospitality of Mr. Fielder. There is an intimation in a portion of the British press that Garibaldi is expected to visit London. A friend of his writes me as follows: "As far as I can know, from a letter of the general's, he is not disposed to accept any invitation to go to London. He says, 'I cannot and would not, leave Capri at present.' This is in answer to the invitation of some English gentlemen I have already sent to him."

A BORN EXPLORER.—While the frigate *Albatross*, just returned from the Pacific, was blockading the coast of China, her crew performed a very clever and daring feat. An Austrian brig, laden with coffee and sugar, was captured at sea by some Chinese rebel pirates, who manned her under their own flag. When the first became known, it was determined to attempt a rescue by those on board the frigate. Her two cutters and gig were manned, and placed under the charge of the master. With unflinching courage they approached the brig in the night, and boarded her by the mainmast, cutlass in hand. Much to their surprise, the only person on board was the Austrian master, who instructed them where to find the stickle of the chain cable. They then dropped a ledge some distance, a lead, and, unobscured by the cable, quietly warped the brig from under the rebel's guns into a position where a canvas could be spread, and sailed safely out of the harbor.

LORD DERBY AS AN ORATOR.—Not only had Lord Aberdeen seen Fox and Pitt stand, as Byron has described them, like the two mountains, 'Atlas and Ida, with a dashing sea of eloquence between'; he had listened with awe to the rolling thunders of Burke, he had witnessed the brilliant but harmless lightnings of Sheridan, he had heard Granville and Gray in their prime, Whitbread and Wadham he had heard volleys forth their clamours by the hour and with all the inclination of an old man to depreciate the present and to laud the past, he has declared of these giants, of whom it is supposed that we are never more to see the like, that not one of them is to be compared with our own Lord Derby, when Lord Derby is at his best.—*Times*.

EXPENSES OF WAR.—Upwards of three millions of money have been expended by Great Britain upon war and its establishments in the last sixty years, or at the rate of more than fifty two millions annually.

## MARRIED.

At Maple, Vaughan, by the Rev. Donald Ross, on December 13th, 1860, LORENS LIVINGSTON, to ANNA MILLAR, both of Vaughan.

## SPECIAL NOTICES.

OVER 3000 IN ONE WEEK.

Sir, YOUR DEAD-SHOT WORM CANDY surpasses any Worm Medicine that I have ever seen. For the week ending Saturday, Nov. 3, 1860, I sold Three Thousand Three Hundred and Twenty-five Sticks of your Worm Candy. I don't very much if the sales of all other medicines combined would amount to one-tenth as much, in Canada West. It surpasses the *Lozenges* and *Sugar Drops*, (not giving anything about "Feminae"). Children suppose it a common candy, and as there is no other medicine required with it; it is very easily administered. I have inquired of prices who gave it to their children, of the results. I find it is invariably the same. It is the best they ever used.

Yours truly, A. E. TAYLOR, Agent, Brockville.

Sold by all Druggists and Medicine Dealers for 15 cents; 40c packages for 50 cents. See advertisement in another column.

## A Novelty in the Art World!

## PHOTOGRAPHY UPON PORCELAIN!

Secured by letters patent in the United States, England, France, and Belgium.

## THE AMERICAN PHOTOGRAPHIC PORCELAIN CO.,

No. 781 Broadway, New York.

having secured their novel and ingenious invention by American and European patents, are fully prepared to execute all orders for Miniature Likenesses of Persons on China, presenting all the attractive and advantageous features of ordinary photography, the brilliancy and finish of a water-color drawing, and a heretofore unattained quality of durability, by being rendered as imperishable as the natural process of the articles upon which they are transferred.

As the patented process of the Company enables the reproduction of Photographs, not only on plain surfaces, but upon such as are round or of any degree of irregularity—portraits can be reproduced with faultless accuracy and delicacy of delineation, upon Porcelain wares of any description and dimension used as articles of luxury, or of household utility, such as Urns, Vases, Breakfast Cups, Toilet Articles, &c.

By securing faithful portraits and furnishing a unique and exquisite style of ornamentation of articles in domestic use.

In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those desiring to have their portraits on Porcelain, the Company having Porcelain in the Company, have imported from Europe a collection of superior porcelain goods, manufactured to their own order, which they sell at cost prices.
