

Poetry.
THIS LIFE IS WHAT WE MAKE IT.
Let's often talk of noble deeds,
And rarer of the bad ones,
And sing about our happy days,
And not about the sad ones.
We were not made to fret and sigh;
And when grief sleeps, to wake it;
Bright happiness is standing by—
This life is what we make it.
Let's find the sunny side of men,
Or be believers in it;
A light there is in every soul
That takes the pains to win it,
Oh! there's a slumbering good in all,
And we perchance may wake it;
Our hands contain the magic wand—
This life is what we make it.
Then here's to those whose loving hearts
Shed light and joy about them;
Thanks be to them for countless gems
We ne'er had known without them.
Oh! this should be a happy world
To all who may partake it;
The fault's our own, if it is not—
This life is what we make it.

Miscellaneous.
It is a less misfortune to be born with a club foot, a hair lip, or a hump back, than with a cross and envious disposition.
Domestic jars, when concealed, are half reconciled. 'Tis a double to stop the breach at home and men's mouths abroad.
Very Shootable.—A new journal is announced, to be entitled *The Quiver*. We understand that a leading feature in it will be an "arrowing tale called *The Beau*."
Another Description.—A Hoosier, who has heard Henry Lind, says that her voice sends pleasant thoughts through you like the ringing of a dinner-bell.
Wink at small injuries rather than avenge them. If to destroy a single bee you throw down the hive, instead of one enemy you make a thousand.
"Figgers, you'll lie, will they?" muttered a seedy genius, holding on to a lamp-post.—"Vell, perhaps they won't; but it's a figger as you'll stand now."
MAKING MONEY AND MAKING WILLS.—In a disputed will case in Edinburgh, Dr. John Brown, a witness said, "It requires much more intellect to leave £20,000 right than to make it."
"Jim, I believe that Sam's got no truth in him." "You don't know nigger; dere's more truth in dat nigger dan in all the rest on de plantation." "How do you know dat?" "Why he never lets any out."
We are told that, "as a man makes his bed, he must lie in it." It is so with a bankrupt: for we find that, when his balance-sheet is not drawn up all straight, there is generally awful lying in it.
In the records of the Colonial Court, at Exeter, N. H., is found the statement that a man was fined two thousand six hundred shillings for swearing, cursing and saying box-take-it to his wife.
An old maid, who has her eyes a little sideways on matrimony, says, the curse of this war is "that it will make so many widows, who will be fierce to get married a second time, and who knows how to do it, modest girls will stand no chance at all!"
A BROAD HINT.—The minister of Cuden, at the sacrament, exhorting the people to be liberal in their contributions to the poor, concluded his observations by saying: "An' ye 'a' ken weel, we've had naething from the cutting-steel for this some time past."

Who's Who?—A young man fresh from the country, who was rather green, was taking a walk with a friend, when seeing a placard "Bill Stickers will be prosecuted," he innocently asked, "Who's Bill Stickers? and what are they going to prosecute him for?"
A GOOD PUZZLE.—In these degenerate days, when the practice spoken of in the following puzzle has fallen into disuse, we cannot do better than recommend those of our readers, who wish to remain handsome in their old age to "go and do likewise." They will find the receipt a first rate one:
Theyt eline I amh And Som eye T,
A N da Li, T kela die as y:
"Do lo Ok a thm, dea Roldman
G rows Yo U nige Rev ERY Day!"
An dw hea Chir End Asks, at yu rage
Ho wa Re youf Reef rom I LI S!"
Ialva Y sans we R, "In myy Ou Th,
I pa I dmy pri N Ter's B I Ls!"
COLOR OF THE EYES A TEST OF STRENGTH.—That the color of the eyes should effect their strength may seem strange, yet that such is the case need not at this time of day be proved; and those whose eyes were brown or dark-colored should be informed that they are weaker and more susceptible of injury, from various causes, than grey or blue eyes. Light blue eyes are generally the most powerful, and next to those are grey. The lighter the pupil, the greater and longer continued is the degree of tension the eye can sustain.
PULLING THE TEETH OF A RAKE.—A dentist was recently met by a wag, carrying an old garden rake in one hand while he held the other to his face, which wore the lugubrious expression which the "jumping toothache" produces. "Doctor," said he, "I want you to pull a couple of teeth for me." "Very well," replied the doctor, "just step into my office, and I'll relieve you." "There," continued he, as they entered, "take a seat on that chair, and show me the teeth you wish extracted." "Well, doctor," said the wag, holding up the rake, "I want you to pull those two broken teeth out of this rake?" For a moment the doctor was thrown off his guard by the joke; but, recovering himself, replied: "Well, let me have it—I might as well take the teeth out of one rake as the other!"

PINKIE & LYON
SEWING-MACHINE COMPY.,
538 BROADWAY, NEW YORK.
NO person who contemplates purchasing a
Sewing Machine for family or manufac-
turing purposes, should fail to send for one of
our Circulars, which contains cuts and full de-
scriptions of the several styles, prices and
samples of work, all of which we send by
mail free. We claim to have the best
Sewing Machines in the World
For either Family or Manufacturing purposes.
And all we ask is a fair trial. Read the following:
IMPORTANT FACTS.
Fact No. 1.—This Company being duly li-
censed, their Machines are protected against
infringements or litigation.
Fact No. 2.—These Machines make the lack-
stitch—white on both sides—and use a little
less than half as much thread and silk as the
chain or loop-stitch machines.
Fact No. 3.—These Machines are better adapted
than any other sewing-machines in the
market to the frequent changes and almost
endless variety of sewing required in a fam-
ily. They will sew from one to twenty
thicknesses of Muslins without stopping,
and make every stitch perfect. They will
even sew from the finest gauze to the heav-
iest cloth, and even stout, hard leather,
without changing the feed, needle, or ten-
sion, or making any adjustment of machine
whatever. Is not such a machine best
adapted to family use? and if best adapted
to family use, may not for every variety of
light sewing manufacture? For work too
heavy for our Family Machine, we recom-
mend our larger sizes.
Fact No. 4.—These Machines make the most
elastic seam of any sewing-machine in use.
a fact of very great importance in sew-
ing elastic goods, or goods of any kind, on a
bias.
Fact No. 5.—No Machine is more durable or
more simple in its construction, or more easily
understood. The regulation of these Ma-
chines wherever used will fully demonstrate
each of the above facts.
Fact No. 6.—These Machines took the High-
est Premium at the Franklin Institute, Phil-
adelphia.
Fact No. 7.—These Machines took the High-
est Premium at the New Jersey State Fair,
Newark, N. J.
Fact No. 8.—These Machines took the High-
est Medal at the American Institute, in the
City of New York, together with the High-
est Premium for fine Sewing-Machine
Work.
Fact No. 9.—These Machines took both the
Highest Premium at the Mechanics' Fair,
Long N. Y.
Fact No. 10.—These Machines can do the
same thing generally, whenever properly
employed in competition with other first-class
Sewing-Machines. But we have space for
only one fact more—it is the most important
Fact of all.
Fact No. 11.—We warrant every Machine we
sell to give better satisfaction than any other
Sewing Machine in the market, or money
refunded.

HAVING guarded against loss from Fire by
insuring your property, consider if it
would not be as well to make a little addi-
tional provision for your family in case of your
premature death.—We think it would not be as
well, through the assistance of a Life Insurance
Company, to provide a legacy for your wife or
daughter, or if you have not the happiness to
be blessed with them, think if the possession of a
few hundred pounds additional might not be of
advantage to yourself a few years hence. If
