INDUSTRY UNDER DIFFIGULTIES.— There is residing in Gleurinnics a woman whose sufferings must awaken commissoration in every sympathetic heart. She is called Annie Innes. At the early age of 23 she had a child, and a very short time after her confinement, from fever being in after her confinement, from fever being in the house, she had to sleep on the damp earthen floor with nothing but straw under her, and with her feet turned towards the cold door. She fell a victim to a disease called weed, brought on by extreme cold, the disease seated in her feet, both of which rotted off and left her with pothing but the studies. Anne betook both of which rotted oil and left her with nothing but the stumps. Annie betook herself to her knees, upon which she has ever since continued to walk. She does every kind of domestic work, such as baking bread, washing, taking in peats and water. She also spreads dung, sets potatoes, hoes potatoes, and some other kinds of out-door work. Her own peats are on the top of the hill that separates. Clempinges trom Glempinges trom Glempinges trom Glempinges trom Glempinges trom Glempinges. Glenrinnes from Glenfielddich, and she goes there, and sets them; and as she has been badly off for fire, she went there twice this season and brought home on her back a burden. She also builds her own peats, and in doing so has to mount a ladder. She sometimes visits her neighbors, and in her journeys is assisted by a short walking stick. Such are the doings of a woman who has to walk continually on her knees, and her whole history is a reproof to those who have both their feet, and yet consider labor the worst of human misfortune.—Banffshire Journal. NOVA SCOTIA GOLD FIELDS .- The

Nova Scotia Gold Fields.—The Halifax Reporter of the 21st ult., gives the following as an evidence of the richness of the gold fields in that province:—
"It is stated, as evidence of the richness of the gold diepiny at the County of the Gold diepiny at the Gold diepiny at

ness of the gold diggings at the 'Ovens,' that each of the hundred and fifty bags of rich sand which arrived here last week from that locality, will yield not far from \$400 worth of gold. One of the shareholders of the company to which the gold dust belongs, it is also stated, has refused \$1,000 for a half share, the price of which was \$200. The schooner Lord Lyons which arrived yesterday from Isaac's harbor, brought up 25 brls. of quarts and three bags of gold, the value of which we have not yet heard. Pelnaps the best proof of the remunerative character of the proof of the remunerative character of the several diggings is the fact that a large number of people have steadily kept working them during the whole summer and fall. If the greater part of them found they were making nothing, they uld never have remained so long."

Warlike Preparations.—General Sir Fenwick Williams, accompanied by Lieut. Col. Robertson, Royal Engineers, and the members of the staff, made a thorough inspection of the facilities for fortifying Toronto of Friday, and left for Hamilton and St. Catherines on Saturday. It is reported that guns of heavy carbine will be placed along the mergin of the Bay in the vicinity of the New and Old Forts. Timber has already been laid down, and workmen will commence inmediately to repair the block-houses. Lieut. Davies, Royal Artillery arrived in town on Saturday, accompanied by a Sergeant and three gunners, for the gurpose of instructing the men of the 30th Regiment in the use of heavy guns. A party of Engineers and sappers and miners are at present our route from Halifax to Quebee, and a number of them, it is said, will be despatched west, on their arrival extremely a state of the latter site.—Globe. WARLIKE PREPARATIONS .- General will be despatched west, on their arrival at the latter city.—Globe.
