Schumacher, April 21. Special to The Advance.

The Book Shower and Social under the auspices of the Junior Choir and Sabbath School which was held in the Union Church on Wednesday evening was from every point of view a very decided success. About fifty suitable books were donated for the nucleus of a library, and also a very substantial sum was realized from the proceeds at the door. The young people had prepared a varied and interesting programme of recitations, readings choruses and playlets and the large audience of friends and parents were highly pleased and astonished at the extraordinary ability displayed by the youthful entertainers. Short and appropriate addresses were delivered by Rev. C. Armstrong Sales and Mr. A. Carveth, chairman. A very pleasant evening was brought to a close by the serving of a dainty luncheon. Great credit is due those who trained the children to such a degree of efficiency.

PRETTY WEDDING AT MATHESON ON APRIL 15

The marriage of Miss Kathleen Frances Ginn, eldest daughter of Mr. and Mrs. Frank E. Ginn, of Matheson, Ont., to Mr. Frank Hubert Towsley of Iroquois Falls, second son of Mr. and Mrs. Frank Towsley of Ottawa, was solemnized in St. John's Church, Matheson, by the Venerable Archdeacon Woodall, of Porquis Junction, on Monday, April 13th. The bride, who was given away by her father, was becomingly attired in a gown of white crepe de chine trimmed with French eluny lace. She carried a shower bouquet of Ophelia roses and lilies-of-the-valley. Miss Joan Ginn, sister of the bride, wearing a dress of Nile-green crepe de chine, acted as maid-of-honour, and Miss Mary Ginn, her cousin, assisted as bridesmaid. She wore pink georgette, and both carried bouquets of pink and mauve sweet peas. Mr. Fred Towsley, brother of the groom, acted as best man. After the ceremony, the immediate relatives of the bride and groom partook of the wedding breakfast at the home of the bride's parents. The bride's travelling ensemble suit was of navy and printed crepe with hat to match and she wore a squirrel choker, the gift of the groom.

plaints investigated and if injustice was found it would be remedied. All those objecting to the bills were told to take their notices to the Town Engineer and explain their side of the case. After the Town Engineer had investigated the Council could deal further with the question. In the meantime it was understood that services would not be disconnected for non-payment until adjustment of the matter was made.

Mr. A. F. Kenning presented the plans for a townsite in West Timmins and the plans were duly approved.

Authority was given for the purchase of seven new police uniforms and boots for 1925, and also for the re-decorating of the Chief's residence which is the property of the town and needs the attention.

Some rebates on water rates were passed, where accidental overcharges had been made. Approval was given to the sale of some town debentures.

Councillor Wallingford asked the Council to take the necessary legal steps to dedicate for public use a road across the town pumphouse property for the use of several growing industries and for the benefit of the public generally. There was a roadway now in use and it was the only means of ingress and egress for several industries and for the public. One sawmill that would be served had a capacity of 50,000 feet per day, and had cost \$50,000.00. Councillor Longmore thought as the road had already been used by the public for ten years it might automatically be a public road. However, Council decided to have the Solicitor prepare the necessary forms to formally dedicate a road to the public through the pumphouse property, the Town Engineer to survey the most suitable route for the same.

The big question before the Council meeting, of course, was the matter of the purchase of a motor fire truck. The Committee appointed at last meeting put in a report recommending the purchase of a Standard Equipment with pumper, capacity 600 gallons, and failing this, to secure a combination hose and chemical motor truck at a cost not to exceed \$5,000.00. Councillor Wallingford favoured the Standard Equip-

to be a little tender to the town in Relief cases, with the advent of Spring, but efforts are to be made to weed out some undeserving cases.

It was decided that the whole Council would go with the Board of Works and Town Engineer on a tour of the town to see what public works are most needed. The tour was set to be made Tuesday (yesterday) commencing at 1.30 p.m.
