

## South Porcupine Now Has New Sidewalk From Station

**Makes a Big Improvement. Planting Trees Would Add Further to Appearance. Other Personal and Social Items Regarding South Porcupine People and Visitors.**

South Porcupine, July 13th. Spending some days in the place of the Advance.

Mrs. George Taylor, of Montreal, is visiting her sister, Mrs. W. N. Nilman, and her brothers, Otto and Henry Kaufman. She also spent a few days in Timmins with her mother and her other sister, Mrs. Jack Dwyer.

Masters Dick and Jim Armstrong, sons of Lieut-Col. Armstrong, M.P., of Cobalt, are the guests of Earl and Marshall Hamilton, at the home of F. J. Hamilton, Bruce Ave.

Misses Margaret and Patsy Kennedy, little daughters of "Packie" Kennedy, of Iroquois Falls, are visiting at the home of Mr. S. Kennedy. Last week we sent "Eddie" Edgecombe to England which was a mistake as it was "Charlie," not "Eddie," who took the trip.

Mrs. J. Cattarello and daughter, Francesco, and Mrs. D. Cattarello and Miss Roma are this week visiting in Cobalt.

During the absence of Rev. F. Baine the services in Golden City are being taken charge of by Mr. Childs and Miss Pettigrew.

The water in Porcupine Creek is higher now than it ever has been within our memory of this time of year. It has overflowed its banks freshet.

Miss Sommerville, of Toronto, who has been visiting her brother, Dr. E. Sommerville, returned last week and will visit at Monteith en route to her home. Mrs. E. Sommerville has gone to St. Andrews-by-the-Sea, N.B. for a holiday.

Mrs. Frank Horne and son, Francis, left on Thursday for a trip to Oregon.

Mr. and Mrs. Ken. Deacon and young son have gone to visit friends at Brockville and points along the Rideau. They shipped their car to North Bay and will motor from there.

Miss E. Wilson, of the teaching staff, left this week for Cobalt and other points south.

Messrs W. Melville, G. Stanger and T. Tomlin returned this week after

Mrs. F. Lee and two children of Montreal, who have been visiting her sister, Mrs. Freeman, left for home this week.

Mrs. E. J. Rapsey and daughters, Isabel and Edith, leave this week for a holiday at her parental home at Mattawa.

Messrs Caswell, Geo. Mason, and Lindsay Foss are this week away on a prospecting trip.

Mr. A. Stevenson, of the Dome is leaving for the Old Boys' Re-Union at Brockville.

Mr. and Mrs. Carlyle and daughter, Miss Kay, who have been abroad for the past ten months, are visiting friends at the Dome while en-route to Victoria, B.C.

The new sidewalk which has just been completed to the Station is a credit to the town. Now all that is needed is some trees or methods by which the tract from the Station to Railroad Street will be brightened up and beautified still more.

We were very much pleased to receive the first issue of The Sioux Lookout and Patricia District News this week. It is a newsy sheet of the Red Lake District, edited by our former townsmen, Mr. R. Brinton.

Mr. and Mrs. Pelkie and children, of Latchford, are visitors at the home of Mrs. Stirling.

Mrs. Richardson and her sister are the guests of her daughter, Mrs. P. Michaud.

### NOTES IN BRIEF

An expert from the Hydro Electric Commission was in town for a couple of days last week making enquiry regarding power and light rates, etc.

The work on the new cement sidewalks is expected to start to-day. Curran & Briggs have the contract.

### CANADA LEADS WORLD IN PROSPERITY TERMS.

Ottawa, Ontario.—Canada leads the nations of the world in the proportion of years of prosperity to years of depression, says a report now in preparation by the National Bureau of Economic Research, Ltd., an American organization. Covering the period 1884-1924, Canada shows 1.86 years of prosperity per year of depression. The United States comes next on the list with 1.79 years of prosperity per year of depression, covering the period 1890-1923.

### NEWSPRINT WORTH ABOUT FORTY-FIVE MILLIONS.

Year by year Canada supplies the world with more and more newsprint and the importance of this branch of industrial life is growing apace. Newsprint worth \$44,559,989 was shipped out of Canada during the first five months of the current year. In other words, the Dominion manufactured in that period 735,152 tons of that commodity and exported 676,214 tons thereof. An abundance of relatively low priced power and the availability of vast tracts of virgin forest contribute to her success in this department of manufacture.

### EMPLOYMENT SITUATION MORE FAVOURABLE NOW

Ottawa, Ontario.—The employment situation in Canada at the beginning of June was more favourable than on the corresponding date in any of the last five years, in fact, the index number stands higher now than at any time since 1920. Reports received by the Bureau of Statistics from 5,907 employers shows that at the beginning of June, 54,262 persons had been added since May 1st to their staffs which totalled 828,483 workers. The index number stood at 101.0, as compared with 94.3 on May 1, 1926, and with 94.5 on June 1st last year.

Mr. H. C. Garner is away on his annual vacation trip. He joined Mrs. Garner at Montreal and they will spend the chief part of the vacation at Norway Bay. Mr. E. Desjardins, of Ottawa, is in charge of the Government Employment Bureau during Mr. Garner's absence. Mr. Desjardins has relieved at the office here on several occasions and has many friends in town. He notes the progress made by Timmins, being especially impressed this year with the growth of the town since his last visit here about a year ago.

### SOUTH PORCUPINE WINS NICE MATCH FROM TIMMINS

Deacon Triples with Two on Bases in the 9th to Tie Up the Game. Farr Makes Great Play at the Plate.

In one of the very best games that has been played in the T. B. L. yesterday South Porcupine jumped into the league leadership by coming from behind to pound out a win in the 9th on a base on balls. Farr's single, Deacon then tripled over Scully's head to tie up the game and Gagne's nice bunt sent across the winning run.

Hackett started on the mound for the Miners, and was going along nicely until he was hit on the pitching arm and had to give way to Langdon and the youngster's momentary loss of control was responsible for the loss of the game.

The Miners were at their strongest as Scully and Tate were on the line-up and there was some spectacular fielding by both sides, Lefty Farr's being the outstanding feature when he grabbed Tate's hot smash to force Hackett at home.

South Porcupine hardly deserved to win on the idea of the managerial end of the club, the manager carrying his hockey quarrel into baseball apparently, when he protested Scully on the grounds that the latter did not have an amateur card, though suggesting that he was willing to play the game without protest if Scully were kept from the line-up. Another undesirable feature was the "giving the knee" to Kennedy by one of the South Porcupine lads. It almost disabled Kennedy, and it looked somewhat deliberate. It is to be hoped, however, for sport's sake that it was not deliberate.

Otherwise the match was a live and snappy one, with good play and giving the spectators the worth of their money.

The box score:—

SOUTH PORCUPINE												
A.	B.	R.	H.	P.	O.	A.	E.

Timmins 0 0 2 0 0 0 0 0-2 6 3

### Forest Fires - How You Can Help

Fire prevention is a personal problem. The "general public" is vitally interested and can do much toward its solution. But personal interest and individual intelligence of the situation, together with individual initiative in helping, are necessary if fires are to be stopped.

Each reader is urged:

1. To take a personal, persistent and active interest in putting out each forest fire seen, no matter how small. All Big Fires Come From Small Beginnings.
2. To see that a fire ranger or some responsible person is notified and "on the job" before a fire is left, when it is not possible to control it personally. Prompt Attention Keeps Fires Small.
3. To make it a personal duty and privilege to see that no case of reckless, careless or ignorant use of fire in or near the woods is overlooked. Interesting Public Opinion is the Only Effective Law Enforcer.
4. To openly and always seek to interest and educate acquaintances and friends in the need for better forest protection and in the means of getting it. Enlightened Public is Essential to Efficient Fire Protection.
5. To help those at work on the problem by frank, constructive criticism of mistakes or failures in their policy and work; by open appreciation of good work done and by the endorsement of policies and plans. Sympathetic Public Co-operation is Both a Safe-guard and a Stimulus to Honest and Effective Public Service.

### SAD DEATH OF MR WALTER DURRELL OF WEST DOME

Young Man Was Only 27 Years of Age. Other Items of News from Correspondent.

South Porcupine, Ont., July 14th. Special to The Advance.

Mr. Adolphe Carlson has returned from a visit to his family in Toronto.

Messrs R. Talantino and V. Laffin are leaving this week for a trip through the West, visiting Winnipeg and other centres of interest.

Mr. Walter Durrell, of the Consolidated West Dome Lake, died this morning early at the Presbyterian hospital. He was taken suddenly with convulsions while at work in the mine on Monday and though hurried to the hospital and a specialist rushed from Timmins, nothing could be done for him. Mr. Durrell was a young man of twenty-seven years and was born at Campbell's Bay, Que. He had been married not quite two years to Miss May White, of Timmins, who survives him. His mother is expected from Quebec to-night and it is thought that the remains will be taken on the 10.30 a.m. train, Thursday, to his home town of Campbell's Bay for burial. The deepest sympathy of the community goes out to the grief-stricken young widow and other relatives.

Mr. Thomas Lang, who has been suffering seriously from a nervous breakdown, left on the noon-train today to consult a specialist in Toronto. He was accompanied by his sister Mrs. Godfrey, of Sault Ste. Marie, Ont., who came from the Sault yesterday to see her brother, and accompany him to the hospital.

Mrs. Hugh Boyle left for Matheson today, there to take part in the installation work of The Rebekah Lodge. Mr. and Mrs. Will McIntosh, of Bloor avenue have left to take up their residence in Timmins. They have both made many friends while in town and will be greatly missed.

SKIN ERUPTIONS MAY COME FROM DISTURBED DIGESTION.

Pimples, blackheads, eruptions, boils, itching and even more uncommon forms of skin disease are definitely associated with some disturbance of stomach or intestines, says Hygieia for July. Changes in finger and toe nails that become brittle, opaque, thick and lusterless are also due to difficulties of digestion.

The old custom of taking a cathartic or laxative when boils and pimples appear has some value in that the medicine removes decomposing and incompletely digested material from the intestinal tract. It will not, however, correct the fundamental disorder; for this a physician's services are required in order to find out the deficiency and toxic products that are developed and that bring about the symptoms.

"Fore!" cried the golfer, but nobody took the least notice. So the business man played his shot. The ball caught Abe Skinsberg, the pawnbroker, full in the neck, and he began to prance about and rave, finally claiming five pounds compensation for the pain caused and the possible damage done. "Vive pounds," he cried, "and I will say no more about it." "But I said 'Fore,'" pleaded the business man. "Oh, vell, make it vore," replied Abe with a good-natured smile.

City Chap: I say, is that bull safe? Country Fellow: Wal, now, he's a dang sight safer than you are.

## Treasure Island is Mecca for Children

1. Complete and exact in every detail is this small engine, representing the largest type of engine used in the Rockies in Canada. This small engine pulls 30 people around the "Island" at one trip. 2. A composite picture of a "Treasure Island" scene showing a party of young girls leaving Quebec on the Canadian Pacific Train and passing through the Connaught tunnel situated in the Canadian Rockies. At top of cliff is a miniature of one of Canada's finest hotels, the Chateau Frontenac.

Treasure Island, the outstanding amusement feature of the British Empire Exhibition at Wembley—with its bold but nice pirates, Long John Silver and Captain Hook, and its many other famous characters from storyland, Peter Pan, Wendy, Alice, the Duchess, the Mad Hatter, Cinderella, Mother Goose and Robinson Crusoe, has proved to be the greatest entertainment attraction at the Sesqui-Centennial International Exposition at Philadelphia.

It is a much bigger and more wonderful "Treasure Island" than the one which delighted thousands at Wembley last year. It has six acres of land, surrounded by a natural lagoon. The entire lay-out of the Island in Philadelphia was designed and built by Maxwell Ayrton, architect of the Wembley exhibition overseas. Drake's ship the "Golden Hind", Noah's Ark and its animals, two by two, and pirate and smugglers' caves will be a few of the features seen.

But quite the most fascinating experience of the visitor to Treasure Island is the trip across Canada on the miniature Canadian Pacific Railway's "Imperial

Limited" train which is pulled through a replica of the Canadian Pacific Rockies by a small puffing engine only four feet long, but strong enough to pull 30 people. The engine driver is J. Terrence Holder, the twenty-one year-old son of one of England's wealthiest families who prefers this job to an Oxford career.

One gets on the train at the Palais Station, Quebec, just below the magnificent Chateau Frontenac, and passes through Quebec and Ontario provinces and enters the prairies in less than no time. When Banff is reached the train stops to allow passengers to see the Banff Springs Hotel and the beautiful Bow Valley. Westward it speeds through the Canadian Pacific Rockies, some 600 feet long, the tallest towering 74 feet high and built of sheet iron and plaster, and dashes into Connaught tunnel; thence on to the Coast, where one sees Vancouver Harbour, the Straits of Georgia and picturesque Victoria.

More than half a million people rode on the little Canadian Pacific Railway at Wembley last year, and among its distinguished passengers were the King and Queen and the Duke and Duchess of York.
