-17-29pTWO THOUSAND ATHLETES
TO COMPETE AT HAMILTONNorth Land Has Special Reasons for
Interest in British Empire Games
at Hamilton, Ontario, Com-
mencing on Saturday,
August 16th.

The North Land has special reason for interest in the British Empire Games being held this year at Hamilton, Ontario. Even apart from the fact that there will be extra special interest because this world-famous event is being held in an Ontario city, there is the added interest from the fact that several North Land athletes will be among the entries in some of the events. Roy Hamilton, of Timmins, will be a contender for honours in the boxing line. Six young ladies from New Liskeard hope also to be among the entries in the line of racing for ladies. Because of these facts and for general reasons the following despatch from Hamilton will receive more than passing attention:—

Canada, on its showing at the Olympiad in Amsterdam, assuredly ranks with all countries of the world, athletically, and yet, despite this position of prominence, it has been hard for Canadians to conceive the British Empire Games in a way that does justice to the greatest athletic project this Dominion has ever known.

The idea of British Empire Games, originating as is well known now, with Canadian officials in attendance at the 1928 Olympics, grew with such rapidity and solidness during the past two years that it was assured months ago nothing would prevent the Games from being a gigantic success, not only in an athletic sense, but in binding more firmly the ties of a great Empire.

Roughly, the British Empire Games, which will be held in this city August 16 to 23, inclusive will bring together over two thousand athletes, all leaders in their respective fields, in a great series of tests that will establish not only the champions of the entire Empire but many without peers in the world. The addition of provincial, national and international events to the British Empire Games programme means that fifteen hundred competitors, other than those originally figured on, will participate in the various events.

500 Outside Canada

Five hundred athletes will represent eleven countries in the British Empire. England, Scotland, Ireland, Wales, Newfoundland, Bermuda, British Guiana, South Africa, Australia, New Zealand and Canada, will compete in athletics (track and field), rowing, swimming, boxing, wrestling and lawn bowling. Seven hundred competitors from Canada and the United States will participate in the international rowing, canoeing and yachting events. Four hundred entries will be taken in for the Canadian canoe and skiff championships, and for the women's athletic championships and four hundred schoolboys will compete in the Ontario schoolboys' meet.

A very significant statement was recently made in connection with the later programme.

School Boy Athletes

Speaking to a representative of one of the Dominions from "down under," a prominent Hamiltonian said "We'll show you schoolboys, sixteen and seventeen years of age, who will compete in the Ontario schoolboys' championships and then compete in the British Empire tests against seasoned veterans. And they won't all be last in their respective events."

That's just about the way things stand. Canada has never had a better crop of schoolboy athletes than at the present time, as witness Jack Portland, the fifteen-year-old Collingwood lad who has leaped over six feet two inches in the running high jump on several occasions this year.

Witness also Bert Pearson, the youthful Hamilton sprinter who is just a step away from Leigh Miller sensation of the last indoor season.

Officials of the British Empire Games can hardly be blamed for referring to the entry as the greatest array of athletic talent ever gathered together within the bounds of the Empire!

Great Opening Ceremony

The programme for opening day, Aug. 16, is more brief than on any other day during the mammoth week. Naturally, the opening ceremonies will take up considerable time, and as they will be conducted with all the pomp and ceremony of an Olympiad opening, a great sight will be presented. The stadium in gala attire will offer Canadians the greatest setting for an athletic meet that the Dominion has ever seen, with banners of all Dominions floating in the breeze and the natty dressed athletes of the entire nation parading.

On Monday, Aug. 18, events get under way as early as ten o'clock in the morning, with a steady programme through until the start of the last events, Empire swimming, at the municipal pool at 8.30. On each succeeding day every working hour of the day will be occupied, with the programme so distributed that enthusiasts will be able to take in all events.

Closing on Saturday, August 23, a complimentary dinner, a huge affair will be tendered Empire athletes and officials, winding up a week of unsurpassed competition and picturesque-

HANDSOME NEW POST OFFICE AT TIMMINS NOW IN USE

The above drawing from scale shows the new post office at Timmins which was opened for business on Monday morning of this week, the transfer being made from the old post office on Saturday evening and Sunday.

Menace in Communism
for Dominion of Canada

(From The Brampton Conservator)
There are many people who just laugh at the ramblings of the Communist party, but looking over the figures for Toronto west centre, we find Charles Sims with over 600 votes. That may not appear to be many in comparison with the other candidates, but we must bear in mind that there were only men and women who had votes. There are hundreds of their foreign followers who have no vote, and there are thousands of young children belonging to these foreigners who are being taught daily the doctrines of communism.

It is very much regretted that a certain Toronto newspaper has seen fit to champion the cause of the Communists and to decry the efforts of those charged with maintenance of law and order. It has been established beyond all doubt that the aim and object of the Communists is to destroy existing conditions that make for the happiness and well-being of the people of this and other lands.

Should the preaching of these Communist doctrines and establishing of societies of young Communists be allowed to continue, with the avowed purpose of inculcating in the minds of these young people that our laws must be ignored, then surely any sane person will do their utmost to see that this menace is stamped out.

The Russian people may have been justified in their revolt against tyrannical rulers, though it is possible that their present state is far worse than their past, but the Canadian people have no such excuse. Now is the time to act, because in a few years hence these thousands of foreign children will be taking our places at the polling booth and we know from recent events when the most loyal citizen Toronto has ever produced was beaten by a Jew, in that great British city. That alone should open our eyes as to what we may expect in the future.

FIRE TOTALLY DESTROYS
CREAMERY AT POWASSAN

The Powassan plant of the Georgian Bay Creamery Limited, located on the Toronto-North Bay highway about a mile south of Powassan, was totally destroyed by fire which broke out from unknown causes at 8 o'clock Saturday morning.

Lacking proper fire-fighting equipment, the employees were unable to save the plant, but kept the manager's residence nearby free from the flames. Company officials place the loss at between \$12,000 and \$15,000 and they are unable to say what the plans will be regarding the building. It is expected that the district will be served from the Bonfield creamery until such time as the future plans will be decided upon. The Powassan Creamery had served the district for a number of years and was formerly owned by Scott Brothers.

ness, a truly remarkable demonstration of the Empire at play and yet, withal, it will be serious business to those mighty athletic ambassadors who hope to return to their native Dominions with premier laurels.

Toronto Mail and Empire:—A magazine editor says one of the hardest things to find in Canada is light humour. On the other hand, dark humour comes in at seven every night on the radio.

INDIANS IN NORTH LOST A
CHANCE TO LEARN LACROSSE

An article in The Toronto Globe on Saturday last said:—"Walter C. Cain, Deputy Minister of Lands and Forests will be back at his Queen's Park office today, after a month of flying across the hinterland of the province with the Ottawa Indian Treaty party. "The trip was the finest I have ever made into the North country," declared Mr. Cain to his family, last night, over the long-distance telephone from North Bay. But in one respect, it is said, he is a sad, sad man. A great ambition to reach the Windigo Indians, back of Nipik Lake—away up in the heart of the barrens—the game of lacrosse, has been shattered, and simply because the dozen sticks—the best that money could buy from Toronto sporting goods stores—were overlooked and left behind when the big seaplane in which the treaty-makers made their 2,000-mile aerial jaunt, was packed at Ottawa.

"Walter Cain was one of the best lacrosse players of his day. During the 1929 treaty-making flight he ran across a tribe of Indians at Nipik, who, it is reported, had heard of the lacrosse prowess of an illustrious forefather by the name of Pontiac, but who had never had an opportunity to do any stickhandling.

"Your wish will be met by big white Father, Cain," the Queen's Park official told them then.

"This year, the sticks, as stated, were brought, and Mr. Cain had hoped to spend a couple of days, at least, in teaching the Windigo braves the rudiments of Canada's national pastime. And, now—just because somebody overlooked his parcel in the rush to get away—the Windigos are waiting in their tepees—and Mr. Cain is a saddened individual, too."

Lines from a comedy at the Goldfields theatre last week:—"Professor:—What is the difference between a flea and an elephant, biological speaking? Student:—Well, an elephant can have fleas, but a flea can't have elephants."

GOES TO ENGLAND

John A. Mooney, Managing Director, World's Grain Exhibition and Conference, to be held at Regina, July 25th, 1932, has sailed for England to spend two or three months in the British Isles and other countries in connection with the World's Grain Exhibition. Over \$200,000 in cash prizes are to be offered at this Conference and Exhibition.

Nuisance at Kirkland
May Cause Court Action

Court action is threatened at Kirkland Lake in connection with what is alleged to be the public nuisance caused by the odour from the east arm of Kirkland Lake. The municipality of Teck, the provincial government and the Dominion government are all more or less being dragged into the matter by those complaining of what they assert is a public nuisance and a menace to health. In referring to the matter last week, The Northern News said:—"The Township of Teck is threatened with litigation in which the Ontario and Federal Governments are involved, in regard to the odour from the effluent from the municipal septic tank, which is emptied into the east arm of Kirkland Lake and which of late has become a decided nuisance to many residents in the section of the town nearby."

The matter was again brought to the attention of the Township Council at their meeting on Tuesday evening by M. G. Hunt, solicitor, acting on his own and client's behalf. In his letter, he stated that apparently no steps had been taken to eradicate the nuisance and if anything, conditions were worse than when he had written two weeks previously. His letter also referred to other matters concerning public health in the same vicinity. Councillor Fraser felt it was a concern of the two governments, as the Provincial Health Dept. had given the corporation the order to use the arm of the lake for this purpose, while the Dominion government allowed the mines to empty slimes into it, which was blocking the channel. Mr. Hunt, who said he was familiar with all procedure in connection with the disposal of the slimes did not think there ever was any order that gave the mining companies this privilege. Clerk McBain stated they had had correspondence with A. E. Berry, a director of the Sanitary Engineering division of the Ontario Health Dept. and a letter received that day, said they had taken the matter up with the Wright-Hargreaves Company and they repudiated their responsibility in the matter. The company stated that it had made an effort in the past and intended in the future to keep the channel open. Mr. Hunt said that the Lake Shore Mines also repudiated responsibility in the matter and claimed not to have affected conditions. He went on to say that if something wasn't done soon that likely the Dominion government would be drawn into it, as the question of natural drainage was concerned. As all parties concerned wish to avoid any litigation, the Dept. of Health will be urged to give a decision so that the nuisance can be abated. The letter, which also referred to disgraceful health conditions along Water street, was given into the hands of Town Solicitor Lillico and Sanitary Inspector MacDonald.

WELL-KNOWN MINING MAN
JOINS BRITISH-CANADIAN CO

Official announcement is made that R. S. Denning, late general manager of the Huronian Belt Company and associated companies, has joined the mining organization built up by J. J. M. Aitken in Toronto, known as British Canadian Securities Limited, and will take an active part in the management and direction in this mining organization and the mines under its control which includes Cobalt Contact, and the Foley mine at Mine Centre, owned by British Canadian Mines Limited. At a board meeting to be held shortly, it is understood, Mr. Aitken will propose the addition of Mr. Denning to the directorate of these companies.

This addition to the Aitken organization would appear to indicate both the continuance of faith in the mining possibilities of Ontario and also promise an even more aggressive policy in the future. Mr. Denning from his past experience as general manager of the Huronian companies, consisting of Vipond Consolidated, the Keeley Silver Mines, and Pioneer Mining Corporation, should be a valuable addition to the British-Canadian organization. Mr. Denning was originally associated with Dr. J. McIntosh Bell, when that gentleman was managing director of the Huronian group, later succeeding Dr. Bell in that capacity, when he severed his connection for the purpose of organizing the Atlas Exploration Co.

It is possibly little known that Mr. Aitken, who is a brother of Lord Beaverbrook, and his group of companies, have quite a strong and influential following in Great Britain. It is the intention in the future to further strengthen this connection with the object of building up a strong Anglo-Canadian mining organization, with the control and executive direction on this side of the Atlantic. It is understood that Mr. Denning will leave shortly for London for the purpose of meeting some of the larger shareholders in Great Britain.

POSSIBLES WIN FROM THE
PROBABLES LAST THURSDAY

First of Exhibition Games With Lake Shore of Kirkland Lake Likely to be Played Sometime in September. Prediction for District Team.

The exhibition game of football to pick a team to represent the Porcupine District and also to give a couple of exhibition games to the Lake Shore team of Kirkland Lake took place on Thursday last. A very fair attendance was on hand and a lively game was witnessed, all the players showing up well and giving of their best. A Cadman and G. Ritchie were in charge of the teams and will also select the eleven to play in the various games. The idea behind all the preliminaries is as follows:—The Lake Shore team are the only entry from Northern Ontario to play for the Ontario Cup. They have a classy team, and the various local clubs who have already played against them have proven to be easy meat, although the Cornish made them play every minute of the game at the last meeting of these two teams. The executive of the N. O. F. A., however, felt that they would like to give them some real opposition and in addition good practice for their coming Ontario Cup matches and the result was the Porcupine District team. The first game will likely be played by these two teams early in September and in the meantime the team picked will go into training and a good series of games should be the result. The matter of guarantees is having the attention of the N. O. F. A. at the present time.

On Thursday last the Possibles won 1 to 0. To mention any particular player for special playing would be to show favoritism as one and all played good clever football. The only goal scored came from Airey on a pass from Salter who made the opening by taking the ball right in. Some clever combination plays were also a feature. The Advance football reporter is of the opinion that the following players are worthy of a place on the picked eleven. The team will be picked before this is published but after it has been written and in type, so no secret is divulged. The prediction for the team is as follows:—Rowe, goal; Blair and Rankin, backs; McConnell, White and Cooper, half-backs; Airey, Chalmers, Salter, Richmond and McGregor, forwards. This is a selection as shown on Thursday's form.

RECKLESS DRIVER GIVEN
TERM OF SIX MONTHS IN JAIL

Six months in jail was the sentence meted out by Magistrate Atkinson at Cobalt last week to Stanley McIntosh, convicted of reckless driving when in a roadster he failed to make the turn on the main highway at Grandview avenue and Cobalt street, ran up on to the sidewalk and caused bodily harm to Frank Richardson, of Cobalt. Police found a flash containing a quantity of liquor in his car, and at the hearing McIntosh admitted taking a drink of wine. The bench was critical of the increasing number of cases of the kind, and said that severe punishment must be administered in order to curb carelessness on the highways.

WELL-KNOWN MINING MAN
JOINS BRITISH-CANADIAN CO

Official announcement is made that R. S. Denning, late general manager of the Huronian Belt Company and associated companies, has joined the mining organization built up by J. J. M. Aitken in Toronto, known as British Canadian Securities Limited, and will take an active part in the management and direction in this mining organization and the mines under its control which includes Cobalt Contact, and the Foley mine at Mine Centre, owned by British Canadian Mines Limited. At a board meeting to be held shortly, it is understood, Mr. Aitken will propose the addition of Mr. Denning to the directorate of these companies.

This addition to the Aitken organization would appear to indicate both the continuance of faith in the mining possibilities of Ontario and also promise an even more aggressive policy in the future.
