The Fellowship Dinner attended by about 200 persons was opened by singing the Doxology. The tables were beautifully decorated with bowls of Spring Flowers.

Mrs. Paul Eydt presided.

Three vocal selections were sung by Mrs. D. Jamieson, accompanied by Mrs. M. Gunn.

Three selections were played by the String Ensemble. They were thanked by Mrs. Doerr.

Mrs. Gillespie introduced the speaker of the evening Miss Marion Hollinger a graduate of Waterloo College. She also won the Rotary Gold MEDAL for Public Speaking. Miss Hollinger gave an insight of her work as a Social Worker. She is on the staff of the Social Welfare Agency of Hamilton. The speaker told of how we all like to be the good neighbor and hold out a helping hand. She gave us various examples of how some people adjust themselves while others require assistance from an agency or friends. The agencies do render many services but never direct peoples lives. They must help and make decisions themselves. She said "there should be a mutual confidence and knowledge between churches, schools and social agencues. The Soul's health is linked with that of the social life. Social ills require the physician, spiritual ills, the trained minister and educational needs, the trained teacher.

One of the things we would particularily like remembered about the work of S. B. is the earnest effort made at understanding in many more or less complicated cases of personal trouble that come to our attention. The speaker closed with a quotation by Madame Currie - "We cannot hope to build a better world without impressing the individual. Toward this end, each of us must work toword his own highest development accepting at the same time his share of responsibility in the general life of humanity--our particular duty being to help those to whom we feel we can be most useful.

Mrs. Doerr thanked the ladies of St. Peter's for catering. The Fellowship Hour closed with singing "God Be With You 'Till We Meet Again".

Respectfully submitted,

Oline Musselman

Secretary.

President - Louise G. Doerr
