*“As for you who stand today on the  
threshold of life, with a long horizon open before  
you for a long career of usefulness to your native land...  
I shall remind you that already many problems rise before you:  
problems of race division, of creed differences, of economic conflict,  
of national duty and national aspiration. Let your aim and  
purpose, in good report or ill, in victory or defeat, be so to live,  
so to strive, so to serve as to do your part to raise even  
higher the standard of life and of living...*
