

April 5, 1946

Right Honourable W.L.Mackenzie King
Ottawa, Canada.

Dear Mr. King:-

Attached please find clipping from The
Toronto Star of this date which speaks for itself.

The idea of a permanent board of arbitration
with powers similar to those of our courts will not be
new to you; and is one to which the writer has given long
consideration. I am not sure that it is the ultimate
solution of the problem of industrial disputes; but it
would seem to be a long step in advance of anything we
have at present.

The matter has been discussed with labor
men on several occasions, also with employers, and the
consensus would seem to be that with the right personnel
such courts would be a benefit to all classes of people;
and much better than anything yet proposed as "labor
legislation", as each case would be judged on its own
merits.

With kindest personal regards, believe
me as ever,

Your sincere friend,

C. MORTIMER BEZEAU
