Our Park Royal Show was very successful, and thank you to Barrie Chadwick and his team of people who worked hard put the exhibition together. It was a very attractive show, with lots of variety, and nine paintings were sold - congratulations!

I have been asked why we are including the Provincial Sales Tax (PST) on the registration form for the paintings. In the past there have been paintings sold and the PST has not been included in the sale. That means the Club has to pay the tax. When a painting is sold from any show that is sponsored by the West Vancouver Sketch Club, it is a Club sale and not an individual sale. As required, once a year our bookkeeper, Donnie Kerr, remits all PST collected that year to the Government on a form that shows total dollars sold and PST collected. This is why the PST is calculated on the full price of the work, as it has to balance with what is remitted. In future the PST will be automatically added to your sale price by the computer. All sale price lists at the exhibition will include the PST in the total price.
