Out Of Sight: The Image Beyond The Index to August 3
Presentation House Gallery
Out of Sight features recent work by 6 Vancouver-educated artists interested in basic questions about the mystery of how photographs tell their stories. They explore the idea that photographs, unlike paintings and sculptures, must seemingly rely on depictions of the world. Through their works the artists ask: Are photographs faithful representations of things in the world? How do photographs convey the meanings they do? Curated by Christopher Brayshaw.
