Doctor: "Your husband's not so well today, Mrs. Maloney. Is he sticking to the simple diet I prescribed?"

Mrs. M.: "He is not, sorr. He says he'll not be after starvin' himself to death just for the sake of livin' a few years longer."

Suitor: "Well, Tommy, congratulate me; your sister has just promised to marry me."

Tommy: "That's old news. She promised mother she'd marry you years ago."

She: "Of course, I'm greatly honored by your proposal, but I don't believe in tying myself up to one man. I must refuse you."

He: "Well, if I organize a syndicate would you consider our offer?"

Correspondence

Altamont,
West Vancouver,
Aug. 9, 1927.

Editor, West Van. News:

Dear Sir:—

I shall be glad if you can per for a few remarks I would like to make about the water supply which is so inadequate.

We live on Marine Drive, west of 22nd, and consequently should be able to make use of our "Sprinkling Permit," between 8 and 9 p.m., but as we cannot draw even a cup of water between 7 and 9 (several nights we have had no water between 6 and 10 p.m.), it is a farce to tell us at which hour we can use the sprinkler.

We have friends on the waterfront and on certain higher levels who have plenty of water and can have baths galore but we cannot even wash our hands, or have a drink, and the youngsters go to bed unattended.

As a mere woman, it seems to me folly to spend \$30,000 on a park and another \$300,000 on a bridge and the Marine Drive to attract more residents, when we have not sufficient water for our own needs. Apart from this menace to health, one dreads to think what would happen if a fire broke out. How many fires are checked by the timely application of a pail of water.

Surely a by-law should be introduced which will provide West Vancouver with adequate water storage facilities.

Yours truly,

A RESIDENT.

L. M. Duval of Savory and Duval, is attending the Realtors' Convention in Seattle.

BUY YOUR EXHIBITION TICKET HERE

If you are going to the exhibition, and most everybody will be there, you should buy your tickets at Gemmill's Drug Store, and so get a share in the drawing for the bungalows, autos, and other valuable prizes that are being offered. Those purchasing tickets at the ground do not get a share in the drawing. It costs you just the same amount to get your ticket here and you may get one of the prizes.

Use a little linseed oil on flannel for cleaning varnished paint.

OUR WATER SUPPLY—LETTER FROM COUNCILLOR WATT

(Continued from Page 1)

connecting at 11th street, Caulfeild and Nelson Creek to our present supply and also at the most suitable point at Capilano to the Metropolitan supply. This would likely mean a main at Capilano of 14 inches reducing gradually to 6 or 8 inches at Whytecliff, as the borrowing power of the municipality would be affected by this proposal and so many other necessary things calling for attention, it will be seen that it is not a matter of necessity as much as of finance with which your council is confronted.

It is rather exasperating to see at many points on the Pacific Highway lovely gardens being sprayed at any hour of day or night and on enquiry I find that no extra charge is made for this rather necessary utility. I have always been opposed to a tax for sprinkling and I believe our rates are too high in comparison but this is a matter for consideration, and it is just possible that it cannot be done for less under the circumstances.

As mover of the resolution covering the amendment to the sprinkling hours, I wish to thank you for your article. It may be necessary to split the area into three or four sections in order that some pressure might be obtained at the points complained of and if so I would ask that the public co-operate and assure you that whatever is being done is in the best interests of all concerned.

Yours respectfully,

J. T. WATT,

Chairman Water Committee.
