FED UP!

When a woman says she's "fed up"
she means it. When a man says it
it doesn't matter because he never did a
day's washing and ironing in his life
and doesn't know what hard work is.
Hand the "fed up" stuff to the Bur-
rard Laundry—they'll never tire of
doing the real hard work for you and
they'll do it very carefully and you'll
be pleased.

Houses in this district
painted with Ayres Paints

**Secret of Cake
Magician's Success**

A woman noted for the delici-
ous cakes she makes never
makes but the one kind of cake.
All her variations are made by
means of different fillings and
frostings.

Her foundation cake she has
made so often that she knows
exactly when she has creamed
her butter and sugar long
enough, and always gets the
proper thickness for her batter.
As her oven has a heat regulat-
or she is sure of her baking with-
out looking into the matter after
she has set it at the proper tem-
perature.

Like most other cooks she has
favorite frostings and fillings
from which she obtains consist-
ently good results. Her frosting
is what she calls twice cooked.
It really is a plain boiled frosting
but after the syrup has been
boiled to the thread stage (238
F.) and has been beaten into the
stiff egg whites the bowl is set
in hot water and the beating
continued until the frosting is just
right to spread.

Some good cake bakers prefer
the frosting which has little
corn syrup added with the sugar.
This is cooked to a higher tem-
perature and must be beaten
longer after the syrup is added
to the eggs. This is not set in
hot water. It keeps soft indefi-
nitely.

**FERRY PASSENGERS
KEEP TO THE RIGHT**

Much trouble is caused travel-
lers on the Ferries by the many
who insist on using the wrong
gangway to and from the Ferry
Boats. The West Side should be
used by those boarding the boats
and the East Side by those leav-
ing. Notwithstanding the prom-
inent direction signs many still
persist in using the wrong side
to the great inconvenience of the
late comers endeavoring to
"catch the boat."

Keep to the right when board-
ing or leaving the Ferry Boats.

**DEAD BLACK FISH
DRIFTS ASHORE**

Black fish, a small species of
the whale family, are often seen
in the Gulf of Georgia, and oc-
asionally some of them come up
Burrard Inlet. Last Friday a
dead one drifted ashore at Cyp-
ress Park, and, having made the
neighborhood distinctly unpleas-
ant, was towed out into the bay
and later in the day drifted a-
shore again at 15th Street. It
was for obvious reasons again
towed out, and from last ac-
counts was stranded on the
beach above the mouth of the
Capilano. It was the size of a
large row boat and minus its tail,
which had probably been cut off
by the propeller of some steamer.

**CADET CLASS
TO BE STARTED**

J. E. Condon, the popular pub-
lic school teacher, who has al-
ways taken such an active in-
terest in school sports, has return-
ed to his home at 16th and In-
glewood after taking a 5 weeks'
training course at Rod Hill camp
near Victoria, to qualify for a
cadet officer. It is his inten-
tion to start a cadet class in the
schools this fall. Mrs. Condon
returned with him after spend-
ing a week's holiday in Victoria.

FACTS**Worth Knowing**

A few drops of lemon juice
added to the dough when making
pastry will render it more diges-
tible.

Always grease cake tins with
butter. The cake will turn out
easier and no pieces will be left
behind as so often happens when
other fats are used.

When washing new sheets or
white lace curtains for the first
time, soak them overnight in
water to which one or two hand-
fuls of coarse salt has been added.
The salt takes out the lime
dressing and saves both soap and
labor.

Two ounces of fuller's earth
boiled in half a pint of vinegar
and the juice of three onions is
excellent for removing scorch
marks from linen.

To clean suede gloves, put
them on the hands and rub well
with fine oatmeal. Remove ob-
stinate stains with benzine ap-
plied with a soft piece of flanel.

Lemon juice rubbed into the
scalp before washing the hair
will remove all dandruff. It will
remove warts if applied regular-
ly every day, and there is noth-
ing better for corns and bunions
than to soak them in hot water
and apply a bandage wet with
lemon juice.

Bran tea is excellent for
hoarseness. Put a tablespoonful
and a half into a saucepan with
a pint of cold water. Bring to a
boil and simmer ten minutes.
Then add half a tablespoonful of
honey and a small piece of but-
ter. Dissolve and strain careful-
ly.
