The busy bank manager was writing in his office when a very pompous gentleman was shown in. "Take a chair, please," said the manager, not looking up. "I suppose that you are aware that I am Count Weserstein,"

said the visitor.

The banker went on writing and said quietly, "Oh, in that case, take two chairs."

FACTS Worth Knowing

Scum will not discolor cauli-flowers if they are boiled with the stalks uppermost.

To renovate a shabby umbrella, brush it well with a solution of ammonia and warm water.

A pinch of borax added to a jug of water is excellent for watering indoor plants. When preparing coffee, add a pinch of salt. It helps to clear it and improves the flavor.

Powdered borax sprinkled over the spot where ants appear disperses them in a few hours.

Wooden washing tubs should always be left with a little wa-ter in them to prevent shrinking.

A successful way of removing stains from black material is to rub them with a sliced raw potato.

If washed in hot water instead of cold, rice will have a better flavor.

Ammonia should be used to soften the water in which woollens and knitted goods are washed. Only a little is needed. Jam will not ferment after it has been made if the covers are dipped in vinegar and tied down whilst the preserve is hot.

To remove rain spots from georgette, iron the whole frock beneath a wet cloth.

Linoleum will never crack if cleaned with olive oil and vin-egar in equal parts.

A splendid cloth cleaner can A splential than teacher teamer can be made from equal parts of ammonia and methylated spirit, mixed together in a bottle. Ap-ply with a piece of cloth the same color as the article being cleaned.

The quickest way to clean silver is to apply methylated spirit, leave until quite dry, then pol-ish with a soft, dry rag.

Frying pans should be wiped perfectly clean with soft paper immediately after use.

Hair brushes should be washed in cold water to which a little ammonia has been added. Windows and mirrors can be

cleaned with thin cold starch, which is wiped off with a soft cloth after being allowed to dry thoroughly.

Store silver in a box or tin filled with powdered starch, and it will be quite bright when tak-en out.

Paper burned to a white ash and rubbed with a cloth will produce an excellent polish.

Raw meat should hang in a cool place or in a draught and be covered with muslin when flies are about. It should be partly cooked to kill the germs of decay.
