

THE NATIONAL PARKS

Lecture to Senior School Students

The pupils of our High School and the senior classes of our public schools will be given an opportunity next Friday afternoon February 8th, of hearing no less a person than the Director of Publicity for the National Parks, Mr. Campbell. His lecture will be illustrated with four motion picture reels, covering Banff, Jasper Park, and the Coast District. The scenery and the animal life will be shown on the screen with the power and vividness of the fine cinematograph which Mr. Campbell has used before distinguished audiences.

For this great treat the schools are indebted to the weighty influence of Col. W. W. Foster, who lectured so graphically on the mountain scenery of the parks at a recent date in the same auditorium. It is of course to be regretted that the junior pupils of our public schools cannot share in the treat, but that is out of the question, as Mr. Campbell, who is a very busy as well as a highly placed official, is obliged to confine himself to a single delivery.
