THE BURNING BUSH By Subadar

China is the oldest civilisation in the world, and it still believes in chopping off bandits' heads, and hanging them up in public for the benefit of the cheering multitude. There are many bandits in China. We, on the other hand, put our thugs and bandits behind prison walls for stated periods, where neither their heads nor their bodies are on view to the public. There are many such men loose in our civilisation, and their number is increasing. Our forefathers followed Chinese methods in handling them and still the supply was constant. So apparently in the words of the old song, "what's the good of anything? Why, nuffin'". The truth, however, probably is that, when a man, any man, reaches a certain state of starvation, he will steal in order to eat regardless of the punishment to follow. Our legislators might remember this just at the present time.

Gleneagles Limited wrote the council regarding the Gleneagles water mains. They were advised that at the present time the Council were not assured of any surplus sufficient to provide for the work suggested but that they would be very glad to see that any house built within a reasonable distance of the water mains was given service.

W. C. T. U.

The monthly meeting of the West Vancouver W.C.T.U. was held at the home of Mrs. G. Reid, 19th and Bellevue, on Thursday evening with the members of the 'Y' the guests of the evening. A very interesting part of the program was the presentation of a life membership pin to Mrs. Rush, who had been the first president of the West Vancouver W.C.T.U., and under whose able leadership the organization has been directed and has been successful in winning the Provincial Banner for the greatest increase in membership last year. Also it was largely due to Mrs. Rush's energy and efforts that a 'Y' organization was formed which has proved to be a very large and active organization. The remainder of the evening was spent in contests and games, after which dainty refreshments were served.

Japan in 1930 bought 5,000 B.C. Angora rabbits.

The express companies have agreed to reduce carlot rates on B.C. fruits to the East.

"You do so remind me of a telescope, Mr. Sims."
 "My appearance, do you mean?"
 "Partly, but you're so easily drawn out, seen through and shut up again."

COUNCIL NOTES

The Council went on record as expressing their admiration for the courageous action of Miss Margaret Currie in risking her own life to preserve that of a boy who was in danger of drowning near Dundarave Pier, and ordered a copy of their resolution sent to the Royal Canadian Humane Society with their unanimous hope that the Society bestow on her some token of its recognition of her bravery.

The engineer reported on:

The engineer's report was approved except in regard to 22nd from Marine to Fulton. Engineer to report further on this particular piece at the next meeting of the Council.

The boss was very busy. He glanced with impatience at the visitor's card which the office boy placed on the desk before him.

"I can't see him!" he snapped. "Go and tell him I'm out. But make it sound convincing I'm particularly anxious not to offend him."

"Yes, sir," replied the boy. He walked thoughtfully over to the door. Then he turned. "Look here, sir," he added, "don't you think it might seem more convincing if I went to him smoking one of your best cigars?"
