ASK OTTAWA TO CONTROL PARK

Chairman A.A. Lane of the village of Mission welcomed 150 guests at a banquet there last Friday evening to discuss Garibaldi Park. Representatives of administrative bodies from Chilliwack to Vancouver considered the advisability of the extension of this park area and its governance by the federal authorities. A resolution, moved by Reeve S. Musselman of Maple Ridge, asking for the immediate transfer of the Garibaldi Park area to the Federal Government to provide work for the unemployed, was carried.

Reeve D. W. Poppy of Langley, who seconded the resolution, pledged the support of the municipalities south of the river.

An historic account of the negotiations between the province and the Federal Government was given by Hon. N. S. Loughheed, minister of lands. Plans have been submitted to Ottawa offering the lands and allowing federal authorities to set the boundaries, he said. The water power rights were not an insurmountable obstacle, and there was much park development that could give work to the unemployed this winter. The interior work would close down with the snow, and there were still thousands of workless in Vancouver. The development of this park would provide many opportunities for labor. It was suggested that a forest reserve adjoining the park eastward to include the Fraser Canyon, be added. The Provincial Government was anxious to help the people in preserving these lands for the future.

A lucid account of the federal parks system in general and the possibilities of Garibaldi in particular was given by Col. W. W. Foster, who said the park contained an Alpine wealth comparable to anything else in Canada. It preserved the story of creation in a museum of nature's

own selection. He considered the question of Cheakamus Lake of no consequence to the scheme. There was a splendid park with that eliminated.

Reeve J. B. Leyland confessed to visions of a national gateway to the park through the District of West Vancouver. Hon. W. Atkinson considered that no time should be lost in this project as much money would be spent in road development in the near future. Co-operation in the project was promised by H. J. Barber, M.P.

Acting Mayor John Bennett of Vancouver defined the movement as a laudable aspiration, but said he must speak with caution. The scheme would have the wholehearted support of Vancouver, if the city's rights were fully guarded. C. E. Tisdall of Vancouver supported Mr. Bennett's position regarding water rights. It was possible to make agreement with the Federal Government while safeguarding the rights of Vancouver and neighboring municipalities, he said.

Col. F. C. Bell, chairman, and Harold Graves, secretary, described the position and operation of the Garibaldi Parks Board. Mayor E. H. Bridgman of North Vancouver, pledged the co-operation of the North Shore in the work of obtaining federal administration of the park.

The family was seated at the table with a guest who was a business acquaintance of dad's, all ready to enjoy the meal, when the five-year old son blurted out, "Why, mother, this is roast beef!"
 "Yes," answered the mother, "what of it?"
 "Well, pop said this morning that he was going to bring that big fish home for dinner tonight."
