CHEVROLET TRUCKS

EVERY operator of an individual truck or fleet will profit by choosing Chevrolet commercial units because they give more power per gallon and lower cost per load!

The new and improved Chevrolet six-cylinder high-compression, valve-in-head engine assures maximum power from every gallon of gasoline... develops the greatest pulling power in the entire low-price range... is absolutely unequalled for all-round economy of operation and upkeep.

These big, smart-looking trucks have many other advantages: Increased load space and improved load distribution assure bigger loads per trip and more trips per day. Perfected hydraulic brakes assure safe, smooth, quick stops; all-steel "Turret Top" coupe-type cabs provide protection and comfort for the driver.
