Victoria Street accident

Driver is injured

An Ajax woman suffered serious head injuries when her car rolled over on Victoria Street near Whitby General Hospital last week.

Denise Dick, 19, of Charlton Crescent, Ajax, was headed west on Victoria Tuesday evening, May 31 when she drove to the gravel shoulder where the road narrows from four lanes to two.

Police say her car, a 1990 Hyundai, went out of control and flipped over four or five times. She was airlifted to Sunnybrook Medical Centre, where she's listed in fair condition.

Two female passengers received minor injuries in the incident, which is still under investigation.

Perry House tots walk to raise $1,570

Youngsters at Perry House Child Care Services raised almost $1,570 from a May 25 walkathon.

Funds raised go to the Hospital for Sick Children.

Gun meltdown

DURHAM REGIONAL POLICE property clerk Pete Smith sorts through guns turned in under the gun amnesty program. The wooden stalks were removed from the weapons and they were taken to Co-Steel Lasco in Whitby to be melted down.

Arrest made after donut shop is robbed

Police had a suspect in custody a few hours after a Brock Street North donut shop was robbed late Saturday evening, May 21.

A masked man carrying a piece of wood ran into Coffee Time Donuts, 223 Brock St. N., about 11:35 p.m., police say, grabbed cash from the till and ran back out.

Acting on a tip, police arrested a 24-year-old man at a Chestnut Street East residence a short time later.

He's charged with robbery, disguise with intent to commit an indictable offence and breach of probation.

Camera equipment is stolen

Camera equipment valued at about $7,500 was stolen after a break--in at a downtown photography studio last week.

The theft, which occurred sometime between 4:45 and 8:30 p.m. Tuesday, wasn't discovered until the next morning by Roger Morris, owner of R.W. Morris Photo Productions, 101 Dundas St. W.

Police say thieves broke into an adjoining office and then jimmied the door between the two suites.

The stolen equipment was all in one bag and nothing else was taken or damaged.

Morris's business has been opened less than a month. He says he's using borrowed equipment until the stolen items can be replaced.
