Retirees Eager to Try New Hearing Aid[†]

A new award winning hearing aid is now available for retirees![†] It is easy to use, looks great in the ear, and marks a MAJOR advancement in hearing technology!

At last. The hearing aid that thousands have wanted is now available.

The latest digital hearing aid technology solves the biggest challenge for hearing aid wearers—hearing well in noisy environments.

Nobody will notice it because of its minute size, fitting snugly and comfortably just behind your ear.

Everything works automatically. There are no controls to worry about and adjustments are easy to make—even from your smart phone. So you can get back to enjoying your relationships, rather than thinking about your hearing.

Because these new hearing aids collect and digitally processes natural, 360 degree sound thousands of times per second, they have been shown

to reduce the strain that effortful-listening puts on the brain and even to improve recall from conversations in noisy listening environments.

In fact, these hearing aids improve speech understanding in background noise 30% better than even the previous top-of-the-line hearing aids.

Hearing professionals are celebrating the biggest advancement in 30 years of fitting hearing aids and patients credit it with providing a substantial improvement in their ability to communicate in large groups and noisy social settings. A hearing test takes less than 60 minutes, you don't need a doctor's referral, and there's no cost or obligation whatsoever.

Call now to try these hearing aids for yourself!
